Protest Transnational LGBT Activism and UK-Based NGOs Elite-Led Mobilization and Gay Rights The Gay Rights Movement Queer Social Movements and Activism in Indonesia and Malaysia Gay Rights at the Ballot Box

Excluded May 21 2022 While many feminist and queer movements are designed to challenge sexism, they often simultaneously police gender and sexuality—sometimes just as fiercely as the straight, male-centric mainstream does. Among LGBTQ activists, there is a long history of lesbians and gay men dismissing bisexuals, transgender people, and other gender and sexual minorities. In each case, exclusion is based on the premise that certain ways of being gendered or sexual are more legitimate, natural, or righteous than others. As a trans woman, bisexual, and femme activist, Julia Serano has spent much of the last ten years challenging various forms of exclusion within feminist and queer/LGBTQ movements. In *Excluded*, she chronicles many of these instances of exclusion and argues that marginalizing others often stems from a handful of assumptions that are routinely made about gender and sexuality. These false assumptions infect theories, activism, organizations, and communities—and worse, they enable people to vigorously protest certain forms of sexism while simultaneously ignoring and even perpetuating others. Serano advocates for a new approach to fighting sexism that avoids these pitfalls and offers new ways of thinking about gender, sexuality, and sexism that foster inclusivity rather than exclusivity.

The Ashgate Research Companion to Lesbian and Gay Activism Feb 18 2022 The Ashgate Research Companion to Lesbian and Gay Activism provides scholars and students with a comprehensive and authoritative state-of-the-art review of the current research in this subject. Each

of the twenty-two specially commissioned chapters develops and summarises their key issue or debate in relation to activism - that is the claims, strategies and mobilisations (including internal debates and divisions, impediments and state responses) - of the lesbian and gay movement. By drawing together leading scholars from political science, sociology, anthropology and history this companion provides an up to the minute snapshot of current scholarship as well as signposting several fruitful avenues for future research.

The American LGBTQ Rights Movement Jul 31 2020 The American LGBTQ Rights Movement: An Introduction is a chronological survey of the LGBTQ fight for equal rights from the turn of the 20th century to the early 21st century. Illustrated with historical photographs, the book beautifully reveals the heroic people and key events that shaped the American LGBTQ rights movement. The book includes personal narratives to capture the lived experience from each era, as well as details of essential organizations, texts, and court cases that defined LGBTQ activism and advocacy.

Queer Political Performance and Protest Nov 22 2019 From the birth of the Gay Liberation through the rise of the AIDS Coalition to Unleash Power (ACT UP) in 1987, the global justice movement in 1994, the largest day of antiwar protest in world history in February 2003, the Republican National Convention protests in August 2004, and the massive immigrant rights rallies in the spring of 2006, the streets of cities around the world have been filled with a new theatrical model of protest. Elements of fun, creativity, pleasure, and play are cornerstones of this new approach toward protest and community building. No movement has had a larger influence on the emergence of play in social movement activity than the gay liberation and queer activism of the past thirty years. This book examines the role of play in gay liberation and queer activism, and the ways in which queer notions of play have influenced a broad range of social movements.

The Health of Lesbian, Gay, Bisexual, and Transgender People May 09 2021 At a time when lesbian, gay, bisexual, and transgender individuals--often referred to under the umbrella acronym LGBT--are becoming more visible in society and more socially acknowledged, clinicians and researchers are faced with incomplete information about their health status. While LGBT populations often are combined as a single entity for research and advocacy purposes, each is a distinct population group with its own specific health needs. Furthermore, the experiences of LGBT individuals are not uniform and are shaped by factors of race, ethnicity, socioeconomic status, geographical location, and age, any of which can have an effect on health-related concerns and needs. The Health of Lesbian, Gay, Bisexual, and Transgender People assesses the state of science on the health status of LGBT populations, identifies research gaps and opportunities, and outlines a research agenda for the National Institute of Health. The report examines the health status of these populations in three life stages: childhood and adolescence, early/middle adulthood, and later adulthood. At each life stage, the committee studied mental health, physical health, risks and protective factors, health services, and contextual influences. To advance understanding of the health needs of all LGBT individuals, the report finds that researchers need more data about the demographics of these populations, improved methods for collecting and analyzing data, and an increased participation of sexual and gender minorities in research. The Health of Lesbian, Gay, Bisexual, and Transgender People is a valuable resource for policymakers, federal agencies including the National Institute of Health (NIH), LGBT advocacy groups, clinicians, and service providers.

