Twombly was a man obsessed with myth and history—including his own. Shuttling between stunning homes in Italy and the United States where he perfected his room-size canvases, he managed his public image carefully and rarely gave interviews. Upon first seeing Twombly's remarkable paintings, writer Joshua Rivkin became obsessed himself with the mysterious artist, and began chasing every lead, big or small—anything that might illuminate those works, or who Twombly really was. Now, after unprecedented archival research and years of interviews, Rivkin has reconstructed Twombly's life, from his time at the legendary Black Mountain College to his canonization in a 1994 MoMA retrospective; from his heady explorations of Rome in the 1950s with Robert Rauschenberg to the ongoing efforts to shape his legacy after his death. Including previously unpublished photographs, Chalk presents a more personal and searching type of biography than we've ever encountered, and brings to life a more complex Twombly than we've ever known.

But it's true—Milton and Marlo have switched places, and Marlo finds herself trapped in Milton's gross, gangly body. She also finds herself trapped in Fibble, a three-ring media circus run by none other than P. T. Barnum, an insane ringmaster with grandiose plans and giant, flaming pants. Meanwhile Milton, as Marlo, is working at the devil's new television network, T.H.E.E.N.D. But there's something strange about these new shows. Why do they all air at the same? And are they really broadcasting to the Surface? Soon Milton and Marlo realize that they need each other to sort through the lies and possibly prevent the end of the world—if Bea "Elsa" Bubbb doesn't catch them first.

SS Atlantic Mar 06 2021 It's a cold April night on the high seas. A ship steams quickly towards port. Aboard are wealthy passengers enjoying their luxurious accommodations. In the holds below, steerage passengers sit in crowded berths, excited about starting a new life in a new world. In the bridge above, the Captain retires for the evening. The lookouts think they see something ahead. Too late, they warn the bridge . . . This was the fate of the S.S. Atlantic, the second ship built by the White Star Line for its new fleet. Built forty-two years before the RMS Titanic, the Atlantic had successfully completed eighteen crossings before it ran aground off the coast of Nova Scotia on April 1, 1873, killing 562 of the 952 onboard. It was the worst trans-Atlantic marine disaster of the 19th century, yet, until now, the full story has never been told.

Harper Lee's To Kill a Mockingbird Mar 26 2020 In 1960, *To Kill a Mockingbird* was published to critical acclaim. To commemorate *To Kill a Mockingbird*'s 50th anniversary, Michael J. Meyer has assembled a collection of new essays that celebrate this enduring work of American literature. These essays approach the novel from educational, legal, social, and thematic perspectives. Harper Lee's only novel won the Pulitzer Prize and was transformed into a beloved film starring Gregory Peck as Atticus Finch. An American classic that frequently appears in middle school and high school curriculums, the novel

has been subjected to criticism for its subject matter and language. Still relevant and meaningful, *To Kill a Mockingbird* has nonetheless been under-appreciated by many critics. There are few books that address Lee's novel's contribution to the American canon and still fewer that offer insights that can be used by teachers and by students. These essays suggest that author Harper Lee deserves more credit for skillfully shaping a masterpiece that not only addresses the problems of the 1930s but also helps its readers see the problems and prejudices the world faces today. Intended for high school and undergraduate usage, as well as for teachers planning to use *To Kill a Mockingbird* in their classrooms, this collection will be a valuable resource for all teachers of American literature.

