The Fruit, the Tree, and the Serpent Jun 07 2020 The worldwide prominence of snakes in religion, myth, and folklore underscores our deep connection to the serpent - but why, when so few of us have firsthand experience? The surprising answer, this book suggests, lies in the singular impact of snakes on primate evolution. Predation pressure from snakes, Lynne Isbell tells us, is ultimately responsible for the superior vision and large brains of primates - and for a critical aspect of human evolution.

Leap! Feb 25 2022 A lyrical leap from one animal to the next! 'A flea asleep / in the deep green moss / nettled by midges / wakes up cross, / starts to fidget / and turn and toss.' And then he LEAPS into the path of a grasshopper. Who, in turn, LEAPS onto a bunny. And so it goes, dog, fish, bullfrog, horse and dog again, each leaping and upsetting the next. Until, at last, the dog arrives in that same deep green moss. The flea leaps onto the dog. And they both fall asleep! A romp of a satisfying, circular story poem — like a game of tag, it's pure delight!

The poem was published in 1705 and the book first appeared in 1714. The poem elucidates many key principles of economic thought, including division of labor and the invisible hand, seventy years before Adam Smith (indeed, John Maynard Keynes argues Smith was probably referencing Mandeville). It also describes the paradox of thrift centuries before Keynes, and may be seen as part of the school of underconsumption. (courtesy of wikipedia.com)

[Present at the Creation, Leaping in the Dark, and Going Against the Grain](#) Nov 24 2021 (Applause Books). "The best way I know to resuscitate the theatre is to produce dangerous new works." Stuart Ostrow.

Producer Stuart Ostrow's manifesto of how intelligent life might be restored to the theatre is also a unique personal memoir of the producer-creator relationship and an evaluation of the essentials that can make a show fly, or remain earthbound. As a solo producer, Ostrow's many productions include M. Butterfly, which won the Tony Award for Best Play; Pippin; and 1776, which received both the New York and London Drama Critics Awards as well as the Tony Award for Best Musical. He produced the original Broadway production of the critically acclaimed La Bete, which won the Olivier Award in London for Best Comedy. Ostrow was brought in to fix the original production of Chicago, collaborated with Anthony Hopkins on a London production of M. Butterfly, that was not meant to be, and even had his own play, Stages, directed on Broadway by the avant-garde theatrical pioneer Richard Foreman. He riffs about the heroes and heels he's met along the way and that great cast includes Frank Loesser, Meredith Willson, Mel Brooks, Mike Nichols, Bob Fosse, David Geffen, Andrew Lloyd Webber, David Henry Hwang, John Kander, Fred Ebb, and many more.

Leap Feb 13 2021 Every business faces the existential threat of competitors producing cheaper copies. Even patent filings, market dominance and financial resources can't shield them from copycats. So what can we do—and, what can we learn from companies that have endured and even prospered for centuries despite copycat competition? In a book of narrative history and practical strategy, IMD professor of management and innovation Howard Yu shows that succeeding in today's marketplace is no longer just a matter of mastering copycat tactics, companies also need to leap across knowledge disciplines, and to reimagine how a product is made or a service is delivered. This proven tactic can protect a company from being overtaken by new (and often foreign) copycat competitors. Using riveting case studies of successful leaps and tragic falls, Yu illustrates five principles to success that span a wide range of industries, countries, and eras. Learn about how P&G in the 19th century made the leap from handcrafted soaps and candles to mass production of its signature brand Ivory, leaped into the new fields of consumer psychology and advertising, then leaped again, at the risk of cannibalizing its core product, into synthetic detergents and won with Tide in 1946. Learn about how Novartis and other pharma pioneers stayed ahead by making leaps from chemistry to microbiology to genomics in drug discovery; and how forward-thinking companies, including China's largest social media app—WeChat, Tokyo-based internet service provider Recruit Holdings, and Illinois-headquartered John Deere are leaping ahead by leveraging the emergence of ubiquitous connectivity, the inexorable rise of intelligent machines, and the rising importance of managerial creativity. Outlasting competition is difficult; doing so over decades or a century is nearly impossible—unless one leaps. Ultimately, Leap is a manifesto for how pioneering companies can endure and prosper in a world of constant change and inevitable copycats.

Leaping Nov 05 2022 In this spirited collection of essays, Brian Doyle employs his wit, wisdom, and gusto for life as he shares with readers his thoughts on Jesus, the Mass, Birds, Bees, and so much more. What would be a good alternative name for Jesus? What does a honeybee at Mass have to tell us about Christ? What is, after all, the real point of saying prayers when someone is suffering? Through the good and the bad, the serious and the hilarious, Doyle finds just the right story and just the right words to help us better understand life and love—and to help us see our faith in a whole new light.

God over Good Dec 14 2020 It's hard to say that God is good when God isn't always what we expect good to be. A good father wouldn't make it so difficult to get to know him, would he? And if God is all-powerful, wouldn't he ensure that we never suffered? Either our understanding of God is incorrect, or our definition of good is inadequate. In a world that is messy and a church that is imperfect, it's easy to let our faith be lost. But that doesn't mean we have to lose God. It means we must consider the fact that perhaps our idealized expectations are just plain wrong. With transparency about his own struggles with cynicism and doubt, pastor Luke Norsworthy helps frustrated Christians and skeptics trade their confinement of God in an anemic definition of good for confidence in the God who is present in everything, including our suffering.

When to Jump Jul 21 2021 "A lively and inspiring guidebook for anyone who wants to make the jump from normal to extraordinary." —Tony Robbins, #1 New York Times bestselling author of Unshakeable and MONEY: Master the Game An inspirational book that lays out the "Jump Curve"—four steps to wholeheartedly pursuing the career of your dreams—through experiences from a variety of people who have jumped and never looked back. When Mike Lewis was twenty-four and working in a prestigious corporate job, he eagerly wanted to leave and pursue his dream of becoming a professional squash player. But he had questions: When is the right time to move from work that is comfortable to a career you have only dared to dream of? How have other people made such a jump? What did they feel when making that jump—and afterward? Mike sought guidance from others who had "jumped," and the responses he got—from a banker who started a brewery, a publicist who became a Bishop, a garbage collector who became a furniture designer, and on and on—were so clear-eyed and inspiring that Mike wanted to share what he had learned with others who might be helped by those stories. First, though, he started playing squash professionally. The right book at the right time, When to Jump offers more than forty heartening stories (from the founder of Bonobos, the author of The Big Short, the designer of the Lyft logo, the Humans of New York creator, and many more) and takeaways that will inspire, instruct, and reassure, including the ingenious four-phase Jump Curve.

Going, Going ... Caught! Apr 17 2021 Though Willie Mays' World Series catch of Vic Wertz's long drive in 1954 immediately comes to mind, there are many catches that have been called "the greatest." This work documents baseball's best catches by outfielders from 1887 through 1964 (the year of Duke Snider's retirement, the demolition of the Polo Grounds, and, arguably, Willie Mays' last great grab). After introductory chapters on factors that influenced the catches and their legacies—from ballpark quirks, changes to the baseball and the evolution of baseball gloves, to sportswriters and photography—the book describes famous catches by decade from such players as Mays, Willie Keeler, Joe DiMaggio, Duke Snider, Roberto Clement, Curt Flood and many others. Extensive research yields a wealth of information for each catch, including commentary by period sportswriters, players, and, often, the man who snagged the ball.
