Let the Communion Commence Jan 08 2021 Let the Communion Commence: Lighthearted Reflections on the Heart of God for Humanity is a humble effort by a long-time Christian public educator and traveler to use his somewhat unique style and experiences to communicate to his graduating students, and to anyone else who might "come along for the read," the wonders of a life-consuming relationship with God. Much of the content is also inspired by reflections on the sacrament of Communion, and thus the book may be of interest to a broader audience than just to graduates embarking on the next stage of life. Part one of the book seeks to introduce the Christian faith to those who may be unfamiliar with the Gospel message—that the Author and Creator of the Universe seeks communion, or a personal relationship, with anyone willing to embrace the death, resurrection, and Lordship of Jesus Christ in order to receive salvation from the consequences of disobedience to God. Part two encourages lifelong enrollment in the class of learning to be like Jesus Christ in preparation for becoming citizens of, and for introducing others into, the Kingdom of God. Finally, part three of Let the Communion Commence reflects on the ultimate commencement—the beginning of never-ending life in the presence of our Creator. Class is about to begin. Please join me.

Critical Literacy and Urban Youth Aug 03 2020 Critical Literacy and Urban Youth offers an interrogation of critical theory developed from the author's work with young people in classrooms, neighborhoods, and institutions of power. Through cases, an articulated process, and a theory of literacy education and social change, Morrell extends the conversation among literacy educators about what constitutes critical literacy while also examining implications for practice in secondary and postsecondary American educational contexts. This book is

distinguished by its weaving together of theory and practice. Morrell begins by arguing for a broader definition of the "critical" in critical literacy – one that encapsulates the entire Western philosophical tradition as well as several important "Othered" traditions ranging from postcolonialism to the African-American tradition. Next, he looks at four cases of critical literacy pedagogy with urban youth: teaching popular culture in a high school English classroom; conducting community-based critical research; engaging in cyber-activism; and doing critical media literacy education. Lastly, he returns to theory, first considering two areas of critical literacy pedagogy that are still relatively unexplored: the importance of critical reading and writing in constituting and reconstituting the self, and critical writing that is not just about coming to a critical understanding of the world but that plays an explicit and self-referential role in changing the world. Morrell concludes by outlining a grounded theory of critical literacy pedagogy and considering its implications for literacy research, teacher education, classroom practice, and advocacy work for social change.
