These Truths: A History of the United States Feb 06 2021 New York Times Bestseller In the most ambitious one-volume American history in decades, award-winning historian and New Yorker writer Jill Lepore offers a magisterial account of the origins and rise of a divided nation, an urgently needed reckoning with the beauty and tragedy of American history. Written in elegiac prose, Lepore's groundbreaking investigation places truth itself—a devotion to facts, proof, and evidence—at the center of the nation's history. The American experiment rests on three ideas—"these truths," Jefferson called them—political equality, natural rights, and the sovereignty of the people. And it rests, too, on a fearless dedication to inquiry, Lepore argues, because self-government depends on it. But has the nation, and democracy itself, delivered on that promise? *These Truths* tells this uniquely American story, beginning in 1492, asking whether the course of events over more than five centuries has proven the nation's truths, or belied them. To answer that question, Lepore traces the intertwined histories of American politics, law, journalism, and technology, from the colonial town meeting to the nineteenth-century party machine, from talk radio to twenty-first-century Internet polls, from Magna Carta to the Patriot Act, from the printing press to Facebook News. Along the way, Lepore's sovereign chronicle is filled with arresting sketches of both well-known and lesser-known Americans, from a parade of presidents and a rogues' gallery of political mischief makers to the intrepid leaders of protest movements, including Frederick Douglass, the famed abolitionist orator; William Jennings Bryan, the three-time presidential candidate and ultimately tragic populist; Pauli Murray, the visionary civil rights strategist; and Phyllis Schlafly, the uncredited architect of modern conservatism. Americans are descended from slaves and slave owners, from conquerors and the conquered, from immigrants and from people who have fought to end immigration. "A nation born in contradiction will fight forever over the meaning of its history," Lepore writes, but engaging in that struggle by studying the past is part of the work of citizenship. "The past is an inheritance, a gift and a burden," *These Truths* observes. "It can't be shirked. There's nothing for it but to get to know it."

Lies My Teacher Told Me Nov 15 2021 Criticizes the way history is presented in current textbooks, and suggests a fresh and more accurate approach to teaching American history.

White Trash Aug 20 2019 The New York Times bestseller A New York Times Notable and Critics' Top Book of 2016 Longlisted for the PEN/John Kenneth Galbraith Award for Nonfiction One of NPR's 10 Best Books Of 2016 Faced Tough Topics Head On NPR's Book Concierge Guide To 2016's Great Reads San Francisco Chronicle's Best of 2016: 100 recommended books A Washington Post Notable Nonfiction Book of 2016 Globe & Mail 100 Best of 2016 "Formidable and truth-dealing . . . necessary." —The New York Times "This eye-opening investigation into our country's entrenched social hierarchy is acutely relevant." —O Magazine In her groundbreaking bestselling history of the class system in America, Nancy Isenberg upends history as we know it by taking on our comforting myths about equality and uncovering the crucial legacy of the ever-present, always embarrassing—if occasionally entertaining—poor white trash. "When you turn an election into a three-ring circus, there's always a chance that the dancing bear will win," says Isenberg of the political climate surrounding Sarah Palin. And we recognize how right she is today. Yet the voters who boosted Trump all the way to the White House have been a permanent part of our American fabric, argues Isenberg. The wretched and landless poor have existed from the time of the earliest British colonial settlement to today's hillbillies. They were alternately known as "waste people," "offals," "rubbish," "lazy lubbers," and "crackers." By the 1850s, the downtrodden included so-called "clay eaters" and "sandhillers," known for prematurely aged children distinguished by their yellowish skin, ragged clothing, and listless minds. Surveying political rhetoric and policy, popular literature and scientific theories over four hundred years, Isenberg upends assumptions about America's supposedly class-free society—where liberty and hard work were meant to ensure real social mobility. Poor whites were central to the rise of the Republican Party in the early nineteenth century, and the Civil War itself was fought over class issues nearly as much as it was fought over slavery. Reconstruction pitted poor white trash against newly freed slaves, which factored in the rise of eugenics—a widely popular movement embraced by Theodore Roosevelt that targeted poor whites for sterilization. These poor were at the heart of New Deal reforms and LBJ's Great Society; they haunt us in reality TV shows like *Here Comes Honey Boo Boo* and *Duck Dynasty*. Marginalized as a class, white trash have always been at or near the center of major political debates over the character of the American identity. We acknowledge racial injustice as an ugly stain on our nation's history. With Isenberg's landmark book, we will have to face the truth about the enduring, malevolent nature of class as well.