Intersectionality and LGBT Activist Politics May 29 2020 This volume combines empirically oriented and theoretically grounded reflections upon various forms of LGBT activist engagement to

examine how the notion of intersectionality enters the political context of contemporary Serbia and Croatia. By uncovering experiences of multiple oppression and voicing fear and frustration that accompany exclusionary practices, the contributions to this book seek to reinvigorate the critical potential of intersectionality, in order to generate the basis for wider political alliances and solidarities in the post-Yugoslav space. The authors, both activists and academics, challenge the systematic absence of discussions of (post-)Yugoslav LGBT activist initiatives in recent social science scholarship, and show how emancipatory politics of resistance can reshape what is possible to imagine as identity and community in post-war and post-socialist societies. This book will be of interest to scholars and students in the areas of history and politics of Yugoslavia and the post-Yugoslav states, as well as to those working in the fields of political sociology, European studies, social movements, gay and lesbian studies, gender studies, and queer theory and activism.

The Gay Liberation Youth Movement in New York Jun 10 2021 Between 1966 and 1975 North American youth activists established over 35 school- and community-based gay liberation youth groups whose members sought control over their own bodies, education, and sexual and social relations. This book focuses on three groundbreaking New York City groups -- Gay Youth (GY), Street Transvestite Action Revolutionaries (S.T.A.R.), and the Gay International Youth Society of George Washington High School (GWHS) -- from the advent of gay liberation in NYC in 1969 to just after its dissolution and the rise of identity politics by 1975. Cohen examines how gay liberation -- with its rejection of stultifying sex roles, attack on institutional oppression, connection between personal and political liberation, celebration of innate androgyny, and resolute anti-war and anti-capitalist stance -- shaped understandings of sexual identity, membership criteria, organization, decision-making, the roles of youth and adults, and efforts to effect social change.

The Lesbian and Gay Movement and the State Mar 19 2022 By analyzing the relationship between lesbian and gay movements and the state, this ground-breaking book addresses two interconnected issues: to what extent is the lesbian and gay movement influenced by the state and, to a lesser extent, whether the lesbian and gay movement has somehow influenced the state, for instance by altering forms of sexual regulation. Given the diversity in national trajectories, this book covers fifteen countries. This enables the volume to shed light on different kinds of relationships between these groups and the state, as well as on the way they have evolved in recent decades. The Lesbian and Gay Movement and the State: Comparative Insights into a Transformed Relationship fills an important gap in the literature on lesbian and gay activism. However, this book also provides important and innovative insights into broader issues in international political science, public policy and comparative politics, as well as issues in social movement studies. These include the role of the state in constructing citizen identities, the heteronormative way in which many traditional citizen entitlements and benefits were constructed, state - civil society relations, judicial activism, the impact of federalism, and the increasing globalization of sexual identities.

Pride Parades and LGBT Movements Sep 25 2022 The Open Access version of this book, available at <http://www.tandfebooks.com/doi/view/10.4324/9781315474052>, has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license Today, Pride parades are staged in countries and localities across the globe, providing the most visible manifestations of lesbian, gay, bisexual, trans, queer and intersex movements and politics. Pride Parades and LGBT Movements contributes to a better understanding of LGBT protest dynamics through a comparative study of eleven Pride parades in seven European countries - Czech Republic, Italy, Netherlands, Poland, Sweden, Switzerland, the UK - and Mexico. Peterson, Wahlström and

Wennerhag uncover the dynamics producing similarities and differences between Pride parades, using unique data from surveys of Pride participants and qualitative interviews with parade organizers and key LGBT activists. In addition to outlining the histories of Pride in the respective countries, the authors explore how the different political and cultural contexts influence: Who participates, in terms of socio-demographic characteristics and political orientations; what Pride parades mean for their participants; how participants were mobilized; how Pride organizers relate to allies and what strategies they employ for their performances of Pride. This book will be of interest to political scientists and sociologists with an interest in LGBT studies, social movements, comparative politics and political behavior and participation.

