Both authors are practising psychologists with extensive knowledge and experience of children's learning difficulties. In *Untangled*, world authority and clinical psychologist Lisa Damour provides an accessible, detailed, comprehensive guide to parenting teenage girls. Girls naturally develop at different rates, typically on more than one front, and the transition will be unique to every girl. Each chapter describes a phase, such as 'contending with adult authority' and 'entering the romantic world', with hints and tips for parents and daughters, and a 'when to worry' section. Initially popularized by celebrities, this method of coparenting is now becoming more mainstream as a way to help ease children into a new family dynamic. Birdnesting takes work and commitment but with Dr. Ann Gold Buscho's guidance, you'll learn everything you need to know about this revolutionary method.
