Freedom, Glorious Freedom Jan 08 2021 In *Freedom, Glorious Freedom*, acclaimed author John J. McNeill shows how lesbian and gay Christians can achieve full spiritual maturity and self-acceptance. McNeill discusses freedom of conscience and discernment of spirits, ancient teachings of the Christian church that have a special urgency for lesbian and gay people who need to free themselves from all the homophobic authorities and deal with God on a direct and personal basis. The liberating process of coming out of the closet is seen as a spirit-filled effort to achieve the glory of God by becoming fully alive. McNeill offers a twelve-step spirituality as a spiritual process of liberation from all addictions in order to experience the love of God in its fullness. The epilogue expresses in detail a philosophical vision, looking both to the past and to the future, of how gay liberation fits into the Spirit-directed evolution of human history and its role in the ongoing struggle for human liberation. For more than thirty-five years, John J. McNeill, an ordained priest and psychotherapist, has been devoting his life to spreading the good news of God's love for lesbian and gay Christians.

Signing with a Heavy Hand and Heart, Love Mommy Sep 23 2019 Words from Ms. Torres: "I take my FAS and turn it in to a teaching tool to help others learn what I go through every day of my life." "If one person listens to what I have to say, then I have done my job. This is what I was born to do. I have won many awards for my work. The awards I've won have been great, but my biggest award is knowing that my message is being delivered and knowing that I might be helping so many people and unborn babies. . If I can prevent one more child from this awful syndrome I will be happy. My ultimate goal is to get the word out there that FAS is 100% preventable. I want everyone to know about the effects of alcohol on the fetus. My advice, my plea, is that you PLEASE, PLEASE do not drink while you are pregnant, even if you plan on giving your baby up for adoption. Let your baby fulfil his or her dreams and live a normal life. For all the fathers to be, you play an important role in this too. You must be encouraging and supportive. Staying away from alcohol yourself would be helpful." What others are saying: Thank you for sending your book to me. I

read it all, and I wanted to cry. What a wonderful sacrifice you and your family took on. It is wonderful what you have done and how Chanel has grown and turned out to be a wonderful young lady. You are certainly a very special person blessed by God from the beginning. I love you very much. Aunt Gloria "Ms. Torres is a true light in a world that needs more education on Fetal Alcohol Syndrome and its effects on unborn children. She has opened doors that will never be shut. She has just begun to educate the nation on Fetal Alcohol Syndrome." Deborah Thornton, SEDNET Project Management "Ms. Torres is the epitome of self-advocacy and embodies strength, resilience, and determination. She is courageous and tireless in her quest to educate others regarding FAS; and is compassionate and determined in her mission to empower and advocate for other young adults with disabilities." Barbara Shannon, School Psychologist Last night, I received a copy of *Signing with a heavy hand and heart, Love Mommy: A journey through fetal alcohol syndrome* by Mrs Sondra A Torres and Miss Chanel E Torres from Ms. Torres. I opened it and couldn't put it down until I was finished. This story of a young woman living with the effects of fetal alcohol syndrome (a birth defect that is 100% preventable-all pregnant women need to do is not drink when pregnant) is moving, sometimes funny and always inspirational. I quickly grew to care about Chanel and her adoptive family. Ms. Torres creates a vivid picture of what it is like to live with and care for children with special needs. In relatively few words, Torres brings her family to life-its struggles and its joys. The feelings of love and joy are powerfully conveyed while not minimizing the challenges presented in raising a child with FAS. As a teacher and parent I laughed and cried and wished I could meet this brave girl and her loving mother. Torres is compassionate towards all, including birth parents, but my heart breaks for the children who struggle with this disability. It is a daily battle for which there are some effective interventions but no cures. I will say that Ms. Torres left me more hopeful for these children than my experience as a teacher had-her powerful home environment is definitely a plus for Chanel." Children Learn Business Jul 22 2019 The most successful professionals starting learning business concepts at a very early age. Having these childhood experiences proved most valuable as adults. They grew up and entered the workforce leagues ahead of their peers in social skills, communication, and business acumen.

Children are quick to learn from others and adapt to their environment, more so than any other age. Knowing this, we must ask ourselves an important question. If the best time to learn is during childhood, why there is a significant lack of business education tailored for children? Millions of children's books are available for sale, however they are written on tales of a fantasy world where animals can speak, everyone is free from responsibility, and there is no conflict. As expected, these books add no value to a child's development and may even paint an unrealistic viewpoint of the world.

Journeys in Narrative Inquiry Sep 16 2021 Organized around a metaphor of an academic journey, D. Jean Clandinin offers published tracings of an unfolding journey over 40 years that, at its outset, appeared to focus only on questions of epistemology. However, the book illuminates how that apparent beginning focus shape-shifted to questions of methodology, ethics, ontology, and subsequently, political concerns. Clandinin shows that, even at the outset, her research wonders were grounded in relational understandings of experience, understandings that were simultaneously ontological, methodological, epistemological and ethical. Jean's work is collaborative, an engagement alongside others and within the contexts in which they and she lived and worked, including those who were participants in the research. She continues to acknowledge that narrative inquiry changes people's ways of being in the world, and those changes have ethical significance. While what she and her colleagues now call relational ethics has always been central, recently her sense of ethics has become more explicitly political. She shows the development of ideas over time, beginning as she entered doctoral work and continuing through 2019 and onward. Jean's work,

centered on relational understandings of experience, highlights ethical dimensions, and has come to define narrative understandings for generations of researchers. This book will be an invaluable resource for researchers and graduate students, and professional researchers in both educational and healthcare settings. .

On many days, like the one when a student's boyfriend was arrested for bank robbery, his managerial and entrepreneurial skills seemed irrelevant. But on others, they helped him demonstrate how exciting it is to learn. Playing Jeopardy with the class and inviting speakers into the classroom, Poizner motivated his students by expanding their horizons far beyond their high school's walls. Poizner writes, "Often I came to ask myself one question: What exactly are you doing here? As it turns out, I was receiving one hell of an education." Mt Pleasant is ultimately a success story, as Poizner wins Rookie Teacher of the Year honors and, more important, ensures that all his students graduate.