An African American and Latinx History of the United States Dec 16 2021 An intersectional history of the shared struggle for African American and Latinx civil rights Spanning more than two hundred years, *An African American and Latinx History of the United States* is a revolutionary, politically charged narrative history, arguing that the "Global South" was crucial to the development of America as we know it. Scholar and activist Paul Ortiz challenges the notion of westward progress as exalted by widely taught formulations like "manifest destiny" and "Jacksonian democracy," and shows how placing African American, Latinx, and Indigenous voices unapologetically front and center transforms US history into one of the working class organizing against imperialism. Drawing on rich narratives and primary source documents, Ortiz links racial segregation in the Southwest and the rise and violent fall of a powerful tradition of Mexican labor organizing in the twentieth century, to May 1, 2006, known as International Workers' Day, when migrant laborers—Chicana/os, AfroCubanos, and immigrants from every continent on earth—united in resistance on the first "Day Without Immigrants." As African American civil rights activists fought Jim Crow laws and Mexican labor organizers warred against the suffocating grip of capitalism, Black and Spanish-language newspapers, abolitionists, and Latin American revolutionaries coalesced around movements built between people from the United States and people from Central America and the Caribbean. In stark contrast to the resurgence of "America First" rhetoric, Black and Latinx intellectuals and organizers today have historically urged the United States to build bridges of solidarity with the nations of the Americas. Incisive and timely, this bottom-up history, told from the interconnected vantage points of Latinx and African Americans, reveals the radically different ways that people of the diaspora have addressed issues still plaguing the United States today, and it offers a way forward in the continued struggle for universal civil rights. 2018 Winner of the PEN Oakland/Josephine Miles Literary Award

U.S. History, Grades 6 - 12 Jul 23 2022 The Mark Twain U.S. History: People and Events 1865-Present social studies book explains the decisions and events of America's past. The Significance of the Frontier in American History Nov 22 2019 This hugely influential work marked a turning point in US history and culture, arguing that the nation's expansion into the Great West was directly linked to its unique spirit: a rugged individualism forged at the juncture between civilization and wilderness, which – for better or worse – lies at the heart of American identity today. Throughout history, some books have changed the world. They have transformed the way we see ourselves – and each other. They have inspired debate, dissent, war and revolution. They have enlightened, outraged, provoked and comforted. They have enriched lives – and destroyed them. Now Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization and helped make us who we are.

Someone Is Out to Get Us Sep 25 2022 From UFOs to Dr. Strangelove, LSD experiments to Richard Nixon, author Brian Brown investigates the paranoid, panicked history of the Cold War. In *Someone Is Out to Get Us*, Brian T. Brown explores the delusions, absurdities, and best-kept secrets of the Cold War, during which the United States fought an enemy of its own making for over forty years -- and nearly scared itself to death in the process. The nation chose to fear a chimera, a rotting communist empire that couldn't even feed itself, only for it to be revealed that what lay behind the Iron Curtain was only a sad Potemkin village. In fact, one of the greatest threats to our national security may have been our closest ally. The most effective spy cell the Soviets ever had was made up of aristocratic Englishmen schooled at Cambridge. Establishing a communist peril but lacking proof, J. Edgar Hoover became our Big Brother, and Joseph McCarthy went hunting for witches. Richard Nixon stepped into the spotlight as an opportunistic, ruthless Cold Warrior; his criminal cover-up during a dark presidency was exposed by a Deep Throat in a parking garage. *Someone Is Out to Get Us* is the true and complete account of a long-misunderstood period of history during which lies, conspiracies, and paranoia led Americans into a state of madness and misunderstanding, too distracted by fictions to realize that the real enemy was looking back at them in the mirror the whole time.

