Flying Free Apr 30 2020 Judy Hamen was born in a hospital in South Dakota just before the start of World War II, when gas was eleven cents a gallon and the average life expectancy for a woman was sixty-five. As she grew into an energetic five-year-old, Judy had no idea that just days before her sixth birthday, she would become motherless—an event that would change the course of her life forever. In her poignant memoir, Hamen details what it was like to grow up without a mother during a chaotic time in American history. Originally told her mother died from typhoid fever, Hamen discloses how it would not be until some twenty-five years later that she would learn the truth about her mother's death. As she shares her journey into womanhood, Hamen provides a glimpse into her unique life story—migrating to Minnesota in the 1950s, marrying at eighteen, and embarking on a diverse career that takes her from a secretarial job at a Ford dealership to Northwest Airlines, for which she trained airline mechanics in foreign countries. Included are illustrations and letters that bring her story to life and document important events. *Flying Free* shares one woman's unique path through life as she overcomes adversity, breaks through barriers, seeks adventure, and finds spiritual inspiration.

Blatant Injustice Jul 02 2020 Grossly unsanitary living conditions, cruel and abusive treatment by camp officials, the withholding of medical treatment - these were common experiences for refugees imprisoned at internment camps in Britain and Canada. Walter Igersheimer's memoir exposes this bleak period in the British and Canadian war record. After escaping from Nazi Germany with his family, Igersheimer was completing his medical studies when he was caught in the panic that led to the interment of 30,000 German and Italian citizens living in Britain. They were placed behind barbed wire and treated as enemies. Many of the Jewish refugees were then sent to prisons in Canada, but the internees did not let the authorities crush their creativity or desire for an education : they started a free university, mounted plays, and wrote musicals. Illegally Yours Jan 08 2021 A funny and poignant memoir about how as a teenager, TV writer Rafael Agustin (Jane The Virgin) accidentally discovered he was undocumented and how that revelation turned everything he thought he knew about himself and his family upside down. Growing up, Rafa's parents didn't want him to feel different because, as his mom told him: "Dreams should not have borders." But when he tried to get his driver's license during his junior year of high school, his parents were forced to reveal his immigration status. Suddenly, the kid who modeled his entire high school career after American TV shows had no idea what to do -- there was no episode of Saved by the Bell where Zack gets deported! While his parents were relieved to no longer live a lie in front of their son, Rafa found himself completely unraveling in the face of his uncertain future. Illegally Yours is a heartwarming, comical look at how this struggling Ecuadorian immigrant family bonded together to navigate Rafa's school life, his parents' work lives, and their shared secret life as undocumented Americans, determined to make the best of their always turbulent and sometimes dangerous American existence. From using the Ricky Martin/Jennifer Lopez "Latin Explosion" to his social advantage in the '90s to how his parents—doctors in their home country of Ecuador—were reduced to working menial jobs in the US, the family's secret became their struggle, and their struggle became their hustle. An alternately hilarious and touching exploration of belonging and identity, Illegally Yours revolves around one very simple question: What does it mean to be American?

Heathrow Airport Oct 29 2022 Love it or loathe it, Heathrow is the United Kingdom's largest and most important airport by a distance. It currently serves over 190 routes to more than 80 countries. Over £100 billion of imports and exports are handled every year, making it the UK's primary port by value. This fascinating book traces the often controversial development of the airport over the last 70 years from the most humble of beginnings. Thanks to the author's in-depth knowledge the arguments for and against the building of a third runway are thoroughly and objectively described. There have been, and indeed still are, those who advocate building a brand new hub airport for London but it is a fact that Heathrow has long been the cornerstone of the local economy, providing jobs for over 70,000 staff. This entertaining, controversial and superbly illustrated book is about much more than the bitter third runway battle. It contains many amusing anecdotes and a wealth of statistics that serve to make Heathrow such a key part of the country's infrastructure.

The Address Book Dec 27 2019 Finalist for the 2020 Kirkus Prize for Nonfiction | One of Time Magazine's 100 Must-Read Books of 2020 | Longlisted for the 2020 Porchlight Business Book Awards "An entertaining quest to trace the origins and implications of the names of the roads on which we reside." —Sarah Vowell, The New York Times Book Review When most people think about street addresses, if they think of them at all, it is in their capacity to ensure that the postman can deliver mail or a traveler won't get lost. But street addresses were not invented to help you find your way; they were created to find you. In many parts of the world, your address can reveal your race and class. In this wide-ranging and remarkable book, Deirdre Mask looks at the fate of streets named after Martin Luther King Jr., the wayfinding means of ancient Romans, and how Nazis haunt the streets of modern Germany. The flipside of having an address is not having one, and we also see what that means for millions of people today, including those who live in

the slums of Kolkata and on the streets of London. Filled with fascinating people and histories, *The Address Book* illuminates the complex and sometimes hidden stories behind street names and their power to name, to hide, to decide who counts, who doesn't—and why.
