Twelve Years a Slave Dec 03 2020 "Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public."—an excerpt

Between Summer's Longing and Winter's End Dec 15 2021 Stockholm. The dead of winter. The temperature is already well below freezing. A young American dies, falling from a tall building. It appears to be a casual, self-inflicted death. It should be an open-and-shut case. But when Superintendent Lars Martin Johansson begins to delve beneath the layers of corruption, incompetence and violence that threaten to strangle the Stockholm police department, he uncovers a complex web of treachery, politics and espionage. Johansson quickly realizes that there is nothing routine about this suicide as it soon takes him from domestic drama to the rotten heart of Sweden's government.

Environmental Economics and Natural Resource Management Apr 07 2021 The tools of environmental economics guide policymakers as they weigh development against nature, present against future, and certain benefits against uncertain consequences. From reluctant-but-necessary calculations of the value of life, to quandaries over profits at the environment's expense, the policies and research findings explained in this textbook are relevant to decisions made daily by individuals, firms, and governments. The fourth edition of Environmental Economics and Natural Resource Management pairs the user-friendly approaches of the previous editions with the latest developments in the field. A story-based narrative delivers clear, concise coverage of contemporary policy initiatives. To promote environmental and economic literacy, we have added even more visual aids, including color photographs and diagrams unmatched in other texts. Ancillaries include an Instructor's Guide with answers to all of the practice problems and downloadable slides of figures and tables from the book. The economy is a subset of the environment, from which resources are obtained, workers and consumers receive sustenance, and life begins. Energy prices and environmental calamities constrain economic growth and the quality of life. The same can be said about overly restrictive environmental policies. It is with an appreciation for the weighty influence of this discipline, and the importance of conveying it to students, that this textbook is crafted.

The Definitive Guide to Berkeley DB XML Jan 24 2020 This book teaches the basics of XML with an original approach, using real-world examples from an interesting (and operating) environment with broad applicability. It covers the full spectrum of Berkeley DB XML tools, including the command-line shell, transactions, rollbacks, replication, archiving and monitoring. Techniques and concepts that have broad applicability outside of the subject matter are skillfully explained: XML, XPath, XQuery, XML schemas, all industry-standard technologies that find one of their best tutorial treatments, and all in the context of a simple database solution. The book also presents a remarkable example of query power.

Another Time, Another Life Oct 13 2021 Stockholm 1975: Six young people take the entire staff of the West German embassy hostage, demanding that the Baader-Meinhof members being held as prisoners in West Germany be released immediately. The long siege ends with the deaths of two hostages and the wounding of several others, including the captors. 1989: When a Swedish civil servant is murdered, the two leading detectives on the case, Anna Holt and Bo Jarnebring, find their investigation hastily shelved by an incompetent and corrupt senior investigator. 1999: Lars Johansson, having just joined the Swedish Security Police, decides to tie up a few loose ends left behind by his predecessor: specifically, two files on Swedes who had allegedly collaborated on the 1975 takeover of the West German embassy, one of whom turned out to be the murder victim in 1989. Johansson reopens the investigation and, with help from detectives Jarnebring and Holt, follows the leads-right up to the doorstep of Sweden's newly minted minister of justice.

Running on Empiness Jun 16 2019 John Zergan, anarcho-primitivist philosopher, ideological friend to Ted Kaczynski, and mentor to the anti-Globalist anarchists who set the world aflame in Seattle and Europe, is back. His anti-technology writings are widely considered the most radical tonic to the crisis of our time.

The Nordic Media and the Cold War Mar 06 2021 The Cold War between the East and West during the period 1945-1991 was a rivalry where the world's doom constantly emerged as a possible result. It was global and included northern European countries like Sweden, Denmark, Finland and Norway in different ways. Historians are still discussing how Cold War history should be understood in these countries, but they have rarely been concerned about mass media and communications. Meanwhile, many media scholars have neglected the theme entirely. In this book, these two areas of knowledge are combined in new research on the Nordic mass media, and their significance during the Cold War. A number of controversial topics are covered. Nineteen Nordic scholars sheds new light on Nordic print media in all four countries, but also write about radio and the television broadcasting. Extending the traditional Cold War research on media and communication to include sport, magazines for men, political cartoons, and films, the book lays the foundation for Cold War studies to become an integrated interdisciplinary field of knowledge, and a more central part of the Nordic media research than before - with countless opportunities for exciting new research, with high relevance to world conflicts in our own time.

