Computer Vision – ECCV 2016 Workshops Oct 02 2020 The three-volume set LNCS 9913, LNCS 9914, and LNCS 9915 comprises the refereed proceedings of the Workshops that took place in conjunction with the 14th European Conference on Computer Vision, ECCV 2016, held in Amsterdam, The Netherlands, in October 2016. The three-volume set LNCS 9913, LNCS 9914, and LNCS 9915 comprises the refereed proceedings of the Workshops that took place in conjunction with the 14th European Conference on Computer Vision, ECCV 2016, held in Amsterdam, The Netherlands, in October 2016. 27 workshops from 44 workshops proposals were selected for inclusion in the proceedings. These address the following themes: Datasets and Performance Analysis in Early Vision; Visual Analysis of Sketches; Biological and Artificial Vision; Brave New Ideas for Motion Representations; Joint ImageNet and MS COCO Visual Recognition Challenge; Geometry Meets Deep Learning; Action and Anticipation for Visual Learning; Computer Vision for Road Scene Understanding and Autonomous Driving; Challenge on Automatic Personality Analysis; BioImage Computing; Benchmarking Multi-Target Tracking: MOTChallenge; Assistive Computer Vision and Robotics; Transferring and Adapting Source Knowledge in Computer Vision; Recovering 6D Object Pose; Robust Reading; 3D Face Alignment in the Wild and Challenge; Egocentric Perception, Interaction and Computing; Local Features: State of the Art, Open Problems and Performance Evaluation; Crowd Understanding; Video Segmentation; The Visual Object Tracking Challenge Workshop; Web-scale Vision and Social Media; Computer Vision for Audio-visual Media; Computer VISION for ART Analysis; Virtual/Augmented Reality for Visual Artificial Intelligence; Joint Workshop on Storytelling with Images and Videos and Large Scale Movie Description and Understanding Challenge.

Automation 2019 Jan 25 2020 This book consists of papers presented at AUTOMATION2019, an international conference held in Warsaw from March 27 to 29, 2019. It discusses the radical technological

changes occurring due to the INDUSTRY 4.0. To follow these changes, both scientists and engineers have to face the challenge of interdisciplinary approach directed at the development of cyber-physical systems. This approach encompasses interdisciplinary theoretical knowledge, numerical modelling and simulation as well as application of artificial intelligence techniques. Both software and physical devices are composed into systems that will increase production efficiency and resource savings. The theoretical results, practical solutions and guidelines presented are valuable for both researchers working in the area of engineering sciences and practitioners looking for solutions to industrial problems.

iPad All-in-One For Dummies Oct 14 2021 Six minibooks in one show you how to power-use the iPad For work, play, and life on the road, the iPad has quickly become indispensable, and the new iPad is packed with even more features and power than ever. In this fun and practical guide, long-time For Dummies author Nancy C. Muir walks you through the latest functions, features, and capabilities of the iPad. Get up to speed on the basics, see how to use your iPad to get more organized and productive, learn to use your iPad for work, and discover all the ways to have fun. This book covers it all, and in full color! Packs six minibooks in one full-color guide: iPad Basics, Just for Fun, iPad on the Go, Getting Productive with iWork, Using iPad to Get Organized, and Must-Have iPad Apps Covers the newest iPad features, functions, and capabilities, including the stunning retina display, voice dictation, the enhanced iSight camera, HD video recording in full 1080p, and more Shows you how to use iWork and other productivity apps to dress up your documents, create stellar spreadsheets, add pizzazz to your presentations, and maintain your schedule on the run Walks you through connecting with WiFi and the lightning-fast 4G LTE network Explains how to use Maps for directions and places to stay when you're away from the office, keep in touch with e-mail and social networking, and use your iPad as a remote desktop or personal hotspot while you're on the road Includes coverage of the third-generation iPad, iPad 2, and original iPad You've got the incredible iPad, now get the perfect accessory: iPad All-in-One For Dummies, 4th Edition.

