Camp Pendleton Jul 14 2021 Camp Pendleton was established in 1942 by the Navy Department as the West Coast training facility for the United States Marine Corps. Located in rugged northwest San Diego County, Camp Pendleton quickly became one of the largest training centers for infantry, aviation, and amphibious units and has long been the threshold for Marines embarking to participate in armed conflicts in the Far East and around the globe. From World War II to Operation Iraqi Freedom, Camp Pendleton has served as the backdrop and staging ground for troops, artillery, tanks, and infantry. Named for Maj. Gen. Joseph H. Pendleton, who pioneered Marine activity in San Diego, Camp Pendleton is situated on approximately 250,000 acres on the California coast and its access to land, sea, and air has been instrumental in cross-training Marines. Thousands of Marines have called "CamPen" home since its inception, including the oldest and most decorated Marine unit, the 1st Marine Division.

They Called Us "Lucky" Apr 30 2020 From the Arizona Congressman, a 21st-century Band of Brothers chronicling the eternal bonds forged between the Marines of Lima Company, the hardest-hit unit of the Iraq War At first, they were "Lucky Lima." Infantryman Ruben Gallego and his brothers in Lima Company—3rd Battalion, 25th Marines, young men drawn from blue-collar towns, immigrant households, Navajo reservations—returned unscathed on patrol after patrol through the increasingly violent al Anbar region of Iraq, looking for weapons caches and insurgents trying to destabilize the nascent Iraqi government. After two months in Iraq, Lima didn't have a casualty, not a single Purple Heart, no injury worse than a blister. Lucky Lima. Then, in May 2005, Lima's fortunes flipped. Unknown to Ruben and his fellow grunts, al Anbar had recently become a haven for al Qaeda in Mesopotamia. The bin Laden-sponsored group had recruited radicals from all over the world for jihad against the Americans. On one fateful day, they were lured into a death house; the ambush cost the lives of two men, including a platoon sergeant. Two days later, Ruben's best friend, Jonathon Grant, died in an IED attack, along with several others. Events worsened from there. A disastrous operation in Haditha in August claimed the lives of thirteen Marines when an IED destroyed their amphibious vehicle. It was the worst single-day loss for the Marines since the 1983 Beirut bombings. By the time 3/25 went home in November, it had lost more men than any other single unit in the war. Forty-six Marines and two Navy Corpsmen serving with the battalion in Iraq were killed in action during their roughly nine-month activation. They Called Us "Lucky" details Ruben Gallego's journey and includes harrowing accounts of some of the war's most costly battles. It details the struggles and the successes of Ruben—now a member of Congress—and the rest of Lima Company following Iraq, examining the complicated matter of PTSD. And it serves as a tribute to Ruben's fallen comrades, who made the ultimate

sacrifice for their country.

MCDP 1 Warfighting Apr 23 2022 MCDP 1 WARFIGHTING Since Fleet Marine Force Manual 1, Warfighting, was first published in 1989, it has had a significant impact both inside and outside the Marine Corps. That manual has changed the way Marines think about warfare. It has caused energetic debate and has been translated into several foreign languages, issued by foreign militaries, and published commercially. It has strongly influenced the development of doctrine by our sister Services. Our current naval doctrine is based on the tenets of maneuver warfare as described in that publication. Current and emerging concepts such as operational maneuver from the sea derive their doctrinal foundation from the philosophy contained in Warfighting. Our philosophy of warfighting, as described in the manual, is in consonance with joint doctrine, contributing to our ability to operate harmoniously with the other Services. **Marines Dodging Death** Mar 30 2020 Most Marine and Navy Corpsmen who have seen active combat have, at one time or another, experienced a close call when they were seconds or perhaps inches from death yet survived because of a quick reaction, divine intervention or just plain luck. From Pearl Harbor to Baghdad, this volume contains the stories of 62 Marines who narrowly escaped death while fighting in America's wars. Inspired by the author's own close call in May 1968, it recounts a great variety of harrowing experiences. Personal background from before and after the close calls provides a more human facet while additional research adds historical information to these fascinating stories of Marines and Navy Corpsmen.

