Can a Bee Sting a Bee? Sep 30 2019 In the spirit of Schott's Miscellany, The Magic of Reality, and The Dangerous Book for Boys comes Can a Bee Sting a Bee?—a smart, illuminating, essential, and utterly delightful handbook for perplexed parents and their curious children. Author Gemma Elwin Harris has lovingly compiled weighty questions from precocious grade school children—queries that have long dumbfounded even intelligent adults—and she's gathered together a notable crew of scientists, specialists, philosophers, and writers to answer them. Authors Mary Roach and Phillip Pullman, evolutionary biologist Richard Dawkins, chef Gordon Ramsay, adventurer Bear Grylls, and linguist Noam Chomsky are among the top experts responding to the Big Questions from Little People, ("Do animals have feelings?", "Why can't I tickle myself?", "Who is God?") with well-known comedians, columnists, and raconteurs offering hilarious alternative answers. Miles above your average general knowledge and trivia collections, this charming compendium is a book fans of the E.H. Gombrich classic, A Little History of the World, will adore.

Lord of the Flies Oct 31 2019 A plane crashes on a desert island and the only survivors, a group of schoolboys, assemble on the beach and wait to be rescued. By day they inhabit a land of bright fantastic birds and dark blue seas, but at night their dreams are haunted by the image of a terrifying beast. As the boys' delicate sense of order fades, so their childish dreams are transformed into something more primitive, and their behaviour starts to take on a murderous, savage significance. First published in 1954, Lord of the Flies is one of the most celebrated and widely read of modern classics. Now fully revised and updated, this educational edition includes chapter summaries, comprehension questions, discussion points, classroom activities, a biographical profile of Golding, historical context relevant to the novel and an essay on Lord of the Flies by William Golding entitled 'Fable'. Aimed at Key Stage 3 and 4 students, it also includes a section on literary theory for advanced or A-level students. The educational edition encourages original and independent thinking while guiding the student through the text - ideal for use in the classroom and at home.

A More Beautiful Question May 19 2021 To get the best answer-in business, in life-you have to ask the best possible question. Innovation expert Warren Berger shows that ability is both an art and a science. It may be the most underappreciated tool at our disposal, one we learn to use well in infancy-and then abandon as we grow older. Critical to learning, innovation, success, even to happiness-yet often discouraged in our schools and workplaces-it can unlock new business opportunities and reinvent industries, spark creative insights at many levels, and provide a transformative new outlook on life. It is the ability to question-and to do so deeply, imaginatively, and "beautifully." In this fascinating exploration of the surprising power of questioning, innovation expert Warren Berger reveals that powerhouse businesses like Google, Nike, and Netflix, as well as hot Silicon Valley startups like Pandora and Airbnb, are fueled by the ability to ask fundamental, game-changing questions. But Berger also shares human stories of people using questioning to solve everyday problems-from "How can I adapt my career in a time of constant change?" to "How can I step back from the daily rush and figure out what really makes me happy?" By showing how to approach questioning with an open, curious mind and a willingness to work through a series of "Why," "What if," and "How" queries, Berger offers an inspiring framework of how we can all arrive at better solutions, fresh possibilities, and greater success in business and life.

Questions Are the Answer Oct 04 2022 2018 Nautilus Book Awards Silver Winner What if you could unlock a better answer to your most vexing problem—in your workplace, community, or home life—just by changing the question? Talk to creative problem-solvers and they will often tell you, the key to their success is asking a different question. Take Debbie Sterling, the social entrepreneur who created GoldieBlox. The idea came when a friend complained about too few women in engineering and Sterling wondered aloud: "why are all the great building toys made for boys?" Or consider Nobel laureate Richard Thaler, who asked: "would it change economic theory if we stopped pretending people were rational?" Or listen to Jeff Bezos whose relentless approach to problem solving has fueled Amazon's exponential growth: "Getting the right question is key to getting the right answer." Great questions like these have a catalytic quality—that is, they dissolve barriers to creative thinking and channel the pursuit of solutions into new, accelerated pathways. Often, the moment they are voiced, they have the paradoxical effect of being utterly surprising yet instantly obvious. For innovation and leadership guru Hal Gregersen, the power of questions has always been clear—but it took some years for the follow-on question to hit him: If so much depends on fresh questions, shouldn't we know more about how to arrive at them? That sent him on a research quest ultimately including over

two hundred interviews with creative thinkers. Questions Are the Answer delivers the insights Gregersen gained about the conditions that give rise to catalytic questions—and breakthrough insights—and how anyone can create them.