The New iPad Fully Loaded Jan 17 2022 Maximize all that the new iPad has to offer with *The New iPad Fully Loaded!* The new iPad Fully Loaded is a one-of-a-kind resource for squeezing every bit of functionality from your new iPad. Whether you're downloading content of any sort, looking to get the most out of iOS5, or using your new iPad to control anything from your home stereo system to your vehicle, nothing is out of the realm of possibilities. As you progress through this captivating, full-color book, veteran author Alan Hess takes you beyond the basics and show you how to fully utilize your new iPad and it's impressive features. Peppared with sophisticated tips and tricks, *The new iPad Fully Loaded* encourages you to modify your new iPad to your own specifications and teaches you never-before-revealed tricks so that you can truly get the most out of this amazing device. Goes beyond the basics to deliver rare tips and tricks on maximizing all that the new iPad has to offer Includes tips, tricks, and techniques that are applicable to every version of the iPad Covers new benefits of iOS 5 Boasts updates on the latest iPad technology developments as well as coverage of both common and uncommon tasks In full-color and sporting a convenient trim size, *The new iPad Fully Loaded* is the perfect accessory to your new iPad.

Intelligent Computing Mar 27 2020 This book is a comprehensive collection of chapters focusing on the core areas of computing and their further applications in the real world. Each chapter is a paper presented at the Computing Conference 2021 held on 15-16 July 2021. Computing 2021 attracted a total of 638 submissions which underwent a double-blind peer review process. Of those 638 submissions, 235 submissions have been selected to be included in this book. The goal of this conference is to give a platform to researchers with fundamental contributions and to be a premier venue for academic and industry practitioners to share new ideas and development experiences. We hope that readers find this volume interesting and valuable as it provides the state-of-the-art intelligent methods and techniques for solving real-world problems. We also expect that the conference and its publications is a trigger for further related research and technology improvements in this important subject.

iPhone 4S For Dummies Jun 10 2021 The full-color guide to getting the most out of your iPhone

Completely updated and revised to include iOS 5, iCloud, and the latest iPhone features, this full-color book is your guide to all things iPhone. Bestselling veteran authors Edward Baig and Bob "Dr. Mac" LeVitus introduce you to the capabilities of the iPhone for making phone calls, browsing the Internet, sending and receiving e-mails, working with the calendar, watching and recording HD videos, taking and editing great photos, and much more. You'll discover how to set up iTunes, buy music and videos, protect your information, troubleshoot, multitask, and download the hundreds of thousands of apps available from the App Store. Gets you started with your iPhone, and gets you on your way to mastering the multitouch interface, synching with iCloud, making phone and video calls, texting, working with the calendar, and more Explains setting up iTunes, watching videos, taking photos, making FaceTime video calls, and listening to your favorite music Walks you through connecting to the Internet, sending and receiving e-mails, getting directions from GPS maps, working with Siri - your voice-activated virtual assistant, protecting your information, and troubleshooting Addresses the latest updates, iCloud, and new iOS 5 features that make your iPhone even more powerful and easy to use Includes coverage of iPhone 3G, iPhone 3GS, and the iPhone 4 models from all major carriers Presented in the straightforward-but-fun style that defines the Dummies series, iPhone For Dummies, 5th Edition is the just the book you need to get acquainted with your brand new iPhone.

Design Secrets : Product 2 May 21 2022 Contains fifty design projects, providing a behind-the-scenes look that uncovers the design process used to produce the award winning end results. Each project in this work provides text describing the designer's insights and inspirations, as well as the evolution of the illustrated project. It contains working drawings, sketches, and more.

My Samsung Galaxy Note II Nov 22 2019 Normal 0 false false false MicrosoftInternetExplorer4 Step-by-

step instructions with callouts to Samsung Galaxy Note II photos that show you exactly what to do Help when you run into Samsung Galaxy Note II problems or limitations Tips and Notes to help you get the most from your Samsung Galaxy Note II Full-color, step-by-step tasks walk you through getting and keeping your Samsung Galaxy Note II working just the way you want. Learn how to Make the most of Galaxy Note II's powerful hardware--from S Pen to sensors Connect the right way at the right time, with Bluetooth, Wi-Fi, VPNs, NFC, and beaming Transform your Galaxy Note II into a Wi-Fi hotspot others can share Access websites fast and sync bookmarks across all your devices Customize your wallpaper, keyboard, sound, display, and language Efficiently manage your life: messages, contacts, meetings, and more Use GPS and Google Maps to find any destination and never get lost Get the exact information you need right now, with Google Now Play, sync, and manage media--from music to YouTube videos Store your music collection in the cloud, so you can listen anywhere Make plans faster by adding participants to calls in progress Automatically reject calls you don't want Read ebooks and magazines with Google Play or the Amazon Kindle app Find the best new apps and games on Google Play--even great freebies Extend your battery life--today and for years to come Keep your Galaxy Note II up-to-date, reliable, and secure

