Overcoming Challenges in Corpus Construction Jun 28 2020 This volume offers a critical examination of the construction of the Spoken British National Corpus 2014 (Spoken BNC2014) and points the way forward toward a more informed understanding of corpus linguistic methodology more broadly. The book begins by situating the creation of this second corpus, a compilation of new, publicly-accessible Spoken British English from the 2010s, within the context of the first, created in 1994, talking through the need to balance backward capability and optimal practice for today's users. Chapters subsequently use the Spoken BNC2014 as a focal point around which to discuss the various considerations taken into account in corpus construction, including design, data collection, transcription, and annotation. The volume concludes by reflecting on the successes and limitations of the project, as well as the broader utility of the corpus in linguistic research, both in current examples and future possibilities. This exciting new contribution to the literature on linguistic methodology is a valuable resource for students and researchers in corpus linguistics, applied linguistics, and English language teaching.

The Internet is Not the Answer May 20 2022 In this sharp and witty book, long-time Silicon Valley observer and author Andrew Keen argues that, on balance, the Internet has had a disastrous impact on all our lives. By tracing the history of the Internet, from its founding in the 1960s to the creation of the World Wide Web in 1989, through the waves of start-ups and the rise of the big data companies to the increasing attempts to monetize almost every human activity, Keen shows how the Web has had a deeply negative effect on our culture, economy and society. Informed by Keen's own research and interviews, as well as the work of other writers, reporters and academics, *The Internet is Not the Answer* is an urgent investigation into the tech world - from the threat to privacy posed by social media and online surveillance by government agencies, to the impact of the Internet on unemployment and economic inequality. Keen concludes by outlining the changes that he believes must be made, before it's too late. If we do nothing, he warns, this new technology and the companies that control it will continue to impoverish us all.

SAP Certified Application Associate - SAP Hana (Edition 2014) Nov 02 2020 SAP Certified Application Associate - SAP HANA (Edition 2014) These questions are similar to the ones asked in the actual Test. How should I know? I know, because although I have been working as an SAP HANA Consultant for many years, I have myself recently certified with the latest version of the Associate Certification test. Before you start here are some Key features of the SAP HANA (Edition 2014) Associate Certification Exam. This certification exam verifies that the candidate has the knowledge required in the area of SAP HANA SP08. This certificate builds on the basic knowledge gained through related SAP HANA training and preferably refined by practical experience within an SAP HANA project team, whereby the consultant applies acquired knowledge in

this specialist area practically in projects.. The exam is Computer based and you have three Hours to answer 80 Questions. The Questions are (mostly) multiple choice type and there is NO penalty for an incorrect answer. Some of the Questions have more than one correct answer. You must get ALL the options correct for you to be awarded points. For questions with a single answer, the answers will have a button next to them. You will be able to select only one button. For questions with multiple answers, the answers will have a 'tick box' next to them. This allows you to select multiple answers. You are not allowed to use any reference materials during the certification test (no access to online documentation or to any SAP system). Clearing the Certification will not automatically lead you to a job. However a Certification with some project experience will certainly open a lot of doors for you. So if you have little or no experience, you should get yourself certified, get some project experience, and then the whole of the SAP World open for you to explore. Helping you with the first step on you ladder to success is this book! Some UNIQUE features of this Book: - There is NO Other material in the market for the SAP Certified Application Associate - SAP HANA (Edition 2014) exam. - The authors have themselves cleared the exam. - All questions are multiple choice format, similar the questions you will get in the actual exam. - Over 220 authentic questions, testing the exact same concepts that will be tested in Your exam!

Generation Z Jan 16 2022 This book argues that the mythic figure of the zombie, so prevalent and powerful in contemporary culture, provides the opportunity to explore certain social models – such as ‘childhood’ and ‘school’, ‘class’ and ‘family’ – that so deeply underpin educational policy and practice as to be rendered invisible. It brings together authors from a range of disciplines to use contemporary zombie typologies – slave, undead, contagion – to examine the responsiveness of everyday practices of schooling such as literacy, curriculum and pedagogy to the new contexts in which children and young people develop their identities, attitudes to learning, and engage with the many publics that make up their everyday worlds.

