Adoption and Law Jan 25 2020 Using a socio-legal framework, this book explores the experiences that birth mothers face in state sanctioned adoption proceedings in the UK. Featuring personal, in-depth interviews and conversations with 32 birth mothers, the book highlights perspectives and voices that are seldom the focus in leading discourses of professional practice in this area of law. The book also demands that the statutory rights, support and care of birth mothers are recognised and strengthened. This book delivers a comprehensive insight into many aspects and controversies of legal child adoption, including the development and reform of adoption law over history, giving the reader insight into the deep-rooted political and social tensions around the use of adoption. The uniqueness of birth mothers' subjective stories of adoption contrasts powerfully with the legal theory providing the reader with an intimate paradigm of adoption. The book includes discussion of obiter dicta and authoritative guidance on adoption practice from the Supreme Court and Court of Appeal in *Re B (A Child) (Care Proceedings: Appeal)* [2013] UKSC 33 and *Re B-S (Children) (Adoption: Leave to Oppose)* [2013] EWCA Civ 1146. It also considers Court of Appeal's recent ruling on post adoption contact in *Re B (A Child) (Post-Adoption Contact)* [2019] EWCA Civ 29, the first case to come before the court since section 9 of the Children and Families Act 2014 amended the Adoption and Children Act 2002, with the new insertion of section 51A and 51B providing for court ordered post adoption contact. This book is ideally suited to undergraduate students, as well as a more multi-disciplinary audience.

Unveiling the Adoption Process Feb 24 2020 Celebrities like Angelina Jolie and Madonna may have brought adoption into the spotlight, but adoption remains something people do not talk about openly. That silence leads to most people entering the adoption process unprepared for the gamut of emotions and struggles they will encounter. In *Unveiling the Adoption Process*, readers will join seven families on their adoption journeys. Nobody's experience is identical, but they all share knowledge of the unexpected bumps along the way. There are emotional highs and lows, process changes and stressors, and reactions from others to handle, but in the end, these families all achieve the ultimate triumph—the addition of a beloved child to their family. Author Rhonda Miller will prepare prospective adoptive parents for the road ahead with detailed information and insight from those who know it firsthand. Join her as she candidly and realistically unveils the adoption process.

The Politics of Adoption Aug 12 2021 This book explains, compares and evaluates the social and legal functions of adoption within a range of selected jurisdictions and on an international basis. It updates and extends the second edition published by Springer in 2009. From a standpoint of the development of adoption in England & Wales and the changes currently taking place there, it considers the process as it has evolved in other countries. It identifies themes of commonality and difference in the experience of adoption in a common law context as compared and contrasted with that of other countries. It looks at adoption in France, Sweden and other civil law countries, as well as Japan and elsewhere in Asia, including a focus on Islamic adoption. It examines the experience of indigenous people in New Zealand and Australia, contrasting the highly regulated legal

process of modern western society with the traditional practice of indigenous communities such as the Maori. A new chapter studies adoption in China. The book uses the international Conventions and associated ECtHR case law to benchmark developments in national law, policy and practice and to facilitate a cross-cultural comparative analysis.

Intercountry Adoptions Sep 13 2021 The incidence of foreign adoptions from the nations of South America, Eastern Europe and Asia has greatly increased as a result of the drastic decrease in the number of adoptable babies from western nations. This book, written by adoption workers and legal scholars from twelve 'sending' countries, presents, for the first time, details of those countries' adoption laws and procedures as well as international agreements governing foreign adoptions. Intercountry Adoptions constitutes an important and long-awaited reference book for potential adoptive couples, child care workers, legal experts and social service agencies.

Altstein and Simon conclude with a summary based on case studies on the successes and failures of intercountry adoption.

Seven Core Issues in Adoption and Permanency Aug 24 2022 Based on a hugely successful US model, the Seven Core Issues in Adoption is the first conceptual framework of its kind to offer a unifying lens that was inclusive of all individuals touched by the adoption experience. The Seven Core Issues are Loss, Rejection, Shame/Guilt, Grief, Identity, Intimacy, and Mastery/Control. The book expands the model to be inclusive of adoption and all forms of permanency: adoption, foster care, kinship care, donor insemination and surrogacy. Attachment and trauma are integrated with the Seven Core Issues model to address and normalize the additional tasks individuals and families will encounter. The book views the Seven Core Issues from a range of perspectives including: multi-racial, LGBTQ, Hispanic, Asian, Native American, African-American, International, openness, search and reunion, and others. This essential guide introduces each Core Issue, its impact on individuals, offering techniques for growth and healing.