iPad For Dummies Jan 05 2021 The fast and easy way to get the most out of your iPad - updated for iPad Air 2 and iPad mini 3! This new edition of iPad For Dummies covers all the latest tips and tricks to getting the most out of your iPad, presented in a straightforward-but-fun language that has defined the For Dummies brand for more than twenty years. Clear instructions get you started with the basics, like setting up your iPad, mastering the multi-touch interface, and syncing your data. Next, you'll discover how to work in the iCloud, set up iTunes on your iPad, browse the Internet, send and receive e-mails, text with iMessage, download apps from the App Store, making video calls with FaceTime, work with Siri, import pictures, get organized with Reminders, find your way with Maps, and so much more. Written in plain English and complemented with full-color photographs that bring the information to life, iPad For Dummies helps even the most techno-

phobic readers understand and master the iPad's myriad capabilities. Whether you're looking to curl up with a good iBook, stay connected on social media, capture photos and videos—or anything in between—everything you need is at your fingertips. Includes coverage of iPad Air 2, iPad Air, and all models of iPad mini Bestselling For Dummies brand in full-color! Written by a dynamic team, including the Personal Tech columnist for USA Today and the author of the popular Dr. Mac column for the Houston Chronicle Enhanced with instructional videos and eBook supplements Covers the portability, accessibility, and multi-functionality that make iPad popular for school, recreation, and work If you're a new iPad user or have a bit of experience and want approachable information on the latest iOS software and iPad hardware, this friendly guide has you covered.

Advanced Concepts for Intelligent Vision Systems Jul 11 2021 This book constitutes the refereed proceedings of the 13th International Conference on Advanced Concepts for Intelligent Vision Systems, ACIVS 2011, held in Ghent, Belgium, in August 2011. The 66 revised full papers presented were carefully reviewed and selected from 124 submissions. The papers are organized in topical sections on classification recognition, and tracking, segmentation, images analysis, image processing, video surveillance and biometrics, algorithms and optimization; and 3D, depth and scene understanding.

The iPad Book Vol 2 Dec 16 2021

Visual Sensors Feb 18 2022 Visual sensors are able to capture a large quantity of information from the environment around them. A wide variety of visual systems can be found, from the classical monocular systems to omnidirectional, RGB-D, and more sophisticated 3D systems. Every configuration presents some specific characteristics that make them useful for solving different problems. Their range of applications is wide and varied, including robotics, industry, agriculture, quality control, visual inspection, surveillance, autonomous driving, and navigation aid systems. In this book, several problems that employ visual sensors are presented. Among them, we highlight visual SLAM, image retrieval, manipulation, calibration, object

recognition, navigation, etc.

Google Pixel 2: Guide for Beginners Apr 20 2022 Google Pixel 2 is an Android smartphone that was produced by Google Corporation. This device was released on October 19 of the year 2017. If you are considering buying one of these smartphones, you have come to the right place. Here, we will check out all the major features and updates that have been made to the Google Pixel 2 since it was first released. It may interest you to know that the Google Pixel 2 was not released on its own. When the announcement was made on October 4 of 2017, the Google Pixel 2 XL was also announced. The Google Pixel 2 XL was released a few weeks later the 19th of October with the Google Pixel 2. While the Google Pixel 2 falls behind the leading brands in smartphones such as iPhones and Samsung Galaxy devices, there are ways in which this android device can match up to the leaders in the smartphone industry.

Computer Vision - ECCV 2014 Workshops Apr 27 2020 The four-volume set LNCS 8925, 8926, 8927, and 8928 comprises the thoroughly refereed post-workshop proceedings of the Workshops that took place in conjunction with the 13th European Conference on Computer Vision, ECCV 2014, held in Zurich, Switzerland, in September 2014. The 203 workshop papers were carefully reviewed and selected for inclusion in the proceedings. They were presented at workshops with the following themes: where computer vision meets art; computer vision in vehicle technology; spontaneous facial behavior analysis; consumer depth cameras for computer vision; "chlearn" looking at people: pose, recovery, action/interaction, gesture recognition; video event categorization, tagging and retrieval towards big data; computer vision with local binary pattern variants; visual object tracking challenge; computer vision + ontology applies cross-disciplinary technologies; visual perception of affordance and functional visual primitives for scene analysis; graphical models in computer vision; light fields for computer vision; computer vision for road scene understanding and autonomous driving; soft biometrics; transferring and adapting source knowledge in computer vision; surveillance and re-identification; color and photometry in computer vision; assistive

computer vision and robotics; computer vision problems in plant phenotyping; and non-rigid shape analysis and deformable image alignment. Additionally, a panel discussion on video segmentation is included.