The Mirror Test Jun 20 2019 A New York Times Editors' Choice A Military Times Best Book of the Year A powerfully written firsthand account of the human costs of conflict. J. Kael Weston spent seven years on the ground in Iraq and Afghanistan working for the U.S. State Department in some of the most dangerous frontline locations. Upon his return home, while traveling the country to pay respect to the dead and wounded, he asked himself: When will these wars end? How will they be remembered and memorialized? What lessons can we learn from them? These are questions with no quick answers, but perhaps ones that might lead to a shared reckoning worthy of the sacrifices of those—troops and civilians alike—whose lives have been changed by more than a decade and a half of war. Weston takes us from Twentynine Palms in California to Fallujah in Iraq, Khost and Helmand in Afghanistan, Maryland, Colorado, Wyoming, and New York City, as well as to out-of-the-way places in Iowa and Texas. We meet generals, corporals and captains, senators and ambassadors, NATO allies, Iraqi truck drivers, city councils, imams and mullahs, Afghan schoolteachers, madrassa and college students, former Taliban fighters and ex-Guantánamo prison detainees, a torture victim, SEAL and Delta Force teams, and many Marines. The overall frame for the book, from which the title is taken, centers on soldiers who have received a grievous wound to the face. There is a moment during their recovery when they must look upon their reconstructed appearance for the first time. This is known as "the mirror test." From an intricate tapestry of voices and stories—Iraqi, Afghan, and American—Weston delivers a larger mirror test for our nation in its global role. An unflinching and deep examination of the interplay between warfare and diplomacy, this is an essential book—a crucial look at America now, how it is viewed in the world and how the nation views itself.

Into the Fire Aug 23 2019 "The story of what Dakota did . . . will be told for generations."—President Barack Obama, from remarks given at Meyer's Medal of Honor ceremony In the fall of 2009, Taliban insurgents ambushed a patrol of Afghan soldiers and Marine advisors in a mountain village called Ganjigal. Firing from entrenched positions, the enemy was positioned to wipe out one hundred men who were pinned down and were repeatedly refused artillery support. Ordered to remain behind with the vehicles, twenty-one year-old Marine corporal Dakota Meyer disobeyed orders and attacked to rescue his comrades. With a brave driver at the wheel, Meyer stood in the gun turret exposed to withering fire, rallying Afghan troops to follow. Over the course of the five hours, he charged into the valley time and again. Employing a variety of machine guns, rifles, grenade launchers, and even a rock, Meyer repeatedly repulsed enemy attackers, carried wounded Afghan soldiers to safety, and provided cover for dozens of others to escape—supreme acts of valor and determination. In the end, Meyer and four stalwart comrades—an Army captain, an Afghan sergeant major, and two Marines—cleared the battlefield and came to grips with a tragedy they knew could have been avoided. For his actions on that day, Meyer became the first living Marine in three decades to be awarded the Medal of Honor. *Into the Fire* tells the full story of the chaotic battle of Ganjigal for the first time, in a compelling, human way that reveals it as a microcosm of our recent wars. Meyer takes us from his upbringing on a farm in Kentucky, through his Marine and sniper training, onto the battlefield, and into the vexed aftermath of his harrowing exploits in a battle that has become the stuff of legend. Investigations ensued, even as he was pitched back into battle alongside U.S. Army soldiers who embraced him as a fellow grunt. When it was over, he returned to the States to confront living with the loss of his closest friends. This is a tale of American values and upbringing, of stunning heroism, and of adjusting to loss and to civilian life. We see it all through Meyer's eyes, bullet by bullet, with raw honesty in telling of both the errors that resulted in tragedy and the resolve of American soldiers, U.S. Marines, and Afghan soldiers who'd been abandoned and faced certain death. Meticulously researched and thrillingly told, with nonstop pace and vivid detail, *Into the Fire* is the unvarnished story of a modern American hero. Praise for *Into the Fire* "A story of men at their best and at their worst . . . leaves you gaping in admiration at Medal of Honor winner Dakota Meyer's courage."—National Review "Meyer's dazzling bravery wasn't momentary or impulsive but deliberate and sustained."—The Wall Street Journal "[A] cathartic, heartfelt account . . . Combat memoirs don't get any more personal."—Kirkus Reviews "A great contribution to the discussion of an agonizingly complex subject."—The Virginian-Pilot "Black Hawk Down meets Lone Survivor."—Library Journal

