Write Your Way In Jan 13 2021 Writing, for most of us, is bound up with anxiety. It's even worse when it feels like your whole future—or at least where you'll spend the next four years in college—is on the line. It's easy to understand why so many high school seniors put off working on their applications until the last minute or end up with a generic and clichéd essay. The good news? You already have the "secret sauce" for crafting a compelling personal essay: your own experiences and your unique voice. The best essays rarely catalog how students have succeeded or achieved. Good writing shows the reader how you've struggled and describes mistakes you've made. Excellent essays express what you're fired up about, illustrate how you think, and illuminate the ways you've grown. More than twenty million students apply to college every year; many of them look similar in terms of test scores, grades, courses taken, extracurricular activities. Admissions officers wade through piles of files. As an applicant, you need to think about what will interest an exhausted reader. What can you write that will make her argue to admit you instead of the thousands of other applicants? A good essay will be conversational and rich in vivid details, and it could only be written by one person—you. This book will help you figure out how to find and present the best in yourself. You'll acquire some useful tools for writing well—and may even have fun—in the process.

Why I Write May 05 2020 George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While *1984* and *Animal Farm* are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In *Why I Write*, the first in the *Orwell's Essays* series, Orwell describes his journey to becoming a writer, and his movement from writing poems to short stories to the essays, fiction and non-fiction we remember him for. He also discusses what he sees as the 'four great motives for writing' – 'sheer egoism', 'aesthetic enthusiasm', 'historical impulse' and 'political purpose' – and considers the importance of keeping these in balance. *Why I Write* is a unique opportunity to look into Orwell's mind, and it grants the reader an entirely different vantage point from which to consider the rest of the great writer's oeuvre. 'A writer who can – and must – be rediscovered with every age.' — Irish Times

Beyond the Traditional Essay: Increasing Student Agency in a Diverse Classroom with Nondisposable Assignments Nov 22 2021 This volume offers a range of responses to the problem of “disposable assignments,” essays written just for a grade and then thrown away. The scholars collected here explore how renewable assignments can contribute to public knowledge, eliciting student work that is shared across networks of learning, that does something, that transcends the teacher's grade. Although there is significant interest in such innovative teaching practices, particularly in this year of pedagogical experimentation, there are few resources for teachers that collect in one place both scholarly context and practical advice for implementing renewable assignments in the classroom. The essays in this volume range widely, from demonstrating how digital tools engage and empower reluctant learners, to raising theoretical questions around intellectual property, to measuring the success of renewable assignments through outcomes assessment.

How to Write an Essay like an Equation Feb 23 2022 Are you looking for a short, simple, systematic approach to writing? Pick up any other writing book, for any ability level, and you'll find a labyrinth of options, nuances, and caveats when straight-forward explanations would better serve most writers. In "How to Write an Essay like an Equation," Eric Sentell (PhD, Writing, Rhetoric, and Discourse Studies) distills over a decade of experience teaching college writing into covering only writing's essentials with only the necessary amount of detail and explanation. In this book, you will learn about the types of audiences every writer faces, the power of purpose in writing, the main genres of academic and professional writing, the BLUF and how to find it, PEE Paragraph Structure, Content-Lexical Ties, editing for clarity and concision, using sentence boundaries, a short and practical style guide, the power of diction, and simple strategies for improving the writing process. Each chapter concludes with thought-exercises and writing activities to reinforce and build on what you learn. This is a book for busy people who need practical, straight-forward solutions to the challenges of writing: people who write at work; students who struggle with writing; students whose professors don't (or can't) teach writing; students preparing for college entrance exams; international students who need to prepare for Western writing; high school teachers preparing students for college; home-schooling parents who want to provide excellent instruction; and anyone who craves the “one right answers” of writing.

Customer and Editorial Reviews: “The book will teach you how to highlight your main ideas, link thoughts and sentences, and edit your own work. You want this book if you find writing to be a fuzzy, amorphous activity and want clear steps to follow for creating solid written work.” — Rebecca Helton, Edge for Scholars “An essay can be quite similar to an algebra equation in terms of development and structure.” This statement helped me to realize that I was actually making writing an essay harder than it needed to be. If you pick up any other book on writing it is long and drawn out. It complicates things and you leave not understanding what you just read. This book isn't like that. Not only is it short, but it is easy to comprehend. Eric Sentell also states in the very beginning that this book is for those who are busy and need a straight-forward explanation. I am a college student and I don't have time to scour the internet for an explanation of how to write the essay that I waited until the last minute to write (don't pretend you haven't done it). This book is easy to read and comprehend, short and cheap. It is totally worth the money. My only complain is that I didn't have this earlier in my college journey!! -- Sherry Peppers As a homeschool mom of 4, I would highly recommend this book to anyone who wants to understand the basics of writing as well as to anyone who wants to improve their writing. The book covers a broad range of writing topics that help in understanding who you're writing to, how to develop a paragraph, and how to make your paragraph more interesting and concise. Most of the paragraphs are short which helps the reader understand and retain the information better. I also liked the use of bullet points. It made the material direct, concise, and easier to learn. I personally learned different writing tricks with this book, and I gained a better understanding of basic concepts and writing techniques that I had heard over

and over in traditional English books but never fully grasped before. Good writing still takes time and practice, but this book helps lay a good foundation of how to get started and how to develop skills to improve your writing. -- Lisa Reavey This was excellent for me. I felt like it created simple, direct way to write professionally. Would definitely recommend. -- Kristin McKinnis

Black Paper Sep 08 2020 A profound book of essays from a celebrated master of the form. "Darkness is not empty," writes Teju Cole in *Black Paper*, a book that meditates on what it means to sustain our humanity—and witness the humanity of others—in a time of darkness. One of the most celebrated essayists of his generation, Cole here plays variations on the essay form, modeling ways to attend to experience—not just to take in but to think critically about what we sense and what we don't. Wide-ranging but thematically unified, the essays address ethical questions about what it means to be human and what it means to bear witness, recognizing how our individual present is informed by a collective past. Cole's writings in *Black Paper* approach the fractured moment of our history through a constellation of interrelated concerns: confrontation with unsettling art, elegies both public and private, the defense of writing in a time of political upheaval, the role of the color black in the visual arts, the use of shadow in photography, and the links between literature and activism. Throughout, Cole gives us intriguing new ways of thinking about blackness and its numerous connotations. As he describes the carbon-copy process in his epilogue: "Writing on the top white sheet would transfer the carbon from the black paper onto the bottom white sheet. Black transported the meaning."