iPad in Education For Dummies Sep 13 2021 It's easy to bring the incredible iPad experience to your classroom today! The iPad is a natural fit for education in the 21st century, and this straightforward, full-color guide shows you just how to deploy it effectively in your educational institution. From understanding how iPads can be used for different learning styles to managing iPad content and classroom use, finding the apps to complement your curriculum, creating interactive lessons, and beyond, author Sam Gliksman, a sought-after consultant on integrating technology in schools, answers all your questions. Helps teachers and administrators see how to use iPads effectively in different grades, classroom settings, and curriculum levels Explains iPad's built-in media features and the importance of multimedia in modern education Explores iPad best practices, tools, and apps for a successful iPad program in your school Shows how the iPad can be used as a valuable tool for research, collaboration, communication, creativity, and discovery Provides tips and guidance on keeping information updated, managing content, and taking advantage of the iPad as a learning tool iPad in Education For Dummies is your guide to using the world's most popular tablet to inspire and educate your students in a whole new way.

High Performance Silicon Imaging Dec 04 2020 High Performance Silicon Imaging: Fundamentals and Applications of CMOS and CCD Sensors, Second Edition, covers the fundamentals of silicon image sensors, addressing existing performance issues and current and emerging solutions. Silicon imaging is a fast growing area of the semiconductor industry. Its use in cell phone cameras is already well established, with emerging applications including web, security, automotive and digital cinema cameras. The book has been revised to reflect the latest state-of-the-art developments in the field, including 3D imaging, advances in achieving lower signal noise, and new applications for consumer markets. The fundamentals section has also been expanded to include a chapter on the characterization and testing of CMOS and CCD sensors that is crucial to

the success of new applications. This book is an excellent resource for both academics and engineers working in the optics, photonics, semiconductor and electronics industries. Covers the fundamentals of silicon-based image sensors and technical advances, focusing on performance issues Looks at image sensors in applications, such as mobile phones, scientific imaging, and TV broadcasting, and in automotive, consumer and biomedical applications Addresses the theory behind 3D imaging and 3D sensor development, including challenges and opportunities

IPad iOS 5 Development Essentials Jul 19 2019 This iOS 5 edition of iPad Development Essentials contains 58 chapters of in-depth information on the development of apps for the iPad fully updated for use with the iOS 5 SDK. The aim of this book is to teach you the skills necessary to build your own apps for the iPad. Beginning with the basics, this book provides an overview of the iPad hardware and the architecture of iOS 5. An introduction to programming in Objective-C is provided followed by an in-depth look at the design of iPad applications and user interfaces. More advanced topics such as file handling, database management, graphics drawing and animation are also covered, as are touch screen handling, gesture recognition, multitasking, iAds integration, location management, local notifications, maps, split views, camera access and video playback support. New iOS 5 specific features are also covered in detail including page view controller implementation, the UIDocument class, iCloud based storage, Storyboard user interface design, automatic reference counting, Twitter integration and image filtering with Core Image. iPad iOS 5 Development Essentials takes a modular approach to the subject of iPad application development with each chapter covering a self contained topic area. This makes the book both an easy to follow learning aid and an excellent reference resource.

National RV Trader, January 2008 Apr 08 2021

Operator, Organizational, Direct Support, and General Support Maintenance Manual Sep 20 2019

Experimental Robotics VI Mar 19 2022 This book presents the proceedings of the 6th International

Symposium on Experimental Robotics held in Sydney in March 1999. The editors and contributors represent the leading robotics research efforts from around the world. Micro-machines, interplanetary exploration, minimally invasive surgery and emerging humanoid robots are among the most obvious attainments of leading robotics research teams reported in this volume. Less obvious but equally significant are the fundamental advances in robot map-building and methods of communication between humans and machines that are demonstrated through experimental results. This collection of papers will provide the reader with a concise report on the current achievements and future trends in robotics research across the world.

