Abstracts for 1965: Abstracts of papers submitted for six meetings with which the Society was associated Jan 08 2021

[Collected Papers of R.S. Rivlin](#) May 12 2021 R.S. Rivlin is one of the principal architects of nonlinear continuum mechanics: His work on the mechanics of rubber (in the 1940s and 50s) established the basis of finite elasticity theory. These volumes make most of his scientific papers available again and show the full scope and significance of his contributions.

[Book of Ages](#) May 24 2022 National Book Award Finalist From one of our most accomplished and widely admired historians, a revelatory portrait of Benjamin Franklin's youngest sister and a history of history itself. Like her brother, Jane Franklin was a passionate reader, a gifted writer, and an astonishingly shrewd political commentator. Unlike him, she was a mother of twelve. Benjamin Franklin, who wrote more letters to his sister than he wrote to anyone else, was the original American self-made man; his sister spent her life caring for her children. They left very different traces behind. Making use of an amazing cache of little-studied material, including documents, objects, and portraits only just discovered, Jill Lepore brings Jane Franklin to life in a way that illuminates not only this one woman but an entire world—a world usually lost to history. Lepore's life of Jane Franklin, with its strikingly original vantage on her remarkable brother, is at once a wholly different account of the founding of the United States and one of the great untold stories of American history and letters: a life unknown.

[The Canon of Medicine](#) Sep 04 2020 Vol. 2: Published for the first time in English alphabetical order, vol. 2 (of the 5 original volumes) of "Canon of Medicine" (Law of Natural Healing), is an essential addition to the history of medicine as it holds a treasure of information on natural pharmaceuticals used for over 1000 years to heal various diseases and disorders. Fully color illustrated with a 150 page, 7000 word index of the healing properties of each of the entries, the text itself is an alphabetical listing of the natural pharmaceuticals of the simple compounds. By simple compounds, Avicenna includes the individual plants, herbs, animals and minerals that have healing properties. Avicenna lists 800 tested natural pharmaceuticals including plant, animal and mineral substances. The compiler has included the Latin, Persian and Arabic names of the drugs along with artistic renderings of the drugs as illustrations as well as Avicenna's Tables or Grid for each entry that describes the individual, specific qualities of simple drugs.

INTERMEDIATE I YEAR COMMERCE & ACCOUNTANCY(English Medium) TEST PAPERS Mar 22 2022 Intermediate First Year Commerce & Accountancy Test papers Issued by Board of Intermediate Education w.e.f 2013-2014.

Further responses to the Government's consultation on the Crossrail Bill environmental statement Aug 03 2020 The Department for Transport received a further 52 representations between 10 June 2005 and 8 August 2007. This is publication lists the significant issues raised in the consultation exercise followed by the detailed responses.

NTSE 10 Year-wise Class 10 Stage 2 Solved Papers (2010 - 19) Feb 27 2020 NTSE 10 Year-wise Class 10 Stage 2 Solved Papers (2010 - 19) consists of past 10 years Solved papers of Stage 2 (2010 -2019). The book provides solutions to each and every questions immediately after the question paper.

White Russians, Red Peril Jun 13 2021 Over 20,000 ethnic Russians migrated to Australia after World War II – yet we know very little about their experiences. Some came via China, others from refugee camps in Europe. Many preferred to keep a low profile in Australia, and some attempted to 'pass' as Polish, West Ukrainian or Yugoslavian. They had good reason to do so: to the Soviet Union, Australia's resettling of Russians amounted to the theft of its citizens, and undercover agents were deployed to persuade them to repatriate. Australia regarded the newcomers with wary suspicion, even as it sought to build its population by opening its door to more immigrants. Making extensive use of newly discovered Russian-language archives and drawing on a lifetime's study of Soviet history and politics, award-winning author Sheila Fitzpatrick examines the early years of a diverse and disunited Russian-Australian community and how Australian and Soviet intelligence agencies attempted to track and influence them. While anti-Communist 'White' Russians dreamed a war of liberation would overthrow the Soviet regime, a dissident minority admired its achievements and thought of returning home.

[New Frontiers in China's Foreign Relations](#) Oct 05 2020 The book presents the views of leading Chinese and American scholars working in the fields of Chinese foreign policy, national security and international political economy. It seeks to challenge the conventional wisdom about China's recent rise, contending it is a much more complex and contested trend than it has often been portrayed to be.

