Red Sun Setting Mar 15 2021 Many regard this work as the definitive account of a controversial conflict of the war in the Pacific, the June 1944 battle known as the "Great Marianas Turkey Shoot." Drawing on ten years of research and told from the viewpoint of the fliers and sailors who were on the firing line, William T. Y'Blood leads the reader through every stage of the battle, from the dogfights to the persistent attacks on the Japanese carriers to the frantic efforts of the returning fliers to land on friendly carriers. He takes the battle from the initial planning through the invasion of the Marianas and the recriminations that followed, describing Admiral Spruance's decision to allow U.S. forces to remain on the defensive and giving blow-by-blow details of the action. This intensive study of what many believe to be a major turning point in the Pacific War has remained an important reference since it was first published in 1981.

The Eye of Zeus Jan 01 2020 "This charming and brilliant novel is superbly plotted and will win over readers . . . Phoebe's voice is dead on and authentic, as are those of her friends. The author's masterful prose and style serve the story instead of merely taking center stage . . . This author and novel are ready for prime time and the big time." —Publishers Weekly, BookLife Prize Critic's Report Meet Phoebe Katz, a twelve-year-old foster kid from New York City who's been bounced around the system her entire life. Things happen around Phoebe, but it's not like they're her fault! But when a statue of Athena comes to life, Phoebe gets the stunning news she's the daughter of Zeus, has a twin brother named Perseus—and was sent away from ancient Greece as a baby to stop a terrible prophecy that predicted she would one day destroy Olympus. Athena warns Phoebe to stay in hiding, but when the vengeful god Ares kidnaps her beloved social worker, Phoebe has no choice—she has to travel back to ancient Greece and rescue him! There, Phoebe and her friends Angie and Damian discover a new prophecy, one that may fix everything. The catch: Phoebe has to collect talismans from six Greek monsters, including the fang from a nine-headed hydra, a talon from the Nemean lion, and a feather from the sphinx. No problem for a girl with the power to call up lightning bolts and change the weather! But can Phoebe collect them all and stop the prophecy before she destroys Olympus?

Blue Sun, Red Sun Oct 22 2021 BLUE SUN, RED SUN A Story of Ancient Prophecy Unfolding in the Modern World By Jack Allis Blue Sun, Red Sun is a metaphysical thriller, based on Hopi prophecy that talks about mysterious lights that appear in our sky heralding the coming of a new age, and what we, humanity, are called upon to do in these times of monumental transformation. The setting is Rainbow Village, a small sustainable community in the remote mountains, which is built on the same foundation as the Hopi and other indigenous traditions, and that is living in harmony with nature. They believe the civilized world is in the final stages of its inevitable collapse, and their mission is to be a base from which to build the new world from the ashes of the old. Our story begins with the first of the lights, the Blue Sun, appearing in the sky. The next day a group calling itself the Guardians takes control of all forms of media and announces the creation of a New World Order, with supreme authority to govern the world in their hands. Their first act is to abolish all paper money, and replace it with mandatory microchip implants for financial transactions. This, together with the mysterious Blue Sun, sends the world into a panic. Financial markets crash and hyperinflation strikes, making all money worthless. The old paradigm civilized world is on the brink. Thus, the stage is set for the most epic battle of all, as humanity is forced to choose between two worlds, one of slavery and one of freedom. It is a battle which is also beyond this world. It is multi-dimensional and extraterrestrial. The Guardians are aligned with extraterrestrial beings who have ruled the Earth behind the scenes for millennia. And in order for Rainbow to persevere, they must rely on the powers of the supernatural that they derive from their spirituality. Rainbow Village is prepared for this day. Will they experience the same fate as indigenous traditions before them, annihilation? Will they be devoured by the chaos around them? What power could possibly supplant the Guardians? If Rainbow is to persevere, what forces must come into play?