The Education of Corporal John Musgrave Nov 06 2020 A Marine's searing and intimate story—"A passionate, fascinating, and deeply humane memoir of both war and of the hard work of citizenship and healing in war's aftermath. A superb addition to our understanding of the Vietnam War, and of its lessons" (Phil Klay, author of *Redeployment*). John Musgrave had a small-town midwestern childhood that embodied

the idealized postwar America. Service, patriotism, faith, and civic pride were the values that guided his family and community, and like nearly all the boys he knew, Musgrave grew up looking forward to the day when he could enlist to serve his country as his father had done. There was no question in Musgrave's mind: He was going to join the legendary Marine Corps as soon as he was eligible. In February of 1966, at age seventeen, during his senior year in high school, and with the Vietnam War already raging, he walked down to the local recruiting station, signed up, and set off for three years that would permanently reshape his life. In this electrifying memoir, he renders his wartime experience with a powerful intimacy and immediacy: from the rude awakening of boot camp, to daily life in the Vietnam jungle, to a chest injury that very nearly killed him. Musgrave also vividly describes the difficulty of returning home to a society rife with antiwar sentiment, his own survivor's guilt, and the slow realization that he and his fellow veterans had been betrayed by the government they served. And he recounts how, ultimately, he found peace among his fellow veterans working to end the war. Musgrave writes honestly about his struggle to balance his deep love for the Marine Corps against his responsibility as a citizen to protect the very troops asked to protect America at all costs. Fiercely perceptive and candid, *The Education of Corporal John Musgrave* is one of the most powerful memoirs to emerge from the war.

Redeployment Oct 17 2021 Winner of the National Book Award for Fiction "Redeployment is hilarious, biting, whipsawing and sad. It's the best thing written so far on what the war did to people's souls."—Dexter Filkins, *The New York Times Book Review* Selected as one of the best books of the year by *The New York Times Book Review*, *Time*, *Newsweek*, *The Washington Post Book World*, *Amazon*, and more Phil Klay's *Redeployment* takes readers to the frontlines of the wars in Iraq and Afghanistan, asking us to understand what happened there, and what happened to the soldiers who returned. Interwoven with themes of brutality and faith, guilt and fear, helplessness and survival, the characters in these stories struggle to make meaning out of chaos. In "Redeployment", a soldier who has had to shoot dogs because they were eating human corpses must learn what it is like to return to domestic life in suburbia, surrounded by people "who have no idea where Fallujah is, where three members of your platoon died." In "After Action Report", a Lance Corporal seeks expiation for a killing he didn't commit, in order that his best friend will be unburdened. A Mortuary Affairs Marine tells about his experiences collecting remains—of U.S. and Iraqi soldiers both. A chaplain sees his understanding of Christianity, and his ability to provide solace through religion, tested by the actions of a ferocious Colonel. And in the darkly comic "Money as a Weapons System", a young Foreign Service Officer is given the absurd task of helping Iraqis improve their lives by teaching them to play baseball. These stories reveal the intricate combination of monotony, bureaucracy, comradeship and violence that make up a soldier's daily life at war, and the isolation, remorse, and despair that can accompany a soldier's homecoming. *Redeployment* has become a classic in the tradition of war writing. Across nations and continents, Klay sets in devastating relief the two worlds a soldier inhabits: one of extremes and one of loss. Written with a hard-eyed realism and stunning emotional depth, this work marks Phil Klay as one of the most talented new voices of his generation.

Make Your Bed Dec 07 2020 Based on a Navy SEAL's inspiring graduation speech, this #1 *New York Times*

bestseller of powerful life lessons "should be read by every leader in America" (Wall Street Journal). If you want to change the world, start off by making your bed. On May 17, 2014, Admiral William H. McRaven addressed the graduating class of the University of Texas at Austin on their Commencement day. Taking inspiration from the university's slogan, "What starts here changes the world," he shared the ten principles he learned during Navy Seal training that helped him overcome challenges not only in his training and long Naval career, but also throughout his life; and he explained how anyone can use these basic lessons to change themselves-and the world-for the better. Admiral McRaven's original speech went viral with over 10 million views. Building on the core tenets laid out in his speech, McRaven now recounts tales from his own life and from those of people he encountered during his military service who dealt with hardship and made tough decisions with determination, compassion, honor, and courage. Told with great humility and optimism, this timeless book provides simple wisdom, practical advice, and words of encouragement that will inspire readers to achieve more, even in life's darkest moments. "Powerful." --USA Today "Full of captivating personal anecdotes from inside the national security vault." --Washington Post "Superb, smart, and succinct." --Forbes