Acts of Gaiety Dec 24 2019 Against queer theory's long-suffering romance with mourning and melancholia and a national agenda that urges homosexuals to renounce pleasure if they want to be taken seriously, Acts of Gaiety seeks to reanimate notions of "gaiety" as a political value for LGBT activism by recovering earlier mirthful modes of political performance. The book mines the archives of lesbian-feminist activism of the 1960s-70s, highlighting the outrageous gaiety—including camp, kitsch, drag, guerrilla theater, zap actions, rallies, manifestos, pageants, and parades alongside "legitimate theater"-- at the center of the social and theatrical performances of the era. Juxtaposing figures such as Valerie Solanas and Jill Johnston with more recent performers and activists including Hothead Paisan, Bitch and Animal, and the Five Lesbian Brothers, Sara Warner shows how reclaiming this largely discarded and disavowed past elucidates possibilities for being and belonging. Acts of Gaiety explores the mutually informing histories of gayness as politics and as *joie de vivre*, along with the centrality of liveliness to queer performance and protest.

Queer Social Movements and Activism in Indonesia and Malaysia Jul 19 2019 This book

examines queer activism and queer social movements (QSMs) in Indonesia and Malaysia, broadly engaging with these topics on three different levels: macro (global and national discourses), meso (organizational level - activities), and micro (individual - the activist). The micro level perspective allows for moving beyond the “traditional” political movement paradigm by understanding activism in Foucauldian terms as the ethics of the self (Foucault, 1984). In other words, the queer subject is seen as an active agent in taking care of the self by queering/resisting gender norms as well as heteronormative practices and regimes in their social environment through embodiment and actions. This kind of ethical being has the potential to build support and community between and amongst individuals.

Queer Politics in India: Towards Sexual Subaltern Subjects Nov 15 2021 Queer Politics in India simultaneously tells two interconnected stories. The first explores the struggle against violence and marginalization by queer people in the Indian subcontinent, and places this movement towards equality and inclusion in relation to queer movements across the world. The second story, about a lesbian suicide in a small village in India, interrupts the first one, and together, these two stories push and pull the book to elucidate the failure and promise of queer politics, in India and the rest of the world. This book emerges at a critical time for queer politics and activism in India, exploring the contemporary queer subject through the different lenses of critical psychology, Lacanian psychoanalysis, feminist and queer theory, and cultural studies in its critique of the constructions of discourses of ‘normal’ sexuality. It also examines how power determines further segregations of ‘abnormal’ sexuality into legitimate and illegitimate queer subjectivities and authentic and inauthentic queer experiences. By allowing a multifaceted and engaged critique to emerge that demonstrates how the idea of a universal queer subject fails lower class, lower caste queer subjects,

and queer people of colour, the author expertly highlights how all queer people are not the same, even within queer movements, as the book asks the questions, "which queer subject does queer politics fight for?", and, "what is the imagination of a queer subject in queer politics?" This hugely important and timely work is relevant across many disciplines, and will be useful for students of psychology and other academic areas, as well as researchers and activist organizations.

[The Gay Rights Movement](#) Aug 20 2019 This anthology examines Love's Labours Lost from a variety of perspectives and through a wide range of materials. Selections discuss the play in terms of historical context, dating, and sources; character analysis; comic elements and verbal conceits; evidence of authorship; performance analysis; and feminist interpretations. Alongside theater reviews, production photographs, and critical commentary, the volume also includes essays written by practicing theater artists who have worked on the play. An index by name, literary work, and concept rounds out this valuable resource.

The Gay and Lesbian Liberation Movement Oct 02 2020 Gay and lesbian liberation as a sexual freedom movement, as a political movement, and as a movement of ideas - historical roots, legal issues and links with other movements. The author emphasises the role of women.