For'see Mar 29 2022 For'see is a book for the undecided and confused. Sometimes it's just asking questions about your deepest fears, anxieties, hopes and dreams. This book taps into your intuition. Sometimes you already know the answer, you just can't see it. With a dash of humor and entertainment ask For'see to help you and guide. Great for party nights, to break solitude, as a self-help book, let it become your favorite pass time. How do you use it? Ask the book a question, flip pages and stop at a random one. Now see the answer chuckle or be shocked. Should I buy some stock? Tell your best friend her boyfriend's cheating on her? You can answer these questions and a thousand more with this book. You might receive colorful answers like: Brett Kavanaugh is all around us or what would Obama do? These are made to help you get in touch with your own intuition. Flip it and enjoy this fun game.

Peculiar Questions and Practical Answers Aug 02 2022 The New York Public Library staff answers questions remarkable and preposterous, with illustrations by Barry Blitt. Have you've ever wondered if you can keep an octopus in a private home? Do you spend your time thinking about how much Napoleon's brain weighed? If so, Peculiar Questions and Practical Answers is the book for you. The New York Public Library has been fielding questions like these ever since it was founded in 1895. Of course, some of the questions have left the librarians scratching their heads... "In what occupations may one be barefooted?" "What time does a bluebird sing?" "What does it mean when you're being chased by an elephant?" "What kind of apple did Eve eat?" "How many neurotic people are there in the U.S.?" In Peculiar Questions and Practical Answers, the staff of the NYPL has dug through the archives to find thoughtful and often witty answers to over one hundred of the oddest, funniest, and most whimsical questions the library has received since it began record-keeping over seventy-five years ago. One of The New Yorker's best-known and beloved illustrators, Barry Blitt, has created watercolors that bring many of the questions hilariously to life in a book that answers, among others, the question "Does anyone have a copyright on the Bible?"

The Meaning of Life Dec 02 2019 The phrase "the meaning of life" for many seems a quaint notion fit for satirical mauling by Monty Python or Douglas Adams. But in this spirited, stimulating, and quirky enquiry, famed critic Terry Eagleton takes a serious if often amusing look at the question and offers his own surprising answer. Eagleton first examines how centuries of thinkers and writers--from Marx and Schopenhauer to Shakespeare, Sartre, and Beckett--have responded to the ultimate

question of meaning. He suggests, however, that it is only in modern times that the question has become problematic. But instead of tackling it head-on, many of us cope with the feelings of meaninglessness in our lives by filling them with everything from football to sex, Kabbala, Scientology, "New Age softheadedness," or fundamentalism. On the other hand, Eagleton notes, many educated people believe that life is an evolutionary accident that has no intrinsic meaning. If our lives have meaning, it is something with which we manage to invest them, not something with which they come ready made. Eagleton probes this view of meaning as a kind of private enterprise, and concludes that it fails to hold up. He argues instead that the meaning of life is not a solution to a problem, but a matter of living in a certain way. It is not metaphysical but ethical. It is not something separate from life, but what makes it worth living--that is, a certain quality, depth, abundance and intensity of life. Here then is a brilliant discussion of the problem of meaning by a leading thinker, who writes with a light and often irreverent touch, but with a very serious end in mind. "If you were to ask what provides some meaning in life nowadays for a great many people, especially men, you could do worse than reply 'football.' Not many of them perhaps would be willing to admit as much; but sport stands in for all those noble causes--religious faith, national sovereignty, personal honor, ethnic identity--for which, over the centuries, people have been prepared to go to their deaths. It is sport, not religion, which is now the opium of the people." Questions and Answers Sep 03 2022