Miracles in American History Jan 25 2020 Discover desperate circumstances in America's past and how men and women rose up with faith and courage and situations unexplainably turned around. Read of captivating, little-known stories during the French & Indian War, Revolution, Barbary Pirate War, War of 1812, Civil War, WWI & II, and up through Apollo 13. Learn "the rest of the story" of how leaders prayed, challenged and inspired the nation and disaster was averted! YOU will be inspired as you uncover "Miracles in American History - 32 Amazing Stories of Answered Prayer." ARE you aware of these past crises when America's fate hung in the balance? In 1746, 70 ships with 13,000 troops sailed from France to lay waste to the American colonies. Massachusetts Governor William Shirley proclaimed a Day of Fasting. What happened next was unexplainable! After the Battle of Monongahela, George Washington wrote from Fort Cumberland to his younger brother, John Augustine Washington, July 18, 1755: "But by the All-Powerful Dispensations of Providence, I have been protected beyond all human probability or expectation; for I had four bullets through my coat, and two horses shot under me, yet escaped unhurt, although death was leveling my companions on every side of me!" How did Thomas Jefferson's resolution for a Day of Fasting on June 1, 1774, lead to the forming of the Continental Congress, and eventually Independence? Read how in 1781 the providential rising of three rivers in 10 days allowed Americans to escape British General Cornwallis? Or how the uncanny way Benedict Arnold's planned betrayal of West Point was discovered? George Washington exclaimed: "The Hand of Providence has been so conspicuous in all this (the course of the war) that he must be worse than an infidel that lacks faith." Ben Franklin declared: "In the beginning of the Contest with Great Britain...we had daily prayer in this room for Divine protection...All of us who were engaged in the struggle must have observed frequent instances of a Superintending Providence in our favor." In 1865, President Lincoln proclaimed a Day of Fasting for April 30. What freak accident happened two days later which changed the course of the Civil War? What did Woodrow Wilson declare as the U.S. entered WWI. Or Herbert Hoover during the Great Depression? Or FDR, Eisenhower, MacArthur and Patton during WWII? Or Truman during the Korean War? When Apollo 13 was lost in space, what happened after President Nixon called all of America to pray? Are you aware of these American Miracles? Find out as you read "Miracles in American History - 32 Amazing Stories of Answered Prayer."

U.S. History For Dummies Nov 03 2020 Now revised the easy-to-understand guide to the story of America Want to better understand U.S. History? This friendly book serves as your tour guide through the important events of America's past and present, introducing you to the people who helped to shape history. They're coming to America explore early civilizations, meet Native Americans, and see how the development of the English colonies led to slavery and the American Revolution From Thomas Jefferson to Abraham Lincoln examine the contributions of great Americans as well as the discovery of gold, the birth of California, the Civil War, and Manifest Destiny America grows up be there during the conquering of the West, industrial development, and the invention of the light bulb and the telephone The impact of the World Wars understand the sweeping changes these epochal events brought to America and the rest of the world The Cold War, Camelot, and Clinton take a closer look at the Korean War and communism, the fabulous '50s, JFK, Vietnam, Nixon and Watergate, Reaganomics, and the Clinton years From the '90s to now witness the birth of the microchip, the impact of hanging chads in a presidential election, the largest terrorist attack on American soil, and the growing economic crisis Open the book and find: Ten important events that defined American culture Interesting Americans, from presidents to gangsters to sports heroes How America fought to win independence from England Details about all the major wars and their long-term effects Insight into the roots of slavery Inventions that changed life for Americans The impact of the atomic bomb The Bill of Rights and the Declaration of Independence

Down & Out, on the Road Jun 10 2021 Looks at the history of homelessness in America, from colonial times to the present day.

A Patriot's History of the United States Apr 27 2020 For the past three decades, many history professors have allowed their biases to distort the way America's past is taught. These intellectuals have searched for instances of racism, sexism, and bigotry in our history while downplaying the greatness of America's patriots and the achievements of "dead white men." As a result, more emphasis is placed on Harriet Tubman than on George Washington; more about the internment of Japanese Americans during World War II than about D-Day or Iwo Jima; more on the dangers we faced from Joseph McCarthy than those we faced from Josef Stalin. A Patriot's History of the United States corrects those doctrinaire biases. In this groundbreaking book, America's discovery, founding, and development are reexamined with an appreciation for the elements of public virtue, personal liberty, and private property that make this nation uniquely successful. This book offers a long-overdue acknowledgment of America's true and proud history.

Guide to the Diplomatic History of the United States Jul 19 2019 Typically and chronologically arranged.

When the Lights Went Out Dec 24 2019 Blackouts—whether they result from military planning, network failure, human error, or terrorism—offer snapshots of electricity's increasingly central role in American society. Where were you when the lights went out? At home during a thunderstorm? During the Great Northeastern Blackout of 1965? In California when rolling blackouts hit in 2000? In 2003, when a cascading power failure left fifty million people without electricity? We often remember vividly our time in the dark. In *When the Lights Went Out*, David Nye views power outages in America from 1935 to the present not simply as technical failures but variously as military tactic, social disruption, crisis in the networked city, outcome of political and economic decisions, sudden encounter with sublimity, and memories enshrined in photographs. Our electrically lit-up life is so natural to us that when the lights go off, the darkness seems abnormal. Nye looks at America's development of its electrical grid, which made large-scale power failures possible and a series of blackouts from military blackouts to the "greenout" (exemplified by the new tradition of "Earth Hour"), a voluntary reduction organized by environmental organizations. Blackouts, writes Nye, are breaks in the flow of social time that reveal much about the trajectory of American history. Each time one occurs, Americans confront their essential condition—not as isolated individuals, but as a community that increasingly binds itself together with electrical wires and signals.

