A Sourcebook on Naturalist Theatre Aug 01 2022 A Sourcebook on Naturalist Theatre provides essential primary sources which document one of the key movements in modern theatre. Christopher Innes has selected three writers to exemplify the movement, and six plays in particular: * Henrik Ibsen - A Dolls House and Hedda Gabler * Anton Chekhov - The Seagull and The Cherry Orchard * George Bernard Shaw - Mrs Warren's Profession and Heartbreak House. Innes' introduction provides an overview of naturalist theatre. Key themes include: the representation of women, significant contemporary issues and the links between theory, play writing and stage practice. The primary sources explore many aspects of naturalism, giving information on: * the playwrights' intentions when writing plays * contemporary reviews * literary criticism * political and social background * production notes from early performances of the plays.

Masters Theses in the Pure and Applied Sciences Jan 02 2020 Masters Theses in the Pure and Applied Sciences was first conceived, published, and disseminated by the Center for Information and Numerical Data Analysis and Synthesis (CINDAS) at Purdue University in 1957, starting its coverage of theses with the academic year 1955. Beginning with Volume 13, the printing and dissemination phases of the activity were transferred to University Microfilms/Xerox of Ann Arbor, Michigan, with the thought that such an arrangement would be more beneficial to the academic and general scientific and technical community. After five years of this joint undertaking we had concluded that it was in the interest of all concerned if the printing and distribution of the volume were handled by an international publishing house to assure improved service and broader dissemination. Hence, starting with Volume 18, Masters Theses in the Pure and Applied Sciences has been disseminated on a worldwide basis by Plenum Publishing Corporation of New York, and in the same year the coverage was broadened to include Canadian universities. All back issues can also be ordered from Plenum. We have reported in Volume 20 (thesis year 1975) a total of 10,374 theses titles from 28 Canadian and 239 United States universities. We are sure that this broader base for theses titles reported will greatly enhance the value of this important annual reference work. The organization of Volume 20 is identical to that of past years. It consists of these titles arranged by discipline and by university within each discipline.

Hamlet Sep 21 2021 Hamlet, probably composed between 1599 and 1601, takes place in Denmark and tells how Prince Hamlet carries out his revenge on his uncle Claudius who murdered Hamlet's father, the king, and holds the usurped crown as well as nuptials with Gertrude, the mother of Hamlet. The play is vividly traced around insanity (both real and feigned) and the course from deep pain to inordinate anger. It also explores the themes of betrayal, revenge, incest and moral corruption.
