**Mismanaging Innovation Systems** Dec 23 2019 Once recognised as a high-performing newly industrialising Asian economy with the

potential for economic and developmental success similar to South Korea, Taiwan, Hong Kong and Singapore, Thailand's growth rate and competitive edge have declined substantially. With slower adoption and movement towards the knowledge-intensive industries, the loss of the competitive edge is a cause of growing concern among Thai policymakers, with Thailand succumbing to the middle-income trap. This book analyses Thailand's declining competitiveness in the past 50 years, considering both the national and sectoral roles and capabilities of key players, including the government, universities and research institutes, as well as the electronics, food, and automotive industries. Including comparative analyses with other Asian nations, this book is a must-read for

classifying business establishments for the purpose of collecting, analyzing, and publishing statistical data related to the U.S. business economy. It is a joint work between the United States, Canada, and Mexico that allows a high level of comparability between the countries. The NAICS officially replaced the SIC (Standard Industrial Classification) system in 1997. The publisher has included the SBA Size Standards Table as an appendix at the back of this book to assist users of the data.
