Transforming Automobile Assembly Oct 23 2021 For the world's leading car-makers, the early 1990s brought radical changes. The reports published by MIT shocked management in European and American industries. Former major companies had to face consequences no one had expected. The assembly-lines were reorganized in order to achieve higher quality at lower costs. Five years after the MIT report, this book poses the question: What are the results of this revolution in work organization? Scientists and practitioners, many of them involved in earlier reports, evaluate the changes to the automotive industry in Europe and Japan. An insight into recent concepts in automation and the organization of production.

Lemon-Aid New Cars and Trucks 2012 Apr 16 2021 Phil Edmonston, Canada's automotive "Dr. Phil," pulls no punches. He says there's never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar and an auto industry offering reduced prices, more cash rebates, low financing rates, bargain leases, and free auto maintenance programs. In this all-new guide he says: Audis are beautiful to behold but hell to own (biodegradable transmissions, "rodent snack" wiring, and mind-boggling depreciation) Many 2011-12 automobiles have "chin-to-chest head restraints, blinding dash reflections, and dash gauges that can't be seen in sunlight, not to mention painful wind-tunnel roar if the rear windows are opened while underway) Ethanol and hybrid fuel-saving claims have more in common with Harry Potter than the Society of Automotive Engineers) GM's 2012 Volt electric car is a mixture of hype and hypocrisy from the car company that "killed" its own electric car more than a decade ago) You can save \$2,000 by cutting freight fees and "administrative" charges) Diesel annual urea fill-up scams can cost you \$300, including an \$80 "handling" charge for \$25 worth of urea) Lemon-Aid's 2011-12 Endangered Species List: the Chinese Volvo, the Indian Jaguar and Land Rover, the Mercedes-Benz Smart Car, Mitsubishi, and Suzuki

Faster, Higher, Farther Oct 30 2019 A shocking exposé of Volkswagen's fraud by the New York Times reporter who covered the scandal. Updated with a New Afterword by the Author. When news of Volkswagen's clean diesel fraud first broke in September 2015, it sent shockwaves around the world. Overnight, the company long associated with quality, reliability and trust became a universal symbol of greed and deception. Consumers were outraged, investors panicked, the company embarrassed and facing bankruptcy. As lawsuits and criminal investigations piled up, by August 2016 VW had settled with American regulators and car-owners for \$15 billion, with additional fines and claims still looming. In *Faster, Higher, Farther*, Jack Ewing rips the lid off the scandal. He describes VW's rise from "the people's car" during the Nazi era to one of Germany's most prestigious and important global brands, touted for being "green." He paints vivid portraits of Volkswagen chairman Ferdinand Piëch and chief executive Martin Winterkorn, arguing that their unremitting ambition drove employees, working feverishly in pursuit of impossible sales targets, to illegal methods. With unprecedented access to key players and a ringside seat during the course of the legal proceedings, *Faster, Higher, Farther* reveals how the succeed-at-all-costs culture prevalent in modern boardrooms led to one of corporate history's farthest-reaching cases of fraud—with potentially devastating consequences. As the future of one of the world's biggest companies remains uncertain, this is the extraordinary story of Volkswagen's downfall.

The Holiday May 30 2022 The gripping Sunday Times bestselling Richard and Judy Book Club breakout thriller. Now a major TV drama on NETFLIX starring Jill Halfpenny Take a holiday you won't forget . . . Seven days. Three families. One killer. It was supposed to be the perfect holiday, dreamed up by Kate as the ideal way to turn 40: four best friends and their husbands and children in a luxurious villa under the blazing sunshine of Provence. But there is trouble in paradise. Kate suspects that her husband is having an affair, and that the other woman is one of her best friends. One of these women is willing to sacrifice years of friendship and destroy her family. But which one? As Kate closes in on the truth in the stifling Mediterranean heat, she realises too late that the stakes are far higher than she ever imagined. Because someone in the villa is prepared to kill to keep their secret hidden. Traffic Aug 09 2020 Get stuck in ... Why do some people become demons when they get behind a wheel? Why does the other lane always move faster? Why do New Yorkers jaywalk (and nobody does in Copenhagen)? And why should you never drive with any beer-drinking, divorced doctors named Fred? Driving is about far more than getting from A to B. As Tom Vanderbilt's brilliant, curiosity-filled book shows, it's actually the key to deciphering human nature and ... well, pretty much everything. From the etiquette of horn-honking to bumper stickers you should avoid, from gridlock in ancient Rome to why getting rid of road signs actually reduces accidents, *Traffic* will change the way you see yourself, and other people (and not just through your windscreen).