Peril Oct 25 2022 The transition from President Donald J. Trump to President Joseph R. Biden Jr. stands as one of the most dangerous periods in American history. But as # 1 internationally bestselling author Bob Woodward and acclaimed reporter Robert Costa reveal for the first time, it was far more than just a domestic political crisis. Woodward and Costa interviewed more than 200 people at the center of the turmoil, resulting in more than 6,000 pages of transcripts—and a spellbinding and definitive portrait of a nation on the brink. This classic study of Washington takes readers deep inside the Trump White House, the Biden White House, the 2020 campaign, and the Pentagon and Congress, with vivid, eyewitness accounts of what really happened. *Peril* is supplemented throughout with never-before-seen material from secret orders, transcripts of confidential calls, diaries, emails, meeting notes and other personal and government records, making for an unparalleled history. It is also the first inside look at Biden's presidency as he faces the challenges of a lifetime: the continuing deadly pandemic and millions of Americans facing soul-crushing economic pain, all the while navigating a bitter and disabling partisan divide, a world rife with threats, and the hovering, dark shadow of the former president. "We have much to do in this winter of peril," Biden declared at his inauguration, an event marked by a nerve-wracking security alert and the threat of domestic terrorism. *Peril* is the extraordinary story of the end of one presidency and the beginning of another, and represents the culmination of Bob Woodward's news-making trilogy on the Trump presidency, along with *Fear and Rage*. And it is the beginning of a collaboration with fellow Washington Post reporter Robert Costa that will remind readers of Woodward's coverage, with Carl Bernstein, of President Richard M. Nixon's final days.

Smaller and Smaller Circles May 20 2022 This harrowing mystery, winner of the Philippine National Book Award, follows two Catholic priests on the hunt through Manila for a brutal serial killer Payatas, a 50-acre dump northeast of Manila's Quezon City, is home to thousands of people who live off of what they can scavenge there. It is one of the poorest neighborhoods in a city whose law enforcement is already stretched thin, devoid of forensic resources and rife with corruption. So when the eviscerated bodies of preteen boys begin to appear in the dump heaps, there is no one to seek justice on their behalf. In the rainy summer of 1997, two Jesuit priests take the matter of protecting their flock into their own hands. Father Gus Saenz is a respected forensic anthropologist, one of the few in the Philippines, and has been tapped by the Director of the National Bureau of Investigations as a backup for police efforts. Together with his protégé, Father Jerome Lucero, a psychologist, Saenz dedicates himself to tracking down the monster preying on these impoverished boys. *Smaller and Smaller Circles*, widely regarded as the first Filipino crime novel, is a poetic masterpiece of literary noir, a sensitive depiction of a time and place, and a fascinating story about the Catholic Church and its place in its devotees' lives.

Locked in Time Nov 02 2020 Fossils allow us to picture the forms of life that inhabited the earth eons ago. But we long to know more: how did these animals actually behave? We are fascinated by the daily lives of our fellow creatures—how they reproduce and raise their young, how they hunt their prey or elude their predators, and more. What would it be like to see prehistoric animals as they lived and breathed? From dinosaurs fighting to their deaths to elephant-sized burrowing ground sloths, this book takes readers on a global journey deep into the earth's past. *Locked in Time* showcases fifty of the most astonishing fossils ever found, brought together in five fascinating chapters that offer an unprecedented glimpse at the real-life behaviors of prehistoric animals. Dean R. Lomax examines the extraordinary direct evidence of fossils captured in the midst of everyday action, such as dinosaurs sitting on their eggs like birds, Jurassic flies preserved while mating, a T. rex infected by parasites. Each fossil, he reveals, tells a unique story about prehistoric life. Many recall behaviors typical of animals familiar to us today, evoking the chain of evolution that links all living things to their distant ancestors. *Locked in Time* allows us to see that fossils are not just inanimate objects: they can record the life stories of creatures as fully alive as any today. Striking and scientifically rigorous illustrations by renowned paleoartist Bob Nicholls bring these breathtaking moments to life.

The new edition of *Still Learning to Read* focuses on the needs of students in grades 3-6 in all aspects of reading workshop, including reading workshop, read-aloud, classroom design, digital tools, fiction, nonfiction, and close reading. The book stays true to its original beliefs of slowing down and knowing our readers, but it also takes into account the sense of urgency that changing times and standards impose on classrooms. This edition examines current trends in literacy, includes a new section on intentional instructional planning, and provides expanded examples of mini-lessons and routines that promote deeper thinking about learning. It also includes a brand new chapter on scaffolding for reading nonfiction and showcases the authors' latest thinking on close reading and text complexity.