American History: A Very Short Introduction Oct 22 2019 In a miracle of concision, Paul S. Boyer provides a wide-ranging and authoritative history of America, capturing in a compact space the full story of our nation. Ranging from the earliest Native American settlers to the presidency of Barack Obama, this *Very Short Introduction* offers an illuminating account of politics, diplomacy, and war as well as the full spectrum of social, cultural, and scientific developments that shaped our country. Here is a masterful picture of America's achievements and failures, large-scale socio-historical forces, and pivotal events. Boyer sheds light on the colonial era, the Revolution and the birth of the new nation; slavery and the Civil War; Reconstruction and the Gilded Age; the Progressive era, the Roaring Twenties and the Great Depression; the two world wars and the Cold War that followed; right up to the tragedy of 9/11, the wars in Iraq and Afghanistan, and the epoch-making election of Barack Obama. Certain broad trends shape much of the narrative—immigration, urbanization, slavery, continental expansion, the global projection of U.S. power, the centrality of religion, the progression from an agrarian to an industrial to a post-industrial economic order. Yet in underscoring such large themes, Boyer also highlights the diversity of the American experience, the importance of individual actors, and the crucial role of race, ethnicity, gender, and social class in shaping the contours of specific groups within the nation's larger tapestry. And along the way, he touches upon the cultural milestones of American history, from Tom Paine's *The Crisis* to Allen Ginsberg's *Howl*. *American History: A Very Short Introduction* is a panoramic history of the United States, one that covers virtually every topic of importance—and yet can be read in a single day.

Teaching What Really Happened Oct 26 2022 "Should be in the hands of every history teacher in the country."—Howard Zinn James Loewen has revised *Teaching What Really Happened*, the bestselling, go-to resource for social studies and history teachers wishing to break away from standard textbook retellings of the past. In addition to updating the scholarship and anecdotes throughout, the second edition features a timely new chapter entitled "Truth" that addresses how traditional and social media can distort current events and the historical record. Helping students understand what really happened in the past will empower them to use history as a tool to argue for better policies in the present. Our society needs engaged citizens now more than ever, and this book offers teachers concrete ideas for getting students excited about history while also teaching them to read critically. It will specifically help teachers and students tackle important content areas, including Eurocentrism, the American Indian experience, and slavery. **Book Features:** An up-to-date assessment of the potential and pitfalls of U.S. and world history education. Information to help teachers expect, and get, good performance from students of all racial, ethnic, and

socioeconomic backgrounds. Strategies for incorporating project-oriented self-learning, having students conduct online historical research, and teaching historiography. Ideas from teachers across the country who are empowering students by teaching what really happened. Specific chapters dedicated to five content topics usually taught poorly in today's schools.

How to Hide an Empire Sep 01 2020 'Wry, readable and often astonishing... A provocative and absorbing history of the United States' New York Times The United States denies having dreams of empire. We know America has spread its money, language and culture across the world, but we still think of it as a contained territory, framed by Canada above, Mexico below, and oceans either side. Nothing could be further from the truth. This is the story of the United States outside the United States – from nineteenth-century conquests like Alaska and Puerto Rico to the catalogue of islands, archipelagos and military bases dotted around the globe. Full of surprises and previously forgotten episodes, this fascinating book casts America's history, and its present, in a revealing new light.