Intersectionality in Feminist and Queer Movements Oct 26 2022 Examining the ways in which feminist and queer activists confront privilege through the use of intersectionality, this edited collection presents empirical case studies from around the world to consider how intersectionality has been taken up (or indeed contested) by activists in order to expose and resist privilege. The volume sets out three key ways in which intersectionality operates within feminist and queer movements: it is used as a collective identity, as a strategy for forming coalitions, and as a repertoire for inclusivity. The case studies presented in this book then evaluate the extent to which some, or

all, of these types of intersectional activism are used to confront manifestations of privilege. Drawing upon a wide range of cases from across time and space, this volume explores the difficulties with which activists often grapple when it comes to translating the desire for intersectionality into a praxis which confronts privilege. Addressing inter-related and politically relevant questions concerning how we apply and theorise intersectionality in our studies of feminist and queer movements, this timely edited collection will be of interest to students and scholars from across the social sciences and humanities with an interest in gender and feminism, LGBT+ and queer studies, and social movement studies.

The Story of Sexual Identity Jan 25 2020 This book assembles a diverse group of scholars working within a new, pathbreaking paradigm of sexual science, fusing perspectives from history, sociology, and psychology. The contributors are united in their commitment to the idea of "narrative" as central to the study of sexual identity, offering an analytic approach to social science inquiry on sexual identity that restores the voices of sexual subjects. The result is a rich examination of lives in context, with an eye toward multiplicity and meaning across the life course. Central to the chapters in this volume is the significance of history, generation, and narrative in the provision of a workable and meaningful configuration of identity.

Gay, Inc. Jun 29 2020 A bold and provocative look at how the nonprofit sphere's expansion has helped—and hindered—the LGBT cause What if the very structure on which social movements rely, the nonprofit system, is reinforcing the inequalities activists seek to eliminate? That is the question at the heart of this bold reassessment of the system's massive expansion since the mid-1960s.

Focusing on the LGBT movement, Myrl Beam argues that the conservative turn in queer movement politics, as exemplified by the shift toward marriage and legal equality, is due mostly to the

movement's embrace of the nonprofit structure. Based on oral histories as well as archival research, and drawing on the author's own extensive activist work, *Gay, Inc.* presents four compelling case studies. Beam looks at how people at LGBT nonprofits in Minneapolis and Chicago grapple with the contradictions between radical queer social movements and their institutionalized iterations. Through interview subjects' incisive, funny, and heartbreaking commentaries, Beam exposes a complex world of committed people doing the best they can to effect change, and the flawed structures in which they participate, rail against, ignore, and make do. Providing a critical look at a social formation whose sanctified place in the national imagination has for too long gone unquestioned, *Gay, Inc.* marks a significant contribution to scholarship on sexuality, neoliberalism, and social movements.

Lesbian and Gay Rights in Canada Apr 08 2021 Using archival material that has largely been ignored, as well as interviews with Canadian activists, Smith investigates the ways in which the Canadian lesbian and gay movement has changed in response to the Charter of Rights and Freedoms.

Movement, Knowledge, Emotion Feb 24 2020 This book is about community activism around HIV/AIDS in Australia. It looks at the role that the gay community played in the social, medical and political response to the virus. Drawing conclusions about the cultural impact of social movements, the author argues that AIDS activism contributed to improving social attitudes towards gay men and lesbians in Australia, while also challenging some entrenched cultural patterns of the Australian medical system, allowing greater scope for non-medical intervention into the domain of health and illness. The book documents an important chapter in the history of public health in Australia and explores how HIV/AIDS came to be a defining issue in the history of gay and lesbian rights in

The Lesbian and Gay Movements Jul 23 2022 Throughout their relatively short history, lesbian and gay movements in the United States have endured searing conflicts over whether to embrace assimilationist or liberationist strategies. The Lesbian and Gay Movements explores this dilemma in both contemporary and historical contexts. Rimmerman tackles the challenging issue of what constitutes movement "effectiveness" and how "effective" the assimilationist and liberationist strategies have been in three contentious policy arenas: the military ban, same-sex marriage, and AIDS. Since the first edition in 2007, the landscape of lesbian and gay movements and rights has seen enormous changes. The thoroughly revised second edition includes updated discussion of LGBT movements' undertakings in, as well the Obama administration's response to, HIV/AIDS policy, the fight to legalize same-sex marriage and overturn the Defense of Marriage Act, and the repeal of "Don't Ask, Don't Tell."