Falling Freely, as If in a Dream Jun 21 2022 From the grand master of Scandinavian crime fiction—and one of the best crime writers of our time—a new critically acclaimed novel centered around the unsolved murder of Swedish Prime Minister Olof Palme in 1986. It's August 2007, and Lars Martin Johansson, chief of the National Bureau of Criminal Investigation in Sweden has opened the files on the unsolved murder of Prime Minister Olof Palme. With his retirement quickly closing in, Johansson forms a new group comprised of a few trustworthy detectives who doggedly wade through mountains of paperwork and pursue new leads in a case that has all but gone cold despite the open wound the assassination has left on the consciousness of Swedish society. Yet the closer the group gets to the truth, the more Johansson compromises the greater good for personal gain, becoming a pawn for the private vendetta of a shady political spin doctor. Sharply detailed and boldly plotted, Persson's work lifts the veil on one of history's greatest unsolved crimes in a novel that goes toe-to-toe with the best of true crime books. Shortlisted for the 2015 Petrona Award and the 2015 CWA International Dagger

Roderik Aug 23 2022 Roderik is a robot and he's on the run in the USA of the very near future. He's on the run for having been illicitly conceived and manufactured at the University of Minnetonka. He is also a 'learning machine' growing up in a complex technological age which threatens to submerge him in a mire of meaningless and mundane values. The older he gets and the more widely he travels, the more unable he is to comprehend the loss of innocence of his ad. He encounters the plastic lifestyles of middle-managers in rolling suburbia, confronts megalomaniac army officers and a hotch-potch assortment of ad-men, con-men, CIA agents, mafiosi. Slowly but surely, in his attempt to become "humanized," Roderik wonders if in fact he should become more machine-like.

Linda, As in the Linda Murder Jul 22 2022 The irascible, obdurate, and very thirsty Detective Superintendent Evert Bäckström of the National Murder Squad returns in a new novel from the reigning master of Scandinavian fiction. It's the dead of summer in the sleepy town of Växjö when twenty-year-old police cadet Linda Wallin is found lying face-down in her mother's apartment, brutally murdered and raped. With no clear motive or suspect in sight, a series of bureaucratic mix-ups causes the National Crime Unit to send Bäckström and his team into the countryside to solve the case. The ever-irritable Bäckström leaves his beloved goldfish behind, checks into a local hotel, and begins to reconstruct the night of Linda's murder. But with more than a few bottles in tow, and a constantly growling stomach to look after, things don't go so well, and Bäckström has to rely on the help of his colleagues to solve the crime—no matter how angry that makes him.

The Sword of Justice Oct 25 2022 "When gangster lawyer Thomas Eriksson, renowned defender of the guilty, is found brutally murdered in his own home the police face a rare problem. Finding a suspect isn't difficult, but narrowing down the long list of people who wanted Eriksson dead might be... High on the list is the celebrated Detective Superintendent Evert Bockström, in charge of the investigation. Unfortunately for him a high profile case really gets in the way of his routine, namely avoiding the office, keeping work to a minimum and steering well clear of his insect colleagues aside from the attractive ones, of course. Luckily, by virtue of his questionable contacts, Bockström has an unequalled skill for having the guilty handed to him on a plate. All he has to do is break every rule in the book u and receive a healthy wad of cash for his trouble. But this time he's in for a surprise because even Bockström couldn't have predicted where this trail would lead, or how far from comfortable he might be at its end."

The Educators' Handbook to Interactive Videodisc Jul 10 2021 This overview of interactive videodisc technology is designed to assist educators in finding the appropriate equipment and software for any specific application. The handbook may also serve as a starting point for many educators who know nothing of the technology and assist them in deciding whether this technology is worth pursuing as an educational tool in specific situations. Although not comprehensive, the listings reflect a good portion of the videodisc-related products available today and the prices provide a good indication of the general price range of specific items. The handbook contains 10 chapters: (1) Introduction to Videodiscs; (2) Overview of Laser Disc Systems; (3) Selecting a Laser Videodisc Player; (4) Video Playback Units; (5) Videodisc Interface Units; (6) Disc Player Peripherals; (7) Videodisc System Packages; (8) Educational Videodisc Software; (9) Interactive Videodisc Authoring Languages; and (10) Videodisc Care and Maintenance. Appendices include directories of laser disc players; television monitors and projects; laser disc interfaces; laser disc peripherals; laser disc system packages; videodisc software (listed by subject area); videodisc mastering options; interactive authoring languages; service information; and videodisc resources, which includes a manufacturer's index. The Dying Detective Apr 19 2022 Retired Chief of the National Crime Police and Swedish Security Service Lars Martin Johansson has just suffered a stroke. He is paying the price for a life of excess - stress, good food and fine wine. With his dangerously high blood pressure, his heart could fail at the slightest excitement. In the hospital, a chance encounter with a neurologist provides an important piece of information about a 25-year-old murder investigation and alerts Lars Martin Johansson's irrepresible police instincts. The period for prosecution expired just weeks earlier and that isn't the only limitation. Lars Martin Johansson is determined to solve the atrocious crime - from his deathbed. The inimitable style, distinct voice and dark humor of Leif GW Persson, along with the fascinating exploration of a long-cold murder case, serves to make The Dying Detective a true masterpiece of the genre.