AP U.S. History May 29 2020 AP U.S. History Crash Course Achieve a Higher AP Score in Less Time REA's Crash Course is perfect for the time-crunched student, last-minute studier, or anyone who wants a refresher on the subject! Are you crunched for time? Have you started studying for your AP U.S. History exam yet? How will you memorize all that history before the test? Do you wish there was a fast and easy way to study for the exam AND boost your score? If this sounds like you, don't panic. REA's AP U.S. History Crash Course is just what you need. Our Crash Course gives you: Targeted, Focused Review – Study Only What You Need to Know The Crash Course is based on an in-depth analysis of the AP U.S. History course description outline and actual AP test questions. It covers only the information tested on the exam, so you can make the most of your valuable study time. Broken down into major topics and themes, REA gives you two ways to study the material — chronologically or thematically. Expert Test-taking Strategies Written by an AP teacher who has studied the AP U.S. History Exam for 20 years, the author shares his detailed, question-level strategies and explains the best way to answer the multiple-choice and essay questions. By following his expert advice, you can boost your overall point score! Key Terms You Must Know Mastering AP vocabulary terms is an easy way to boost your score. Our AP expert gives you the key terms all AP U.S. History students must know before test day. Take REA's FREE Practice Exam After studying the material in the Crash Course, go online and test what you've learned. Our full-length practice exam features timed testing, detailed explanations of answers, and automatic scoring. The exam is balanced to include every topic and type of question found on the actual AP exam, so you know you're studying the smart way! When it's crucial crunch time and your AP U.S. History exam is just around the corner, you need REA's AP U.S. History Crash Course!

Out of Many Feb 24 2020 Out of Many is a coherent narrative of American history that offers insight into how diverse communities and different regions have shaped America's past. The text reveals the ethnic, geographical and economic diversity of the United States by examining the individual, the community and the state and placing a special focus on the country's regions, particularly the West. The updated edition features new and expanded coverage of a wide variety of topics in addition to MyHistoryLab tools that connect the text to interactive online learning tools to bring U.S. history to life.

Lies My Teacher Told Me Apr 20 2022 "Every teacher, every student of history, every citizen should read this book. It is both a refreshing antidote to what has passed for history in our educational system and a one-volume education in itself." —Howard Zinn A new edition of the national bestseller and American Book Award winner, with a new preface by the author Since its first publication in 1995, *Lies My Teacher Told Me* has become one of the most important—and successful—history books of our time. Having sold nearly two million copies, the book also won an American Book Award and the Oliver Cromwell Cox Award for Distinguished Anti-Racist Scholarship and was heralded on the front page of the *New York Times*. For this new edition, Loewen has added a new preface that shows how inadequate history courses in high school help produce adult Americans who think Donald Trump can solve their problems, and calls out academic historians for abandoning the concept of truth in a misguided effort to be "objective." What started out as a survey of the twelve leading American history textbooks has ended up being what the *San Francisco Chronicle* calls "an extremely convincing plea for truth in education." In *Lies My Teacher Told Me*, James W. Loewen brings history alive in all its complexity and ambiguity. Beginning with pre-Columbian history and ranging over characters and events as diverse as Reconstruction, Helen Keller, the first Thanksgiving, the My Lai massacre, 9/11, and the Iraq War, Loewen offers an eye-opening critique of existing textbooks, and a wonderful retelling of American history as it should—and could—be taught to American students.

American History Dec 04 2020 From Colonization to the Space Race, this is the story of America's successes and failures. Learn how a little settlement of a few hundred colonists grew to be one of the most powerful nations in the world. US History: An Overview of the Most Important People & Events. American History to 1877 Jul 31 2020 American History to 1877 covers all the major themes, historical figures, major dates and events from your introductory American History courses. Topics covered include Pre-Columbian America to the post-Civil War Reconstruction era.

Writing Early American History May 21 2022 How is American history written? Pulitzer Prize-winning author Alan Taylor answers this question in this collection of his essays from *The New Republic*, where he explores the writing of early American history.

Behold, America Mar 07 2021 SELECTED AS A 2018 SUMMER READ BY THE SUNDAY TIMES, OBSERVER, I-PAPER AND THE BIG ISSUE 'Enormously entertaining' SUNDAY TIMES 'Fascinating' NEW STATESMAN 'Excoriating, brilliant' ALI SMITH 'Enthralling' GUARDIAN 'My number one contributor when it comes to US politics' DAN SNOW 'The American dream is dead,' Donald Trump said when announcing his candidacy for president in 2015. How would he revive it? By putting 'America First'. The 'American Dream' and 'America First' are two of the most loaded phrases in America today – and also two of the most misunderstood. As divides within America widen, Sarah Churchill looks to the past to reveal what the surprising history of these two phrases can tell us about today.