Rethinking the Gay and Lesbian Movement Jan 17 2022 Dorais examines how the Inuit community of Quaqtaq, a small village on Hudson Strait, has managed to preserve its identity in the modern world. He points to three things: kinship, religion, and language.

The Global Trajectories of Queerness Apr 27 2020 The Global Trajectories of Queerness critically investigates the circulation of the term "queer" in the Global South, its political economy underpinnings and its cultural politics. The collection offers theorizations and detailed ethnographies of contemporary same-sex culture in sixteen countries.

Rethinking the Gay and Lesbian Movement Dec 04 2020 "Now in its second edition, Rethinking the Gay and Lesbian Movement provides an accessible overview of an important and transformational struggle for social change, highlighting key individuals and events, influential groups and

organizations, major successes and failures, and the movement's lasting effects and unfinished work. Focusing on four decades of social, cultural, and political change in the second half of the twentieth century, Marc Stein examines the changing agendas, beliefs, strategies, and vocabularies of a movement that encompassed diverse actions, campaigns, ideologies, and organizations. From the homophile activism of the 1950s and 1960s, through the rise of gay liberation and lesbian feminism in the 1970s, to the multicultural and AIDS activist movements of the 1980s, this book provides a strong foundation for understanding gay, lesbian, bisexual, transgender, and queer politics today. This new edition reflects the substantial changes in politics and scholarship that have occurred since the book's original publication 10 years ago. Rethinking the Gay and Lesbian Movement will be valued by everyone interested in LGBTQ struggles, the politics of movement activism, and the history of social justice in the United States"--

Queer Social Movements and Outreach Work in Schools Apr 20 2022 This book brings together leading scholars researching the field of gender, sexuality, schooling, queer activism, and social movements within different cultural contexts. With contributions from more than fifteen countries, the chapters bring fresh insights for students and scholars of gender and sexuality studies, education, and social movements in the Global North and South. The book draws together both theoretical and empirical contributions offering rich and multidisciplinary essays from scholars and activists in the field focusing on outreach work of QSM (Queer Social Movements) in schools, queer activism in educational settings, and the role of QSMs in supporting and informing queer youth.

LGBTQ Social Movements Dec 16 2021 In recent years, there has been substantial progress on lesbian, gay, bisexual, transgender, and queer (LGBTQ) civil rights in the United States. We are now, though, in a time of incredible political uncertainty for queer people. LGBTQ Social Movements

provides an accessible introduction to mainstream LGBTQ movements in the US, illustrating the many forms that LGBTQ activism has taken since the mid-twentieth century. Covering a range of topics, including the Stonewall uprising and gay liberation, AIDS politics, queer activism, marriage equality fights, youth action, and bisexual and transgender justice, Lisa M. Stulberg explores how marginalized people and communities have used a wide range of political and cultural tools to demand and create change. The five key themes that guide the book are assimilationism and liberationism as complex strategies for equality, the limits and possibilities of legal change, the role of art and popular culture in social change, the interconnectedness of social movements, and the role of privilege in movement organizing. This book is an important tool for understanding current LGBTQ politics and will be essential reading for students and scholars of sexuality, LGBTQ studies, and social movements, as well as anyone new to thinking about these issues.

Resisting Sectarianism Jan 05 2021 The Middle East is often portrayed as oppressively patriarchal and homophobic. Yet, in recent years the region has become a vibrant and important arena for feminist and LGBTQ activism. This book provides an insight into this emerging politics through a unique analysis of feminist and LGBTQ social movements in the context of Lebanon's postwar sectarian system. Resisting Sectarianism argues that LGBTQ and feminists social movements are powerful agents of political and social transformation in Lebanon. Drawing on extensive ethnographic fieldwork, the book takes the reader inside these movements to see how they attract members and construct campaigns, forge alliances, and the multiple ways in which they generate important forms of resistance to, and change within, the sectarian system. The book also traces the strong obstacles that sectarian parties and religious authorities employ to weaken LGBTQ and feminist activism.

LGBT Activism and the Making of Europe Mar 07 2021 This book explores the alleged uniqueness of the European experience, and investigates its ties to a long history of LGBT and queer movements in the region. These movements, the book argues, were inspired by specific ideas about Europe, which they sought to realize on the ground through activism.