The Birthmark Aug 31 2020 In The Birthmark, Text Publishing's first YA fiction release, debut novelist Beth Montgomery takes us to the fictional island of Tevua, north-east of Australia. The Birthmark intertwaves the stories of two generations of Islanders - in 1942 young lovers Tepu and Edouwe struggle to survive under the brutal Japanese occupation; and in 2004 teenage friends Hector and Lily fight an altogether different battle with boredom, poverty and parental neglect. Both outsiders for different reasons, Lily and Hector spend their summer holiday roaming through the island's thick forests and around the coral pinnacles on the beach. They discover a Japanese sword, a relic of World War Two, and soon afterwards an angry Japanese soldier begins to haunt Lily's dreams. What does the ghostly soldier have to tell Lily? When she hears a woman screaming in her dreams, why does Lily's birthmark burn? Will the sword be used again? And can the younger generation somehow resolve the crimes of the past?

Intelligent Projects Using Python Jan 04 2021 Implement machine learning and deep learning methodologies to build smart, cognitive AI projects using Python Key FeaturesA go-to guide to help you master AI algorithms and concepts8 real-world projects tackling different challenges in healthcare, e-commerce, and surveillanceUse TensorFlow, Keras, and other Python libraries to implement smart AI applicationsBook Description This book will be a perfect companion if you want to build insightful projects from leading AI domains using Python. The book covers detailed implementation of projects from all the core disciplines of AI. We start by covering the basics of how to create smart systems using machine learning and deep learning techniques. You will assimilate various neural network architectures such as CNN, RNN, LSTM, to solve critical new world challenges. You will learn to train a model to detect diabetic retinopathy conditions in the human eye and create an intelligent system for performing a video-to-text translation. You will use the transfer learning technique in the healthcare domain and implement style transfer using GANs. Later you will learn to build AI-based recommendation systems, a mobile app for sentiment analysis and a powerful chatbot for carrying customer services. You will implement AI techniques in the cybersecurity domain to generate CAPTCHAs. Later you will train and build autonomous vehicles to self-drive using reinforcement learning. You will be using libraries from the Python ecosystem such as TensorFlow, Keras and more to bring the core aspects of machine learning, deep learning, and AI. By the end of this book, you will be skilled to build your own smart models for tackling any kind of AI problems without any hassle. What you will learnBuild an intelligent machine translation system using seq2-seq neural translation machinesCreate AI applications using GAN and deploy smart mobile apps using TensorFlowTranslate videos into text using CNN and RNNImplement smart AI Chatbots, and integrate and extend them in several domainsCreate smart reinforcement learning-based applications using Q-LearningBreak and generate CAPTCHA using Deep Learning and Adversarial Learning Who this book is for This book is intended for data scientists, machine learning professionals, and deep learning practitioners who are ready to extend their knowledge and potential in AI. If you want to build real-life smart systems to play a crucial role in every complex domain, then this book is what you need. Knowledge of Python programming and a familiarity with basic machine learning and deep learning concepts are expected to help you get the most out of the book

He Who Kills the Dragon Sep 24 2022 In this second installment of Persson's trilogy of police procedurals featuring the "small, fat and primitive" Evert Bäckström, the grand master's most appallingly repulsive (and funniest) character is finally given his fifteen minutes of fame by way of his patented combination of laziness, luck, and an unbelievable sense of timing. A seemingly ordinary murder puzzles Bäckström, who is struggling with strict orders from his doctor to lead a healthier life. His gut feeling proves him right: within days, his team has another murder linked to the first on their hands, and reports of alleged ties to a Securitor heist gone out of control, killing two. The nation needs a hero, and the newly appointed head of the Västerort police force Anna Holt needs somebody to kill the dragon for her. Who better to heed to the task than Evert Bäckström: self-sufficient, ostentatious, devoid of moral, Hawaii shirt-clad, and, latterly, armed?

Hail to the Chiefs May 28 2020 *Hail to the Chiefs* is a behind-the-scenes look at the Chiefs' 1993 season and the changes made by the team in hopes of reaching championship glory. Included is the biggest NFL story of '93 -- the trade with San Francisco that brought Joe Montana to Kansas City. Also discussed is the Chiefs' pursuit of Marcus Allen and his feud with Raiders' owner Al Davis, which forced him out of Los Angeles.

The Word Rhythm Dictionary Sep 12 2021 This new kind of dictionary reflects the use of "rhythm rhymes" by rappers, poets, and songwriters of today. Users can look up words to find collections of words that have the same rhythm as the original and are useable in ways that are familiar to us in everything from vers libre poetry to the lyrics and music of Bob Dylan and hip hop groups.

The Story of Music Aug 11 2021 *** Accompanies BBC's major new TV series and *The Story of Music in 50 Pieces* on Radio 3 *** In his dynamic tour through 40,000 years of music, from prehistoric instruments to modern-day pop, Howard Goodall leads us through the story of music as it happened, idea by idea, so that each musical innovation -- harmony, notation, sung theatre, the orchestra, dance music, recording, broadcasting -- strikes us with its original force. He focuses on what changed when and why, picking out the discoveries that revolutionised man-made sound and bringing to life musical visionaries from the little-known Pérotin to the colossus of Wagner. Along the way, he also gives refreshingly clear descriptions of what music is and how it works: what scales are all about, why some chords sound discordant and what all post-war pop songs have in common.
