Bankruptcy Deadline Checklist  
The Third Edition of the Bankruptcy Deadline Checklist is a very practical tool intended to be a quick reference guide to assist bankruptcy judges, attorneys, paralegals, credit managers, collection agents, professors, law students and others participating in bankruptcy cases or studies. Checklist is organized by chapter of the Bankruptcy Code (i.e. 1, 3, 5, 7, 11, 13 and 15), and, within each chapter by Code section, with additional sections covering items typically needed upon the filing of a case, rules on adversary proceedings, appeals, and notices. This checklist is meant to be a list of all of the potential documents in a case.

Essential Circuits Reference Guide  
A guide to research, this volume includes 925 studies of Chaucer written between 1900 and 1984. Each entry is listed once, alphabetically, under an appropriate topic heading or under the title of the work it treats most directly. The annotations provide bibliographic information, identify the primary focus of the item annotated, and summarize its content. See entry PR1868. These classic circuits were chosen from Markus' Sourcebook of electronic circuits (1968), Electronics circuits manual (1971), and Guidebook of electronics circuits (1974). With circuit integration onto chips, many older circuits become obsolete. This guide is a distillation of those circuits still in use today for which parts are still available.