LGBTQ+ Activism in Central and Eastern Europe Nov 03 2020 This edited collection offers in-depth perspectives into the emergence and development of LGBTQ+ movements in Central and Eastern Europe, including analysis of Estonia, Hungary, Poland, Romania, Russia and Ukraine. The book examines various issues faced by local LGBTQ+ activists, as well as the tactics and strategies which they develop and adopt. The contributors discuss the applicability of Western ideas and concepts to the post-socialist context, considering their ability to fully tackle local nuances and complexities with regards to sexuality and, thus, the dynamics of LGBTQ+ activism. The volume examines differences in the domestic policies of these countries and the consequent effects on LGBTQ+ activism in the region. It also offers important insights into the impact of Western actors in promoting liberal democratic values in the region, and ensuing political and social backlashes. LGBTQ+ Activism in Central and Eastern Europe will be of interest to students and scholars across a range of disciplines, including Gender and Sexuality Studies, Sociology, Anthropology and Political Science.

Queer Alliances Sep 13 2021 A unique investigation into how alliances form in highly polarized times among LGBTQ, immigrant, and labor rights activists, revealing the impacts within each rights movement. Queer Alliances investigates coalition formation among LGBTQ, immigrant, and labor rights activists in the United States, revealing how these new alliances impact political movement formation. In the early 2000s, the LGBTQ and immigrant rights movements operated separately from

and, sometimes, in a hostile manner towards each other. Since 2008, by contrast, major alliances have formed at the national and state level across these communities. Yet, this new coalition formation came at a cost. Today, coalitions across these communities have been largely reluctant to address issues of police brutality, mass incarceration, economic inequality, and the ruthless immigrant regulatory complex. *Queer Alliances* examines the extent to which grassroots groups bridged historic divisions based on race, gender, class, and immigration status through the development of coalitions, looking specifically at coalition building around expanding LGBTQ rights in Washington State and immigrant and migrant rights in Arizona. Erin Mayo-Adam traces the evolution of political movement formation in each state, and shows that while the movements expanded, they simultaneously ossified around goals that matter to the most advantaged segments of their respective communities. Through a detailed, multi-method study that involves archival research and in-depth interviews with organization leaders and advocates, *Queer Alliances* centers local, coalition-based mobilization across and within multiple movements rather than national campaigns and court cases that often occur at the end of movement formation. Mayo-Adam argues that the construction of common political movement narratives and a shared core of opponents can help to explain the paradoxical effects of coalition formation. On the one hand, the development of shared political movement narratives and common opponents can expand movements in some contexts. On the other hand, the episodic nature of rights-based campaigns can simultaneously contain and undermine movement expansion, reinforcing movement divisions. Mayo-Adam reveals the extent to which inter- and intra-movement coalitions, formed to win rights or thwart rights losses, represent and serve intersectionally marginalized communities—who are often absent from contemporary accounts of social movement formation.

Has the Gay Movement Failed? Aug 12 2021 "Martin Duberman is a national treasure." —Masha Gessen, *The New Yorker* The past fifty years have seen significant shifts in attitudes toward LGBTQ people and wider acceptance of them in the United States and the West. Yet the extent of this progress, argues Martin Duberman, has been more broad and conservative than deep and transformative. One of the most renowned historians of the American left and the LGBTQ movement, as well as a pioneering social-justice activist, Duberman reviews the half century since Stonewall with an immediacy and rigor that informs and energizes. He revisits the early gay movement and its progressive vision for society and puts the left on notice as failing time and again to embrace the queer potential for social transformation. Acknowledging the elimination of some of the most discriminatory policies that plagued earlier generations, he takes note of the cost—the sidelining of radical goals on the way to achieving more normative inclusion. Illuminating the fault lines both within and beyond the movements of the past and today, this critical book is also hopeful: Duberman urges us to learn from this history to fight for a truly inclusive and expansive society.