U.S. History Uncensored Feb 18 2022 How did we arrive where we are now: American society dominated by corporations and their interests, an economy based on war and the weapons industry, trillions of dollars missing from federal government agencies, the annihilation of our civil liberties and the shredding of the U.S. Constitution, the dumbing-down of America and the reduction of our educational system to the lowest common denominator, Peak Oil—the best-kept secret in America, and the polarization of economic prosperity and quality of life? U.S. HISTORY UNCENSORED offers a non-traditional account of our history that answers these questions and superbly connects the dots between current events and their ultimate roots. As carefully-documented as it is opinionated, this book provides a perspective that assists the reader in navigating America's precarious present and its faltering future.

Man Out Mar 27 2020 The story of men who are hurting—and hurting America by their absence Man Out describes the millions of men on the sidelines of life in the United States. Many of them have been pushed out of the mainstream because of an economy and society where the odds are stacked against them; others have chosen to be on the outskirts of twenty-first-century America. These men are disconnected from work, personal relationships, family and children, and civic and community life. They may be angry at government, employers, women, and "the system" in general—and millions of them have done time in prison and have cast aside many social norms. Sadly, too many of these men are unsure what it means to be a man in contemporary society. Wives or partners reject them; children are estranged from them; and family, friends, and neighbors are embarrassed by them. Many have disappeared into a netherworld of drugs, alcohol, poor health, loneliness, misogyny, economic insecurity, online gaming, pornography, other off-the-grid corners of the internet, and a fantasy world of starting their own business or even writing the Great American novel. Most of the men described in this book are poorly educated, with low incomes and often with very few prospects for rewarding employment. They are also disproportionately found among millennials, those over 50, and African American men. Increasingly, however, these lost men are discovered even in tony suburbs and throughout the nation. It is a myth that men on the outer corners of society are only lower-middle-class white men dislocated by technology and globalization. Unlike those who primarily blame an unjust economy, government policies, or a culture sanctioning "laziness," Man Out explores the complex interplay between economics and culture. It rejects the politically charged dichotomy of seeing such men as either victims or culprits. These men are hurting, and in turn they are hurting families and hurting America. It is essential to address their problems. Man Out draws on a wide range of data and existing research as well as interviews with several hundred men, women, and a wide variety of economists and other social scientists, social service providers and physicians, and with employers, through a national online survey and in-depth fieldwork in several communities.

U.S. History Oct 02 2020 Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom

up (eyewitness accounts, lived experience).

Out of Many Jun 22 2022 Out of Many is a coherent narrative of American history that offers insight into how diverse communities and different regions have shaped America's past. The text reveals the ethnic, geographical and economic diversity of the United States by examining the individual, the community and the state and placing a special focus on the country's regions, particularly the West. The updated edition features new and expanded coverage of a wide variety of topics in addition to MyHistoryLab tools that connect the text to interactive online learning tools to bring U.S. history to life. This book is the abridged version of Out of Many, seventh edition.

Master American History in 1 Minute A Day Oct 14 2021 Become a US trivia whiz with this crash course through four centuries of change, rebellion, conflict, and triumph in the United States. Where was America's lost colony? What tipped the balance in the Civil War? Were there second thoughts about dropping the atomic bomb? Acclaimed historian Dan Roberts—host of radio's A Moment in Time—takes readers on a bite-sized romp through five-hundred years of American history. With just one minute a day, you can master all the essential facts of America's founding, Civil War, world conflicts, domestic transformations, and more. Packed with full-color photographs, paintings, and lively mini essays, Master American History in 1 Minute a Day is the perfect armchair companion for history lovers and history learners alike.

Teaching White Supremacy Jan 05 2021 A powerful exploration of the past and present arc of America's white supremacy—from the country's inception and Revolutionary years to its 19th century flashpoint of civil war; to the Civil Rights movement of the 1960s and today's Black Lives Matter. "The most profoundly original cultural history in recent memory." —Henry Louis Gates, Jr., Harvard University "Stunning, timely . . . an achievement in writing public history . . . Teaching White Supremacy should be read widely in our roiling debate over how to teach about race and slavery in classrooms." —David W. Blight, Sterling Professor of American History, Yale University; author of the Pulitzer-prize-winning Frederick Douglass: Prophet of Freedom Donald Yacovone shows us the clear and damning evidence of white supremacy's deep-seated roots in our nation's educational system through a fascinating, in-depth examination of America's wide assortment of texts, from primary readers to college textbooks, from popular histories to the most influential academic scholarship. Sifting through a wealth of materials from the colonial era to today, Yacovone reveals the systematic ways in which this ideology has infiltrated all aspects of American culture and how it has been at the heart of our collective national identity. Yacovone lays out the arc of America's white supremacy from the country's inception and Revolutionary War years to its nineteenth-century flashpoint of civil war to the civil rights movement of the 1960s and today's Black Lives Matter. In a stunning reappraisal, the author argues that it is the North, not the South, that bears the greater responsibility for creating the dominant strain of race theory, which has been inculcated throughout the culture and in school textbooks that restricted and repressed African Americans and other minorities, even as Northerners blamed the South for its legacy of slavery, segregation, and racial injustice. A major assessment of how we got to where we are today, of how white supremacy has suffused every area of American learning, from literature and science to religion, medicine, and law, and why this kind of thinking has so insidiously endured for more than three centuries.