It Happened on the Way to War Jul 22 2019 This is a book about two forms of service that may appear contradictory: war-fighting and peacemaking, military service and social entrepreneurship. In 2001, Marine officer-in-training Rye Barcott cofounded a nongovernmental organization with two Kenyans in the Kibera slum of Nairobi. Their organization-Carolina for Kibera-grew to become a model of a global movement called participatory development, and Barcott continued volunteering with CFK while leading Marines in dangerous places. *It Happened on the Way to War* is a true story of heartbreak, courage, and the impact that small groups of committed citizens can make in the world.

Improving the Decision Making Abilities of Small Unit Leaders Jan 08 2021 For the past decade, the U.S. Marine Corps and its sister services have been engaged in what has been termed "hybrid warfare," which ranges from active combat to civilian support. Hybrid warfare typically occurs in environments where all modes of war are employed, such as conventional weapons, irregular tactics, terrorism, disruptive technologies, and criminality to destabilize an existing order. In August 2010, the National Research Council established the Committee on Improving the Decision Making Abilities of Small Unit Leaders to produce *Improving the Decision Making Abilities of Small Unit Leaders*. This report examines the operational environment, existing abilities, and gap to include data, technology, skill sets, training, and measures of effectiveness for small unit leaders in conducting enhanced company operations (ECOs) in hybrid engagement, complex environments. *Improving the Decision Making Abilities of Small Unit Leaders* also determines how to understand the decision making calculus and indicators of adversaries. *Improving the Decision Making Abilities of Small Unit Leaders* recommends operational and technical approaches for improving the decision making abilities of small unit leaders, including any acquisition and experimentation efforts that can be undertaken by the Marine Corps and/or by other stakeholders aimed specifically at improving the decision making of small unit leaders. This report recommends ways to ease the burden on small unit leaders and to better prepare the small unit leader for success. *Improving the Decision Making Abilities of Small Unit Leaders* also identifies a responsible organization to ensure that training and education programs are properly developed, staffed, operated, evaluated, and expanded.

You Are Worth It Jul 02 2020 The youngest living Medal of Honor recipient delivers an unforgettable memoir that "will inspire every reader" (Jim Mattis) NATIONAL BESTSELLER | A Marine Commandant's Reading List selection On November 21, 2010, U.S. Marine Lance Corporal Kyle Carpenter was posted atop a building in violent Helmand Province, Afghanistan, when an enemy grenade skittered toward Kyle and fellow Marine Nick Eufrazio. Without hesitation, Kyle chose a path of selfless heroism that few can imagine. He jumped on the grenade, saving Nick but sacrificing his own body. Kyle Carpenter's heart flatlined three times while being evacuated off the battlefield in Afghanistan. Yet his spirit was unbroken. Severely

wounded from head to toe, Kyle lost his right eye as well as most of his jaw. It would take dozens of surgeries and almost three years in and out of the hospital to reconstruct his body. From there, he began the process of rebuilding his life. What he has accomplished in the last nine years is extraordinary: he's come back a stronger, better, wiser person. In 2014, Kyle was awarded the nation's highest military decoration, the Medal of Honor, for his "singular act of courage" on that rooftop in Afghanistan, an action which had been reviewed exhaustively by the military. Kyle became the youngest living recipient of the award-and only the second living Marine so honored since Vietnam. Kyle's remarkable memoir reveals a central truth that will inspire every reader: Life is worth everything we've got. It is the story of how one man became a so-called hero who willingly laid down his life for his brother-in-arms—and equally, it is a story of rebirth, of how Kyle battled back from the gravest challenge to forge a life of joyful purpose. *You Are Worth It* is a memoir about the war in Afghanistan and Kyle's heroics, and it is also a manual for living. Organized around the credos that have guided Kyle's life (from "Don't Hide Your Scars" to "Call Your Mom"), the book encourages us to become our best selves in the time we've been given on earth. Above all, it's about finding purpose, regardless of the hurdles that may block our way. Moving and unforgettable, *You Are Worth It* is an astonishing memoir from one of our most extraordinary young leaders.