Queer Activism After Marriage Equality Oct 14 2021 *Queer Activism After Marriage Equality* focuses on the implications of legal same-sex marriage for LGBTQ social movements and organizing. It asks how the agendas, strategies, structures and financing of LGBTQ movement organizations are changing now that same-sex marriage is legal in some countries. Building on a major conference held in 2016 entitled "After Marriage: The Future of LGBTQ Politics and Scholarship," this collection draws from critical and intersectional perspectives to explore the questions and issues facing the next chapter of LGBTQ activism and social movement work. It comprises academic papers, international case studies, edited transcripts of selected conference sessions, and interviews with activists. These take a critical look at the high-profile work of national and state-wide equality

organizations, analyzing the costs of winning marriage equality and what that has meant for other LGBTQ activism. In addition to this, the book examines other forms of queer activism that have existed for years in the shadows of the marriage equality movement, as well as new social movements that have developed more recently. Finally, it looks to examples of activism in other countries and considers lessons U.S. activists can learn from them. By presenting research on these and other trends, this volume helps translate queer critiques advanced during the marriage campaigns into a framework for ongoing critical research in the after-marriage period.

Mobilizing Gay Singapore Jul 11 2021 From private meetings in living rooms in the 1990s to the emergence of annual rallies and decriminalization campaigns in the past six years, Singapore's gay rights activists have sought equality and justice in a state that does not recognise their rights to seek protection of their civil and political liberties. In her groundbreaking book, *Mobilizing Gay Singapore*, Lynette Chua tells the history of the gay rights movement in Singapore and asks what a social movement looks like under these circumstances. She examines the movement's emergence, development, strategies, and tactics, as well as the roles of law and rights in social processes. Chua uses in-depth interviews with gay activists, observations of the movement's activities, movement documents, government statements, and media reports. She shows how activists deploy "pragmatic resistance" to gain visibility and support, and tackle political norms that suppress dissent, while avoiding direct confrontations with the state.

Gay Rights at the Ballot Box Jun 17 2019 Explores the history and evolution of the gay rights movement, focusing on activists' campaigns to prevent numerous anti-gay ballot measures from becoming law.

analysis of UK-based non-governmental organisations engaged in transnational lesbian, gay, bisexual, and trans (LGBT) activism, within a broader recognition of the complexities that British colonial legacies perpetuate in contemporary international relations. From this analysis, the book suggests that greater engagement with intersectional and decolonial approaches to transnational activism would allow for a more transformative solidarity that challenges the broader impacts of coloniality on LGBT people's lives globally. Case studies are used to explore UK actors' participation in the complexities of contemporary transnational LGBT activism, including activist responses to developments in Brunei between 2014 and 2019, and the use of LGBT aid conditionality by Western governments. Activist engagements with legacies of British colonialism are also explored, including a focus on 'sodomy laws' and the Commonwealth, as well as the challenges faced by LGBT people seeking asylum in the UK.

Sexual Identities, Queer Politics Sep 01 2020 In this collection, political and public policy analysts explore the social concerns of lesbians, gays, bisexuals, and the transgendered--what has come to be known as "lgbt" or "queer" politics. Compared to the humanities and to other social sciences, political science has been slow to address this phenomenon. Issues ranging from housing to adoption to laws on sodomy, however, have increasingly raised important political questions about the rights and status of sexual minorities, particularly within liberal democracies such as the United States, and also on an international level. This anthology offers the first comprehensive overview of the study of lgbt politics in political science across the discipline's main subfields and methodologies, and it spotlights lgbt movements in several regions around the world. Focusing on the politics of sexuality with regard to the politics of knowledge, the book presents a discussion of power that will interest all political scientists and others concerned with minority rights and gender.

as well as with transformation in the relations between public and private. The articles cover such topics as lgbt power in urban politics, the impact of public opinion on lgbt life, means of effecting legal and political change in the United States, and international differences in lgbt political activism. The authors represent a new cadre of political scientists who are creating an interdisciplinary domain of research that is informed by and in turn generates political activism. They are Dennis Altman, M. V. Lee Badgett, Robert W. Bailey, Mark Blasius, Cathy J. Cohen, Timothy E. Cook, Paisley Currah, Juanita Díaz-Cotto, Jan-Willem Duyvendak, Leonard Harris, Bevin Hartnett, Rosalind Pollack Petchesky, David Rayside, Rebecca Mae Salokar, and Alan S. Yang.

