Playing the Viola Aug 20 2021 `In all areas of human endeavour, time and again an individual appears who, due to a multitude of personal attributes, elevates his or her field to a hitherto unknown height. Such an individual was William Primrose. His name and the viola are synonymous.' Janos Starker This unique book is the result of a series of conversations with Primrose in the last years before his death in 1982. David Dalton describes how he came to the great artist armed with every question he could think of pertaining to performing on and teaching the viola. The lively dialogue contains a wealth of illuminating advice for the student on the technicalities of playing the viola. It is, however, far more than a technical guide. The two violists discuss the unique position of their instrument - `an instrument without tradition' is Primrose's bald description. They cover the topic of repertoire with fascinating insights into the performance of the great concertos by Bartók and Walton, with which Primrose was so closely associated. Still more invaluable advice emerges from the discussion of Primrose's own experience, on the art of performance, on demeanour on stage, on competitions, on recordings, and on preparing for a career. The book is a tribute to one of the greatest artists of this century.

A Curious Man Aug 08 2020 A Curious Man is the marvelously compelling biography of Robert "Believe It or Not" Ripley, the enigmatic cartoonist turned globetrotting millionaire who won international fame by celebrating the world's strangest oddities, and whose outrageous showmanship taught us to believe in the unbelievable. As portrayed by acclaimed biographer Neal Thompson, Ripley's life is the stuff of a classic American fairy tale. Buck-toothed and cursed by shyness, Ripley turned his sense of being an outsider into an appreciation for the strangeness of the world. After selling his first cartoon to Time magazine at age eighteen, more cartooning triumphs followed, but it was his "Believe It or Not" conceit and the wildly popular radio shows it birthed that would make him one of the most successful entertainment figures of his time and spur him to search the globe's farthest corners for bizarre facts, exotic human curiosities, and shocking phenomena. Ripley delighted in making outrageous declarations that somehow always turned out to be true—such as that Charles Lindbergh was only the sixty-seventh man to fly across the Atlantic or that "The Star Spangled Banner" was not the national anthem. Assisted by an exotic harem of female admirers and by ex-banker Norbert Pearlroth, a devoted researcher who spoke eleven languages, Ripley simultaneously embodied the spirit of Peter Pan, the fearlessness of Marco Polo and the marketing savvy of P. T. Barnum. In a very real sense, Ripley sought to remake the world's aesthetic. He demanded respect for those who were labeled "eccentrics" or "freaks"—whether it be E. L. Blystone, who wrote 1,615 alphabet letters on a grain of rice, or the man who could swallow his own nose. By the 1930s Ripley possessed a vast fortune, a private yacht, and a twenty-eight room mansion stocked with such "oddities" as shrunken heads and medieval torture devices, and his pioneering firsts in print, radio, and television were tapping into something deep in the American consciousness—a taste for the titillating and exotic, and a fascination with the fastest, biggest, dumbest and most weird. Today, that legacy continues and can be seen in reality TV, YouTube, America's Funniest Home Videos, Jackass, MythBusters and a host of other pop-culture phenomena. In the end Robert L. Ripley changed everything. The supreme irony of his life, which was dedicated to exalting the strange and unusual, is that he may have been the most amazing oddity of all.