Information Resources in Toxicology Jun 01 2020 This latest version of Information Resources in Toxicology (IRT) continues a tradition established in 1982 with the publication of the first edition in presenting an extensive itemization, review, and commentary on the information infrastructure of the field. This book is a unique wide-ranging, international, annotated bibliography and compendium of major resources in toxicology and allied fields such as environmental and occupational health, chemical safety, and risk assessment. Thoroughly updated, the current edition analyzes technological changes and is rife with online tools and links to Web sites. IRT-IV is highly structured, providing easy access to its information. Among the "hot topics covered are Disaster Preparedness and Management, Nanotechnology, Omics, the Precautionary Principle, Risk Assessment, and Biological, Chemical and Radioactive Terrorism and Warfare are among the designated. • International in scope, with contributions from over 30 countries • Numerous key references and relevant Web links • Concise narratives about toxicologic sub-disciplines • Valuable appendices such as the IUPAC Glossary of Terms in Toxicology • Authored by experts in their respective sub-disciplines within toxicology

[Cold War Exiles and the CIA](#) Dec 27 2019 At the height of the Cold War in the 1950s, the United States government unleashed covert operations intended to weaken the Soviet Union. As part of these efforts, the CIA committed to supporting Russian exiles, populations uprooted either during World War Two or by the Russian Revolution decades before. No one seemed better prepared to fight in the American secret war against communism than the uprooted Russians, whom the CIA directed to carry out propaganda, espionage, and subversion operations from their home base in West Germany. Yet the American engagement of Russian exiles had unpredictable outcomes. Drawing on recently declassified and previously untapped sources, *Cold War Exiles and the CIA* examines how the CIA's Russian operations became entangled with the internal struggles of Russia abroad and also the espionage wars of the superpowers in divided Germany. What resulted was a transnational political sphere involving different groups of Russian exiles, American and German anti-communists, and spies operating on both sides of the Iron Curtain. Inadvertently, CIA's patronage of Russian exiles forged a complex sub-front in the wider Cold War, demonstrating the ways in which the hostilities of the Cold War played out in ancillary conflicts involving proxies and non-state actors.

[Cases on Global E-Learning Practices: Successes and Pitfalls](#) Apr 23 2022 E-learning has assumed a significant role in the educational sector in both face-to-face learning

and distance learning forms. Universities all over the globe have adopted e-learning methodology, or are planning to implement it in the near future. *Cases on Global E-Learning Practices: Successes and Pitfalls* looks into global practices of e-learning, examining the successes and failures of e-learning professionals. It provides a judicious mix of practical experiences and research in the form of case studies. Written by experts from all over the globe, this book shows how to design instructional strategies for e-learning, illustrates the application of e-learning with case studies, and reviews the potential of e-learning in education and training. *Cases on Global E-Learning Practices: Successes and Pitfalls* gives an understanding of the practical implementation of e-learning technologies, including what to do and what to avoid.

Racial Segregation and the Origins of Apartheid in South Africa, 1919–36 Dec 07 2020 Based on extensive archival research in South Africa and drawing on the most recent scholarship, this book is an original and lucid exposition of the ideological, political and administrative origins of Apartheid. It will add substantially to the understanding of contemporary South Africa.

Short Papers in Geology and Hydrology Articles 122-172 Jun 25 2022

Government overview of the case for Crossrail and its environmental impacts Aug 23 2019 Under the Environmental Impact Assessment (EIA) Directive, decision making bodies must consider the environmental effects of projects before allowing them to proceed. As the House of Commons will be asked, at Third Reading, to approve the building of Crossrail this document aims to inform the debate by summarising the work that has been done to assess, control and mitigate the environmental impacts of the scheme. It also explains why the Government takes the view that the project is worthy of support. It covers: the environmental statement; role of the Select Committee; the general approach to the control and mitigation of environmental impacts; post-mitigation impacts; the need for and benefits of Crossrail; and human rights. The appendices, which form the bulk of the document, include a summary of the reason for the Governments support of the project; a list of Information Papers and other sources of information; and examples of correspondence on the consideration of alternatives.