Out of Many Revel Access Card Aug 12 2021 For courses in U.S. History Show students how diverse communities and different regions have shaped America Revel(TM) Out of Many: A History of the American People focuses on particular communities and regions to weave the stories of the people and the nation into a single compelling narrative that continues to this day. Approaching American history from a truly continental perspective, authors John Faragher, Mari Jo Buhle, Daniel Czitrom, and Susan Armitage present vignettes -- from New England to the South, the Midwest to the far West -- that help students see how diverse communities and different regions have shaped America's past. Updated with the latest data throughout, the 9th Edition emphasizes the impact of social and economic inequality on contemporary American life from 1974 to the present. Revel is Pearson's newest way of delivering our respected content. Fully digital and highly engaging, Revel replaces the textbook and gives students everything they need for the course. Informed by extensive research on how people read, think, and learn, Revel is an interactive learning environment that enables students to read, practice, and study in one continuous experience -- for less than the cost of a traditional textbook. NOTE: Revel is a fully digital delivery of Pearson content. This ISBN is for the standalone Revel access card. In addition to this access card, you will need a course invite link, provided by your instructor, to register for and use Revel.

Why You Can't Teach United States History without American Indians Aug 24 2022 A resource for all who teach and study history, this book illuminates the unmistakable centrality of American Indian history to the full sweep of American history. The nineteen essays gathered in this collaboratively produced volume, written by leading scholars in the field of Native American history, reflect the newest directions of the field and are organized to follow the chronological arc of the standard American history survey. Contributors reassess major events, themes, groups of historical actors, and approaches--social, cultural, military, and political--consistently demonstrating how Native American people, and questions of Native American sovereignty, have animated all the ways we consider the nation's past. The uniqueness of Indigenous history, as interwoven more fully in the American story, will challenge students to think in new ways about larger themes in U.S. history, such as settlement and colonization, economic and political power, citizenship and movements for equality, and the fundamental question of what it means to be an American. Contributors are Chris Andersen, Juliana Barr, David R. M. Beck, Jacob Betz, Paul T. Conrad, Mikal Brotnov Eckstrom, Margaret D. Jacobs, Adam Jortner, Rosalyn R. LaPier, John J. Laukaitis, K. Tsiانيا Lomawaima, Robert J. Miller, Mindy J. Morgan, Andrew Needham, Jean M. O'Brien, Jeffrey Ostler, Sarah M. S. Pearsall, James D. Rice, Phillip H. Round, Susan Sleeper-Smith, and Scott Manning Stevens.

The Upswing Jan 17 2022 From the author of Bowling Alone and Our Kids, a "sweeping yet remarkably accessible" (The Wall Street Journal) analysis that "offers superb, often counterintuitive insights" (The New York Times) to demonstrate how we have gone from an individualistic "I" society to a more communitarian "We" society and then back again, and how we can learn from that experience to become a stronger, more unified nation. Deep and accelerating inequality; unprecedented political polarization; vitriolic public discourse; a fraying social fabric; public and private narcissism—Americans today seem to agree on only one thing: This is the worst of times. But we've been here before. During the Gilded Age of the late 1800s, America was highly individualistic, starkly unequal, fiercely polarized, and deeply fragmented, just as it is today. However as the twentieth century opened, America became—slowly, unevenly, but steadily—more egalitarian, more cooperative, more generous; a society on the upswing, more focused on our responsibilities to one another and less focused on our narrower self-interest. Sometime during the 1960s, however, these trends reversed, leaving us in today's disarray. In a sweeping overview of more than a century of history, drawing on his inimitable combination of statistical analysis and storytelling, Robert Putnam analyzes a remarkable confluence of trends that brought us from an "I" society to a "We" society and then back again. He draws inspiring lessons for our time from an earlier era, when a dedicated group of reformers righted the ship, putting us on a path to becoming a society once again based on community. Engaging, revelatory, and timely, this is Putnam's most ambitious work yet, a fitting capstone to a brilliant career.