Excluded Aug 24 2022 While many feminist and queer movements are designed to challenge sexism, they often simultaneously police gender and sexuality—sometimes just as fiercely as the straight, male-centric mainstream does. Among LGBTQ activists, there is a long history of lesbians and gay men dismissing bisexuals, transgender people, and other gender and sexual minorities. In each case, exclusion is based on the premise that certain ways of being gendered or sexual are more legitimate, natural, or righteous than others. As a trans woman, bisexual, and femme activist, Julia Serano has spent much of the last ten years challenging various forms of exclusion within feminist and queer/LGBTQ movements. In *Excluded*, she chronicles many of these instances of exclusion and argues that marginalizing others often stems from a handful of assumptions that are routinely made about gender and sexuality. These false assumptions infect theories, activism, organizations, and communities—and worse, they enable people to vigorously protest certain forms of sexism while simultaneously ignoring and even perpetuating others. Serano advocates for a new approach to fighting sexism that avoids these pitfalls and offers new ways of thinking about gender, sexuality, and sexism that foster inclusivity rather than exclusivity.

LGBTQ Politics Mar 27 2020 "From Harvey Milk to Barney Frank, and from ACT UP to Proposition 8, in the past few decades, no political change has been more significant than the civil rights advancements of LGBTQ citizens. LGBTQ Politics is the first authoritative reader to approach the complexity of queer politics from a political science perspective, bringing together original contributions from leading scholars in the field on key issues in LGBTQ politics. These original essays cover a wide range of essential topics, including marriage equality, transgender discrimination, gay and lesbian political candidates, LGBTQ human rights advocacy, HIV prevention, and LGBTQ movements of the Global South. The volume also includes a number of critical essays that reflect upon the state of political science as a discipline that has struggled to address queer politics. Contributors draw from a variety of subfields in political science, including comparative politics, political theory, American politics, public law, and international relations. Essays that focus on mainstream institutional politics appear alongside contributions grounded in grassroots movements and critical theory. While some essays express concerns that the democratic basis of the LGBTQ movement has been undermined, others celebrate the movement's successes and offer visions for the future. A comprehensive, thought-provoking, and authoritative collection, LGBTQ Politics: A Critical Reader is required reading for anyone looking to learn about the politics of sexuality"--Back cover.

Intersectionality in Feminist and Queer Movements Feb 06 2021 Examining the ways in which feminist and queer activists confront privilege through the use of intersectionality, this edited collection presents empirical case studies from around the world to consider how intersectionality has been taken up (or indeed contested) by activists in order to expose and resist privilege. The volume sets out three key ways in which intersectionality operates within feminist and queer

movements: it is used as a collective identity, as a strategy for forming coalitions, and as a repertoire for inclusivity. The case studies presented in this book then evaluate the extent to which some, or all, of these types of intersectional activism are used to confront manifestations of privilege. Drawing upon a wide range of cases from across time and space, this volume explores the difficulties with which activists often grapple when it comes to translating the desire for intersectionality into a praxis which confronts privilege. Addressing inter-related and politically relevant questions concerning how we apply and theorise intersectionality in our studies of feminist and queer movements, this timely edited collection will be of interest to students and scholars from across the social sciences and humanities with an interest in gender and feminism, LGBT+ and queer studies, and social movement studies.

Elite-Led Mobilization and Gay Rights Sep 20 2019 Grassroots America supports LBGTQ rights even when leaders do not

The International LGBT Rights Movement Jun 22 2022 During the past four decades, the international lesbian, gay, bisexual, and transgender rights movement has made significant advances, but millions of LGBT people continue to live in fear in nations where homosexuality remains illegal. The International LGBT Rights Movement offers a comprehensive account of this global force, from its origins in the mid-nineteenth century to its crucial place in world affairs today. Belmonte examines the movement's goals, the disputes about its mission, and its rise to international importance. The International LGBT Rights Movement provides a thorough introduction to the movement's history, highlighting key figures, controversies, and organizations. With a global scope that considers both state and non-state actors, the book explores transnational movements to challenge homophobia, while also assessing the successes and failures of these efforts along the