iPad & Siri For Dummies eBook Set Jun 29 2020 Two complete e-books on using iPad and Siri for one low price! This unique value-priced e-book set brings together two bestselling For Dummies books in a single e-book file. Including a comprehensive table of contents and the full text of each book, complete with cover, this e-book set helps you get the most out of your iPad and Siri, its artificial intelligence personal assistant. Best of all, you'll pay less than the cost of each book purchased separately. You'll get the complete text of: iPad For Dummies, which helps you to Set up your iPad, browse the web, and download apps Handle e-mail, enjoy music and movies, and make FaceTime calls Organize your to-do lists with Reminders, manage your contacts, and stay connected with Notification Center Shoot photos and video, play games, read books and magazines, and text with iMessage Siri For Dummies, which shows you how to Know what you can ask, what Siri can do, and how to get Siri to do it for you Use your voice to create texts, e-mails, and Facebook posts Search the web, schedule appointments, and set reminders Find movie times and watch trailers Make restaurant reservations, check sports scores, and more About the Authors Edward C. Baig is the Personal Tech columnist for USA TODAY as well as the author of Macs For Dummies, 11th Edition. Bob "Dr. Mac" LeVitus pens the popular "Dr. Mac" column for the Houston Chronicle and is the author of OS X Mountain Lion For Dummies. They are the coauthors of iPad For Dummies. Marc Saltzman, author of Siri For Dummies, has reported on the tech industry since 1996. A syndicated columnist for Gannett ContentOne,

CNN.com, and USA Today.com, he hosts CNN's Gaming & Gadgets segment and Canada's popular Gear Guide.

iPad 2 For Dummies Jul 23 2022 Provides instructions and advice for new users of the iPad 2, including getting it ready to use, Internet searches, e-mail, applications, audio, video, photographs, electronic books, settings, troubleshooting, and accessories.

iPad For Dummies Jun 22 2022 Brilliant, full-color guide to all things iPad - updated for iOS 6! Apple's amazing iPad continues to get better and better, and iOS 6 brings even more incredible features to the incredible iPad. If you want to get the very most out of your iPad, this is the book for you. Mac experts and veteran For Dummies authors Edward Baig and Bob "Dr. Mac" LeVitus guide you through the iPad basics before moving on to the latest features including Siri, Passbook, Facebook integration, a brand new Maps app, and enhancements to your favorite features like FaceTime, Safari, Mail, Photos, and so much more. Covers the iPad with Retina Display, iPad 2, and iOS 6 Gets you up to speed on the multitouch interface, setting up your e-mail account, getting connected, filling your iPad with amazing apps and cool content, and more Shows you how to do tons of stuff, including how to order around your Siri virtual personal assistant, make video calls with FaceTime, unveil the iPod in your iPad, curl up with a good iBook, and get organized with Reminders Includes tips on protecting your information, troubleshooting, connecting wirelessly, adding contacts, and using your iPad as a personal hotspot From the bread-and-butter basics to the very coolest of features, iPad For Dummies, 5th Edition will make you wonder how you ever lived without your iPad.

[Spatial Computing: Issues in Vision, Multimedia and Visualization Technologies](#) Feb 06 2021 This book is the result of a special workshop on Spatial Computing which brought together experts in computer vision, visualization, multimedia and geographic information systems to discuss common problems and applications. The common theme of the workshop was the need to integrate human perception and domain knowledge with developing representations and solutions to problems which necessarily involve the interpretation of

sensed data. The overwhelming conclusion was that these different areas of spatial computing should be communicating more than is done at present and that such workshops and publications would help this process. Contents:Foreword (T Caelli et al.)Bayesian Paradigms in Image Processing (Z-Q Liu)Robot Navigation by Visual Dead-Reckoning: Inspiration From Insects (M V Srinivasan et al.)Assessing Feature Importance in the Context of Object Recognition (G A W West)Geometric Variations: Analysis, Optimisation and Control (B T Daniel et al.)Using Aspect Graphs to Control the Recovery and Tracking of Deformable Models (S J Dickinson & D Metaxas)The Role of Machine Learning in Building Image Interpretation Systems (T Caelli & W F Bischof)Recent Advances in Graph Matching (H Bunke & B T Messmer)Cooperative Spatial Reasoning for Image Understanding (T Matsuyama & T Wada)Human Understanding Limits in Visualization (A J Maeder)A Strategy and Architecture for the Visualisation of Complex Geographical Datasets (M Gahegan & D O'Brien)Visualizing Spatial Data: The Problem of Paradigms (P K Robertson)The Visitors Guide: A Simple Video Reuse Application (K Shearer et al.)Conceptual Representation for Multimedia Information (R W Smith et al.) Ford Motor Company's Recall of Certain Firestone Tires Oct 26 2022