Lemon-Aid Used Cars and Trucks 2010-2011 Dec 13 2020 "The automotive maven and former Member of Parliament might be the most trusted man in Canada, an inverse relationship to the people he writes about." - The Globe and Mail Lemon-Aid shows car and truck buyers how to pick the cheapest and most reliable vehicles from the past 30 years of auto production. This brand-new edition of the bestselling guide contains updated information on secret service bulletins that can save you money. Phil describes sales and service scams, lists which vehicles are factory goofs, and sets out the prices you should pay. As Canada's automotive "Dr. Phil" for over 40 years, Edmonston pulls no punches. His Lemon-Aid is more potent and provocative than ever.

Between Imitation and Innovation Dec 25 2021 Recent years have seen intense debates among management and academics on the rise of 'lean production' and 'Japanization'. Some authors have stressed the 'universal' impact of new forms of work organization and 'best practice' while others have questioned the limits of convergence, stressed the weight of national contexts or 'societal effects', or highlighted the evolutionary effects of unpredictability in the external environment. The international automobile industry has been a focus for much of this debate and this book, written by a team of leading international researchers in the field, uses this industry to examine in detail the actual practice of the transfer and adaptation of productive models and the trajectories of innovation, compromise, and failure that can result. Case studies cover in detail the Japanese transplant experience in North America, and the global experience of hybrid production systems in Europe, Latin America, and Asia. The book contributes to theoretical discussions about the transfer, adaptation, or convergence of productive models. In particular, the authors argue that direct transplantation or imitation of these models is rarely feasible or even desirable. Systems cannot be transferred without being significantly reshaped. Instead, the book focuses on the process of 'hybridization', the complex interaction of productive models with national and societal effects. Hybridization, it is argued, is inevitable. But this should be seen not simply as a process of compromise and retreat but also as an important dynamic of innovation and learning. This book is from the French-based international research network GERPISA (Groupe d'étude de recherche permanent sur l'industrie et les salaires de l'automobile). See related titles below.

Human Remains Jul 08 2020 How well do you know your neighbours? Would you notice if they lived or died? Police analyst Annabel wouldn't describe herself as lonely. Her work keeps her busy and the needs of her ageing mother and her cat are more than enough to fill her time when she's on her own. But Annabel is shocked when she discovers her neighbour's decomposing body in the house next door, and appalled to think that no one, including herself, noticed her absence. Back at work she sets out to investigate, despite her police officer colleagues' lack of interest, and finds data showing that such cases are frighteningly common in her own home town. A chilling thriller and a hymn to all the lonely people, whose individual voices haunt the pages, Elizabeth Haynes' new novel is a deeply disturbing and powerful thriller that preys on our darkest fears, showing how vulnerable we are when we live alone, and how easily ordinary lives can fall apart when no one is watching.

The Night of the Fire Mar 28 2022 Swedish police inspector Ann Lindell finally returns in internationally bestselling and award-winning Kjell Eriksson's newest novel. Police inspector Ann Lindell has left the Uppsala police and is living a quiet life, producing local cheese in a small town in Uppland. But life in the country is not as idyllic as it seems. On New Year's Eve someone sets fire to the former village school which is now a home for asylum seekers, and three people are killed. Ann Lindell's investigative instincts come back to life and soon she takes on the case. She is contacted by a person who has been involved in a previous investigation and who wants to warn her. His message is short and clear: Many will die. A few weeks later a bomb explodes in a suburb of Stockholm. Kjell Eriksson wrote seven highly acclaimed novels about Ann Lindell, beginning with award-winner *The Princess of Burundi*, and now, after ten years, he returns to the Uppsala region and his sympathetic police inspector. *The Night of the Fire* is the first of two new volumes featuring Ann Lindell.