A Concise American History Sep 13 2021 Expertly steering readers through the often tumultuous and exhilarating history of the United States, from its early modern Native American roots to twenty-first-century neoliberalism and the shifting political climate of the past decade, this highly readable textbook provides a compelling overview of American development over the last five centuries. This book avoids either celebratory or condemnatory rhetoric to present a critical examination of domestic America and its interaction with the rest of the world. Balancing coverage of political, social, cultural, and economic history, each chapter also includes a wealth of features to facilitate learning: Timelines situating key events in their wider chronology Lists of topics covered within each chapter for easy reference Concept boxes discussing selected issues in more detail Historiography boxes exploring key debates Chapter summaries offering condensed outlines of the main themes of each chapter Further reading lists guiding readers to additional resources Maps and images bringing to life important events and figures from America's history Clearly and engagingly written and positioning America's narrative within the wider global context, this textbook is particularly accessible for non-US students and is the perfect introduction for those new to US history. This textbook is also supported by a companion website offering interactive content including a timeline, multiple-choice quizzes, and links to selected web resources.

A People's History of the United States Apr 08 2021 A classic since its original landmark publication in 1980, Howard Zinn's A People's History of the United States is the first scholarly work to tell America's story from the bottom up—from the point of view of, and in the words of, America's women, factory workers, African Americans, Native Americans, working poor, and immigrant laborers. From Columbus to the Revolution to slavery and the Civil War—from World War II to the election of George W. Bush and the "War on Terror"—A People's History of the United States is an important and necessary contribution to a complete and balanced understanding of American history.

American Nations Mar 19 2022 An illuminating history of North America's eleven rival cultural regions that explodes the red state-blue state myth. North America was settled by people with distinct religious, political, and ethnographic characteristics, creating regional cultures that have been at odds with one another ever since. Subsequent immigrants didn't confront or assimilate into an "American" or "Canadian" culture, but rather into one of the eleven distinct regional ones that spread over the continent each staking out mutually exclusive territory. In American Nations, Colin Woodard leads us on a journey through the history of our fractured continent, and the rivalries and alliances between its component nations, which conform to neither state nor international boundaries. He illustrates and explains why "American" values vary sharply from one region to another. Woodard (author of American Character: A History of the Epic Struggle Between Individual Liberty and the Common Good) reveals how intranational differences have played a pivotal role at every point in the continent's history, from the American Revolution and the Civil War to the tumultuous sixties and the "blue county/red county" maps of recent presidential elections. American Nations is a revolutionary and revelatory take on America's myriad identities and how the conflicts between them have shaped our past and are molding our future.

A History of the American People May 09 2021 "The creation of the United States of America is the greatest of all human adventures," begins Paul Johnson. "No other national story holds such tremendous lessons, for the American people themselves and for the rest of mankind." In his prize-winning classic, Johnson presents an in-depth portrait of American history from the first colonial settlements to the Clinton administration. This is the story of the men and women who shaped and led the nation and the ordinary people who collectively created its unique character. Littered with letters, diaries, and recorded conversations, it details the origins of their struggles for independence and nationhood, their heroic efforts and sacrifices to deal with the 'organic sin' of slavery and the preservation of the Union to its explosive economic growth and emergence as a world power. Johnson discusses contemporary topics such as the politics of racism, education, the power of the press, political correctness, the growth of litigation, and the influence of women throughout history. He sees Americans as a problem-solving people and the story of their country as "essentially one of difficulties being overcome by intelligence and skill, by faith and

strength of purpose, by courage and persistence... Looking back on its past, and forward to its future, the auguries are that it will not disappoint humanity." Sometimes controversial and always provocative, A HISTORY OF THE AMERICAN PEOPLE is one author's challenging and unique interpretation of American history. Johnson's views of individuals, events, themes, and issues are original, critical, and in the end admiring, for he is, above all, a strong believer in the history and the destiny of the American people.

Everything You Need to Ace American History in One Big Fat Notebook Jun 17 2019 It's the revolutionary American history study guide just for middle school students from the brains behind Brain Quest. Everything You Need to Ace American History . . . covers Native Americans to the war in Iraq. There are units on Colonial America; the Revolutionary War and the founding of a new nation; Jefferson and the expansion west; the Civil War and Reconstruction; and all of the notable events of the 20th century—World Wars, the Depression, the Civil Rights movement, and much more.