iPad Portable Genius Nov 03 2020 Make the most of your iPad with these savvy tips and techniques The iPad, iPad Air, and iPad mini are taking the world by storm. This no-nonsense guide covers everything you want to know to take full advantage of all your iPad has to offer. Along with necessary basics about the newest iPad; iPad Air, iPad mini; and iOS; it gives you smart; innovative ways to accomplish a variety of tasks and tips to help you maximize the convenience of your Apple digital lifestyle. More than 100 million iPads have been sold; and the number continues to grow Hip and practical; Portable Genius guides are packed with suggestions and tricks to help devotees of the Apple digital lifestyle get the most from their

devices This guide includes tips and techniques you may not discover just by using your iPad; including creative ways to save time and effort Previous editions of this book have sold more than 74,000 copies iPad Portable Genius, 2nd Edition is the ultimate guide to a productive relationship with your iPad.

Today's Technician: Automotive Electricity and Electronics, Classroom and Shop Manual Pack, Spiral bound Version Sep 01 2020 Ideal for aspiring and active automotive professionals, TODAY'S TECHNICIAN: AUTOMOTIVE ELECTRICITY & ELECTRONICS, Seventh Edition, equips readers to confidently understand, diagnose, and repair electrical and electronic systems in today's automobiles. Using a unique two-volume approach to optimize learning in both the classroom and the auto shop, the first volume (Classroom Manual) covers the theory and application of electricity, electronics, and circuitry in modern automobiles, while the second (Shop Manual) focuses on real-world symptoms, diagnostics, and repair information. Known for its comprehensive coverage, accurate and up-to-date technical information, and hundreds of detailed color illustrations and photographs, the text is an ideal resource to prepare for success as an automotive technician or pursue ASE certification. Now updated with extensive information on new and emerging technology and techniques--including telematic systems, LED and adaptive lighting, hybrid and electric vehicles, stop/start technology, lane departure warning, self-park systems, Wi-Fi connectivity, and other modern accessory systems--the Seventh Edition also aligns with the ASE Education Foundation 2017 accreditation model and includes job sheets correlated to all MLR, AST, and MAST tasks. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Ford Mustang Red Book 1964 1/2-2015 Feb 24 2020 From the first six-cylindered Mustang in 1962, through world-beating Boss and Shelby models, to 2015's all-new Mustang, this book offers all the data and detail Mustang fans lust after.

iPad 2: The Missing Manual Aug 24 2022 The iPad is an amazing media device, once you really know how

to use it. In this entertaining book, New York Times tech columnist and iPad expert Jude Biersdorfer shows you how to get the most out of this sleek tablet to surf the Web, send and receive email, watch movies and TV shows, read eBooks, listen to music, play games, and even do a little iWork. It's the book that should have been in the box. The important stuff you need to know Learn undocumented tips and tricks. Get the lowdown on cool iPad secrets Build and play your media library. Fill up your iPad with music, movies, TV shows, eBooks, photos, music videos, audiobooks, and podcasts Get online. Connect through Wi-Fi and Wi-Fi+3G—on both GSM and CDMA networks Discover state-of-the-art e-reading. Buy and read books and magazines in full color Consolidate your email accounts. Read email from your personal and work accounts Shop iTunes and the App Store. Navigate Apple's media emporiums, and learn how to get free music, video, books, and apps

IPad 2 Sep 25 2022 Looks at the latest features and functions of the iPad2, covering such topics as accessing the Internet, setting up an email account, using built-in apps, playing games, using iTunes, and storing data content in iCloud.

Computer Vision Systems Aug 20 2019 This book constitutes the refereed proceedings of the 12th International Conference on Computer Vision Systems, ICVS 2019, held in Thessaloniki, Greece, in September 2019. The 72 papers presented were carefully reviewed and selected from 114 submissions. The papers are organized in the following topical sections; hardware accelerated and real time vision systems; robotic vision; vision systems applications; high-level and learning vision systems; cognitive vision systems; movement analytics and gesture recognition for human-machine collaboration in industry; cognitive and computer vision assisted systems for energy awareness and behavior analysis; and vision-enabled UAV and counter UAV technologies for surveillance and security of critical infrastructures.