Managing Drugs in Sport Nov 21 2019 As ongoing high-profile drug scandals have demonstrated, sports organisations rarely have a coherent strategy to manage the role and relationship their sport has with different types of drugs (from alcohol to supplements to prescription drugs to doping). This important and timely book argues that drug control-led integrity management of sport is more than an ideological battle around doping. The relationship sport has with the drugs industry has become a much broader management problem. The breadth of the problem compels stakeholders in sport (including athletes, coaches, fans, public servants and sports managers) to understand better the issues in pursuit of effective strategies and responses. Drawing on cutting-edge management theory, this book explores the dilemma of drugs in sport. It introduces the policy and business contexts that have shaped responses to this issue and examines its significance to sport and integrity management, including human resource management, marketing, and risk management. It discusses practical management concerns, such as working with scientists and anti-doping organisations, and offers clear recommendations for the future management of sports integrity. The first book to offer a complete framework for a drugs management strategy for sport, Managing Drugs in Sport is essential reading for all advanced students, researchers and practitioners working in sport management, sport business, sport policy, sport governance and business ethics.

Ending Extreme Inequality Feb 05 2021 Poverty and inequality are at record levels. Today, forty-seven million Americans live in poverty, while the median is in decline. The top 20 percent now controls 89 percent of all wealth. These conditions have renewed demands for a new economic Bill of Rights, an idea proposed by F. D. Roosevelt, Truman and Martin Luther King, Jr. The new Economic Bill of Rights has a coherent plan and proclaims that all Americans have the right to a job, a living wage, a decent home, adequate medical care, good education, and adequate protection from economic fears of unemployment, sickness and old age. Integrating the latest economic and social data, Ending Extreme Inequality explores each of these rights. Each chapter includes: an analysis of the social problems surrounding each right; a historical overview of the attempts to right these wrongs; and assessments of current solutions offered by citizens, community groups and politicians. These contemporary, real-life solutions to inequality can inspire students and citizens to become involved and open pathways toward a more just society.

Electrical and Fire Alarm Exam Questions Jun 16 2019 2014 Edition with additional info inside the book.

www.necquestions.com by NEC QUESTIONS is best used with this Electrical and Fire Alarm Test preparation workbook. NEC QUESTIONS and answers are addressed for the Electrician studying for their Master Electrician Exam License or Journeyman License. Use with your 2005, 2008, 2011, 2014 NEC code book, National Electrical Code books, Fire alarm code books and www.necquestions.com (by Nec Questions). Take to your Electrical preparation class as your Electrical workbook copying Electrical class notes and answer Electrician exam type questions given in this book. Use during electrical class preparation tutoring sessions. NEC questions and answers are addressed for the electrician studying for their Master Electrician Exam License or Journeyman License. Use this book with your 2005, 2008, 2011, or 2014 NEC National Electrical Code book and Fire alarm code book. Take to your Electrical preparation class as your Electrical workbook copying Electrical class notes and answer Electrician exam type questions given in this book. Use during electrical class preparation tutoring sessions. Perfect for any Electrical class or Electrical Teacher preparing students on any level. Electrical tutors and students can now be on the same page!!! The National Electrical Code Book or NEC is unique and easy to navigate if you learn how to use the index located in the back of the book. Using a keyword in your question will give you every possible article in the book that may contain the answer you are looking for (if using the index) versus using the table of contents that only give you the information pertaining to that one specific topic neglecting the other 10 other sections in which your answer may appear. Using the top left hand and top right hand corners of the page gives you the range of articles that the two pages contain. Tabs and highlighting the title of articles and Part I, II, III etc.....of that specific article will allow you to recognize what information pertains to that part of the article. This should be done prior to test taking. The NFPA 72 Fire Alarm book A little more time consuming though, the Index is a great way to use this book giving you the exact article number to your question. The Table of Contents however is a little easier pointing you in the right direction with the exact page number to start your search. The book is marked by page number and not the article number as the Electrical code book. For example Manual Actuated Alarm Initiating Devices also known as pull boxes in the Table of Contents fall in chapter 17.14 which points you to 72-99. The 72 is NFPA 72 (Fire Alarm Book) and the 99 is the page. Using the top left and top right hand corners will give you only the page numbers and not the article numbers. If looking for the proper mounting of smoke detectors in 29.8.3* understand that the * directs you to Annex A which has additional information pertaining to that article. The new article to check now would be A 29.8.3 and if you do not know where Annex A starts, the Table of Contents will tell you. Powerplant Test Guide 2014 Book and Tutorial Software Bundle Oct 21 2019 Trade Paperback + Software Download version: Trade paperback book comes with code to download Prepware software from ASA's website. The Fast Track series is designed to prepare applicants who are seeking Federal Aviation Administration (FAA) certifications for the full range of material on each test of the series. This test guide offers current test questions, answers, detailed explanations, illustrations, and oral and practical study outlines to the FAA's Powerplant Knowledge Exam. The series is designed in a "fast-track" format for increased comprehension and retention of the studied materials. This guide also lists and identifies all the FAA

Learning Statement Codes (LSC) that the FAA uses on their Knowledge Test Reports, which are useful for test takers to find out what their weak areas are if they missed any questions on their FAA exams, and focus further study on those areas.