How the Red Sun Rose Nov 03 2022 This work offers the most comprehensive account of the origin and consequences of the Yan'an Rectification Movement from 1942 to 1945. The author argues that this campaign emancipated the Chinese Communist Party from Sovietinfluenced dogmatism and unified the Party, preparing it for the final victory against the Nationalist Party in 1949. More importantly, this monograph shows in great detail how Mao Zedong established his leadership through this partywide political movement by means of aggressive intraparty purges, thought control, coercive cadre examinations, and total reorganizations of the Party's upper structure. The result of this movement not only set up the foundation for Mao's new China, but also deeply influenced the

Chinese political structure today. The Chinese version of *How the Red Sun Rose* was published in 2000, and has had nineteen printings since then.

Red Sun and Merlin Unchained Jun 17 2021 *Red Sun and Merlin Unchained* are the most recent original stage works by one of the most acknowledged yet neglected dramatists of our time. *Red Sun* is a two-hander, tightly tethered within the classical unities of theme and space and the span of a single day. *Merlin Unchained* is an explosive, multitudinous epic, crossing continents and centuries and passing between worlds. Yet though technically so contrasting, both works speak with the same distinctive voice, offering an exhilarating and sometimes disturbing challenge to the cultural and political perceptions of a contemporary audience, and exploring alien worlds that, alarmingly, begin to become recognizable as our own.

The Red Sun Rises Jan 13 2021 Blurb: "Eren Anderson is a freak among freaks. At 17 years old, he doesn't fit in with his peers in the tiny town of All Hallows and despite being born into it, he most certainly doesn't fit in among The Order of Our Mother, the secret nature worshipping society that has harnessed the ability cast spells and believes vampires are not only real, but their deadliest enemies. Eren is turned into a vampire after an attack by the local coven master, but that is the least of his worries... In a post-Twilight world, "The Red Sun Rises" is a YA novel intended to give vampires their bite back but it should not be read as simply another vampire novel. "The Red Sun Rises" is a story about growing up, responsibility, falling in love, facing your fears and taking fate into your own hands."

The Teachings of Rao: The Spiritual Avatar of the Red Sun Jan 25 2022 This book presents the Teachings of Rao, the God of Krypton. By using a few references from other places, I analyzed from a scientific orientation that shows through the model of a Tree of Life of how it relates to modern scientific models as Russell Quantum Mechanics and Psychology. The teachings reveal the secret wisdom about the nature of the universe and of the psyche as well as a path to make the journey, through transformation, from mortal to immortal, from man/woman to superman/superwoman. The goal is to reclaim your state of balance and harmony with the Absolute. This was the notion of the summa bonum or greatest good, that we should aspire to. A superman or supergirl that I am referring to isn't the comic book version with superpowers. I am talking about more of the Nietzsche's concept, the Übermensch. It's about being psychological superior than we are today, the supermen and women will live by their own values as not seen since we followed those values more ""Pagan"" in nature.

In this brilliant and sobering examination of the 'Other India', Sudeep Chakravarti combines reportage, political analysis and individual case histories as he takes us to the heart of Maoist zones in the country—areas of extreme destitution, bad governance and perpetual war.

God's Red Son Jul 07 2020 In 1890, on Indian reservations across the West, followers of a new religion danced in circles until they collapsed into trances. In an attempt to suppress this new faith, the US Army killed over two hundred Lakota Sioux at Wounded Knee Creek. Louis Warren's God's Red Son offers a startling new view of the religion known as the Ghost Dance, from its origins in the visions of a Northern Paiute named Wovoka to the tragedy in South Dakota. To this day, the Ghost Dance remains widely mischaracterized as a primitive and failed effort by Indian militants to resist American conquest and return to traditional ways. In fact, followers of the Ghost Dance sought to thrive in modern America by working for wages, farming the land, and educating their children, tenets that helped the religion endure for decades after Wounded Knee. God's Red Son powerfully reveals how Ghost Dance teachings helped Indians retain their identity and reshape the modern world.