Computer Aided Systems Theory – EUROCAST 2015 Oct 22 2019 This volume constitutes the papers presented at the 15th International Conference on Computer Aided Systems Theory, EUROCAST 2015, held

in February 2015 in Las Palmas de Gran Canaria, Spain. The total of 107 papers presented were carefully reviewed and selected for inclusion in the book. The contributions are organized in topical sections on Systems Theory and Applications; Modelling Biological Systems; Intelligent Information Processing; Theory and Applications of Metaheuristic Algorithms; Computer Methods, Virtual Reality and Image Processing for Clinical and Academic Medicine; Signals and Systems in Electronics; Model-Based System Design, Verification, and Simulation; Digital Signal Processing Methods and Applications; Modelling and Control of Robots; Mobile Platforms, Autonomous and Computing Traffic Systems; Cloud and Other Computing Systems; and Marine Sensors and Manipulators.

Image Analysis and Processing — ICIAP 2015 Jul 31 2020 The two-volume set LNCS 9279 and 9280 constitutes the refereed proceedings of the 18th International Conference on Image Analysis and Processing, ICIAP 2015, held in Genoa, Italy, in September 2015. The 129 papers presented were carefully reviewed and selected from 231 submissions. The papers are organized in the following seven topical sections: video analysis and understanding, multiview geometry and 3D computer vision, pattern recognition and machine learning, image analysis, detection and recognition, shape analysis and modeling, multimedia, and biomedical applications.

Canon EOS Rebel T2i/550D Digital Field Guide Jun 17 2019 Featuring an 18.0 megapixel CMOS sensor and DIGIC 4 image processor for high image quality and speed, ISO 100-6400 for shooting from bright to dim light, and many more great features, the Canon EOS Rebel T2i brings professional features into an entry-level digital SLR. The Canon EOS Rebel T2i/550D Digital Field Guide will teach you how to get the most out of these impressive features so you can improve your photography skills. CHAPTER 1: Setting Up the EOS Rebel T2i/550D. – This chapter will help you set up your T2i so you can get the best image quality from your Canon T2i. It will also cover different ways to review your images and protect them from accidental deletion. CHAPTER 2: Controlling Exposure and Focus. – Learn about the different types of

shooting modes on your T2i, as well as image exposure and how to modify it for individual shooting scenarios. CHAPTER 3: Getting Great Color. – This chapter explores the concepts of light and color, and teaches you how to select a white balance and picture style on your T2i for maximum color rendering. CHAPTER 4: Customizing the EOS Rebel T2i/550D. – Learn how to set up your T2i for common and uncommon shooting situations. CHAPTER 5: Shooting in Live View and Tethered. – This chapter explains the T2i's Live View feature and how to shoot tethered to a computer. CHAPTER 6: Using Movie Mode. – A great starting point for any photographer to explore the world of digital video with the T2i, this chapter will teach you how to shoot and playback video on the T2i. CHAPTER 7: Using Flash. – This chapter explores flash technology, and how to use the T2i's on board flash and menu options for the built-in flash and for EX-Series Speedlites. CHAPTER 8: Exploring Canon Lenses and Accessories. This chapter covers popular T2i lenses and how they impact the images you capture with your T2i. CHAPTER 9: The Elements of Exposure and Composition. – Learn how aperture, shutter speed, and ISO affect your images, and how they work together to determine exposure. This chapter also covers the basics of composing images with your T2i. CHAPTER 10: Event and Action Photography. – Learn how to capture action in your images, plus some tips and tricks for general event photography, including how to capture great photos in low lighting. CHAPTER 11: Nature and Landscape Photography. – This chapter explores how to approach shooting nature and landscape images with your T2i. CHAPTER 12: Portrait Photography. – Learn how to set up the T2i for portrait shooting, plus information on choosing backgrounds, lighting, and other tips and tricks for taking great portraits. APPENDIX A: Exploring RAW Capture. – This chapter contains an overview of RAW capture as well as a brief walk-through on converting RAW images into a final image. APPENDIX B: How to Use the Gray and Color Checker cards. – Learn how to produce photos with accurate color and exposure with these free-inside-the-book tools.