Featuring all the questions from the FAA Knowledge Exam's "Powerplant" section for Aviation Maintenance Technicians, this new edition answers and explains the toughest questions on the FAA exams.

Re-Cording Lives Jul 30 2020 Administrative asylum procedures are permeated by tensions between rationalities of legality, efficiency, and deterrence in asylum casework and their various effects on cases. Based on ethnographic research in the Swiss asylum administration, this book unveils the pragmatics and politics of rendering asylum cases resolvable by recording the lives of applicants in terms of asylum. With his reading of power and agency in administrations, Ephraim Pörtner offers a critical view of the intricate relationship between practices of asylum casework and the governmental need to resolve claims of people seeking protection.

Handbook of Test Development May 08 2021 The second edition of the Handbook of Test Development provides graduate students and professionals with an up-to-date, research-oriented guide to the latest developments in the field. Including thirty-two chapters by well-known scholars and practitioners, it is divided into five sections, covering the foundations of test development, content definition, item development, test design and form assembly, and the processes of test administration, documentation, and evaluation. Keenly aware of developments in the field since the publication of the first edition, including

changes in technology, the evolution of psychometric theory, and the increased demands for effective tests via educational policy, the editors of this edition include new chapters on assessing noncognitive skills, measuring growth and learning progressions, automated item generation and test assembly, and computerized scoring of constructed responses. The volume also includes expanded coverage of performance testing, validity, fairness, and numerous other topics. Edited by Suzanne Lane, Mark R. Raymond, and Thomas M. Haladyna, *The Handbook of Test Development*, 2nd edition, is based on the revised Standards for Educational and Psychological Testing, and is appropriate for graduate courses and seminars that deal with test development and usage, professional testing services and credentialing agencies, state and local boards of education, and academic libraries serving these groups.

Learn how to leverage Edmodo for assessment, project-based learning, flipped classroom, gamification and more. Seasoned educators and educational technology specialists Ginger Carlson and Raphael Raphael also share how educators can expand and maximize social learning networks, specifically Edmodo, to ask questions, share knowledge and create an extended network of colleagues.

The Patient Will See You Now Sep 12 2021 The essential guide by one of America's leading doctors to how digital technology enables all of us to take charge of our health A trip to the doctor is almost a guarantee of misery. You'll make an appointment months in advance. You'll probably wait for several hours until you hear "the doctor will see you now"-but only for fifteen minutes! Then you'll wait even longer for lab tests, the results of which you'll likely never see, unless they indicate further (and more invasive) tests, most of which will probably prove unnecessary (much like physicals themselves). And your bill will be astronomical. In *The Patient Will See You Now*, Eric Topol, one of the nation's top physicians, shows why medicine does not have to be that way. Instead, you could use your smartphone to get rapid test results from one drop of blood, monitor your vital signs both day and night, and use an artificially intelligent algorithm to receive a diagnosis without having to see a doctor, all at a small fraction of the cost imposed by our modern healthcare system. The change is powered by what Topol calls medicine's "Gutenberg moment." Much as the printing press took learning out of the hands of a priestly class, the mobile internet is doing the same for medicine, giving us unprecedented control over our healthcare. With smartphones in hand, we are no longer beholden to an impersonal and paternalistic system in which "doctor knows best."

Medicine has been digitized, Topol argues; now it will be democratized. Computers will replace physicians for many diagnostic tasks, citizen science will give rise to citizen medicine, and enormous data sets will give us new means to attack conditions that have long been incurable. Massive, open, online medicine, where diagnostics are done by Facebook-like comparisons of medical profiles, will enable real-time, real-world research on massive populations. There's no doubt the path forward will be complicated: the medical establishment will resist these changes, and digitized medicine inevitably raises serious issues surrounding privacy. Nevertheless, the result-better, cheaper, and more human health care-will be worth it. Provocative and engrossing, *The Patient Will See You Now* is essential reading for anyone who thinks they deserve better health care. That is, for all of us.