Workers, War & the Origins of Apartheid Feb 21 2022 This text provides a revision of South African labour history and makes a contribution to the debate about apartheid's genesis. Using a range of untapped sources, it shows that there was far more strike action during World War II than was officially acknowledged. North America: Ohio U Press

Nanotechnology and Functional Materials for Engineers Sep 28 2022 Nanotechnology and Functional Materials for Engineers focuses on key essentials and examples across the spectrum of nanomaterials as applied by engineers, including nanosensors, smart nanomaterials, nanopolymers, and nanotubes. Chapters cover their synthesis and characteristics, production methods, and applications, with specific sections exploring nanoelectronics and electro-optic nanotechnology, nanostructures, and nanodevices. This book is a valuable resource for interdisciplinary researchers who want to learn more about how nanomaterials are used in different types of engineering, including electrical, chemical, and biomedical. Offers in-depth information on a variety of nanomaterials and how they are used for different engineering applications Provides an overview of current research and suggests how this will impact future applications Explores how the unique properties of different nanomaterials make them particularly suitable for specific applications

Papers on Broadband Superhighway Aug 27 2022

Songs of Zion Apr 11 2021 This is a study of the transplantation of a creed devised by and for African Americans--the African Methodist Episcopal Church--that was appropriated and transformed in a variety of South African contexts. Focusing on a transatlantic institution like the African Methodist Episcopal Church, the book studies the complex human and intellectual traffic that has bound African American and South African experience. It explores the development and growth of the African Methodist Episcopal Church both in South Africa and America, and the interaction between the two churches. This is a highly innovative work of comparative and religious history. Its linking of the United States and African black religious experiences is unique and makes it appealing to readers interested in religious history and black experience in both the United States and South Africa.

On Paper Jul 26 2022 A Best Book of the Year: Mother Jones • Bloomberg News • National Post • Kirkus In these pages, Nicholas Basbanes—the consummate bibliophile’s bibliophile—shows how paper has been civilization’s constant companion. It preserves our history and gives record to our very finest literary, cultural, and scientific accomplishments. Since its invention in China nearly two millennia ago, the technology of paper has spread throughout the inhabited world. With deep knowledge and care, Basbanes traces paper’s trail from the earliest handmade sheets to the modern-day mills. Paper, yoked to politics, has played a crucial role in the unfolding of landmark events, from the American Revolution to Daniel Ellsberg’s Pentagon Papers to the aftermath of 9/11. Without paper, modern hygienic practice would be unimaginable; as currency, people will do almost anything to possess it; and, as a tool of expression, it is inextricable from human culture. Lavishly researched, compellingly written, this masterful guide illuminates paper’s endless possibilities.

Tracking a Diaspora Nov 06 2020 Discover collections unused by other scholars! Russian immigrants are one of the least studied of all the Slavic peoples because of meager collections development. *Tracking a Diaspora: Émigrés from Russia and Eastern Europe in the Repositories* offers librarians and archivists an abundance of fresh information describing previously unrealized and little-used archival collections on Russian émigrés. Some of these resources have been only recently acquired or opened to the public, providing rich new avenues of research for scholars and historians. This unique source provides access to greater breadth and depth of knowledge of Russian and Eastern European immigrants, their backgrounds, and their experiences coming to the United States. *Tracking a Diaspora* is not only a helpful new resource to specialists but also serves as an introduction to archival research for amateur genealogists and scholars. Chapters comprehensively describe a single repository, thorough descriptions of a single collection, or offer thematic overviews, such as the theme of German emigration from Russia. The text includes detailed notes, references, figures and tables, and photographs. *Tracking a Diaspora* describes largely unknown collections, including: a major group of archival collections that reveals more on these immigrants and their assimilation problems the holdings of the museum, libraries, and archives of Holy Trinity Orthodox Seminary in upstate New York the archives of the Synod of the Russian Orthodox Church Outside Russia the archives and Lembich library at The Tolstoy Foundation, Inc., New York the Archives of the Orthodox Church in America the manuscript collections at the Historical Society of Pennsylvania (HSP) materials on the immigrants who settled in the Midwest six archival collections acquired by the State Archive of the Russian Federation the André Savine collection at the University of North Carolina, Chapel Hill, North Carolina and more! *Tracking a Diaspora* is of great interest to librarians, archivists, specialists in Russian history, and specialists in ethnic and immigration history.
