chance. Cate has just been named the features editor of Gloss, a high-end lifestyle magazine. It's a professional coup, but her new job comes with more complications than Cate ever anticipated. Cate's roommate Renee will do anything to nab the plum job of beauty editor at Gloss. But snide comments about Renee's weight send her into an emotional tailspin. Soon she is taking black market diet pills, despite the racing heartbeat and trembling hands that signal she's heading for real danger. Then there's Abby. Once a joyful graduate student working as a nanny part time, she abruptly fled a seemingly happy life in the D.C. suburbs. No one knows what shattered Abby or why she left everything she once loved behind. Pekkanen's most compelling; true-to-life novel yet tells the story of three very different women as they navigate the complications of careers and love - and find the lifeline they need in each other.

Research Methods in Accounting Sep 13 2021 ` Malcolm Smith's *Research Methods in Accounting* provides a useful addition to the limited number of books on research methods that are addressed specifically to the area of accounting. For students taking DBA degrees in the area, it is probably an ideal companion' - The European Accounting Review Research in accounting is concerned with solving problems, investigating relationships and building a body of knowledge. With this in mind, this book will provide a clear and concise overview of the conduct of applied research studies in accounting. It provides the principal building blocks of how to implement research in accounting and related fields. This book provides students with: - an understanding of contemporary research ideas in accounting, so that readers can identify and define research problems and prepare strategies for their solution; - an awareness of alternative research methods, to facilitate the selection of the most appropriate method for addressing particular research questions; - an ability to review existing research and to offer critiques of articles published in refereed journals; - an appreciation of the

Adult Interactive Style Intervention and Participatory Research Designs in Autism Nov 03 2020
Regardless of their cognitive and linguistic abilities, people with autism can often find it difficult to develop basic communicative skills that are necessary to gain full control over their environment and maintain their independence. Building on the author's own cutting-edge research, *Adult Interactive Style Intervention and Participatory Research Designs in Autism* examines the impact that the interactive style of neurotypical individuals could have on the spontaneous communication of children with autism. This book provides clear and detailed guidance on how to conduct research into autism in real-world settings such as schools and homes. Kossyvaki critically evaluates a wealth of relevant case studies and focuses on a number of methodological issues that researchers are likely to face when carrying out research of this complex nature. The author walks the reader through present literature on the importance of spontaneous communication and the atypical way that this tends to develop in autism, before bringing the results of her own research to bear on the question of how the interactive styles of neurotypical individuals can impact on the spontaneous communication of people with autism. *Adult Interactive Style Intervention and Participatory Research Designs in Autism* is essential reading for academics, researchers, and postgraduate students in the fields of special educational needs, inclusion, autism, research methods, and educational and clinical psychology.

Prejudice, Stigma, Privilege, and Oppression Aug 20 2019 This book addresses the ways in which clinical psychologists ought to conceptualize and respond to the prejudice and oppression that their clients experience. Thus, the link between prejudice and oppression to psychopathology is explored.

Basic scientific information about prejudice is reviewed, and the current status of the major minority groups is explored. Chapters examine the role of prejudice and oppression in institutional structures such as the Diagnostic and Statistical Manual of Mental Disorders and professional organizations. The discussion addresses ways to assess these phenomena in individual cases and how to intervene in psychotherapy. The book ventures to evaluate the status of the profession of psychology with respect to prejudice, stigmatization, and oppression by critically examining evidence that the profession has responded adequately to these social problems. These issues are hard to talk about and are not well talked about in the field. This book is a push in the right direction.

Despite her innate ambition and summa cum laude smarts, Kate Pearson has turned into a major slacker. After being unceremoniously dumped by her handsome "almost fiancé," she abandons her plans and instead spends her days lolling on the couch, watching reruns of Sex and the City. Her friends don't know what to do other than pass tissues and hope for a comeback, while her practical sister, Angela, pushes every remedy she can think of, from trapeze class to therapy to job interviews. Miraculously, Kate manages to land a job in the admissions department at the revered Hudson Day School. In her new position Kate learns there's no time for self-pity or nonsense during the thick of the admissions season, or what her colleagues refer to as "the dark time." As the process revs up, Kate meets smart kids who are unlikable, likeable kids who

Intention and Interpretation: A Short History May 09 2021 Intention plays a complex role in human utterances. The interpretation of literary texts is a strong case in point: for about two hundred years

there have been conflicting views about whether, and how much, authorial intention should matter when professional readers interpret literature. These debates grew increasingly fierce during the post-World War II period, the landmarks of which were the notions of intentional fallacy and the death of the author. Seventy-odd years later, there is still no consensus in sight. What has always been neglected in the debates around authorial intention, however, is a reflection on the historical dimension of the debate and how historically bound each of the theoretical positions in the debate were. This book focusses precisely on the historical dimension of authorial intention, providing a systematic historical reconstruction of the importance ascribed to it in literary texts from Classical Greece to the present day, and including a chapter on authorial intention in jurisdiction and legal interpretation from a historical perspective. The book reconstructs a typology of the most important concepts of intention in interpretation for diachronic and synchronic use. At the same time it offers insights from a field-theoretical perspective into how literary studies as a discipline works over time and how notions of intention and interpretation help create forms of literary knowledge.

The Art of Thinking Clearly Jan 25 2020 A world-class thinker counts the 100 ways in which humans behave irrationally, showing us what we can do to recognize and minimize these "thinking errors" to make better decisions and have a better life Despite the best of intentions, humans are notoriously bad—that is, irrational—when it comes to making decisions and assessing risks and tradeoffs. Psychologists and neuroscientists refer to these distinctly human foibles, biases, and thinking traps as "cognitive errors." Cognitive errors are systematic deviances from rationality, from optimized, logical, rational thinking and behavior. We make these errors all the time, in all sorts of situations, for problems big and small: whether to choose the apple or the cupcake; whether to keep retirement funds in the stock market when the Dow tanks, or whether to take the advice of a friend over a stranger. The "behavioral turn" in neuroscience and economics in the past twenty years has increased our understanding of how we think and how we make decisions. It shows how systematic errors mar our thinking and under which conditions our thought processes work best and worst. Evolutionary psychology delivers convincing theories about why our thinking is, in fact, marred. The neurosciences can pinpoint with increasing precision what exactly happens when we think clearly and when we don't. Drawing on this wide body of research, *The Art of Thinking Clearly* is an entertaining presentation of these known systematic thinking errors--offering guidance and insight into everything why you shouldn't accept a free drink to why you SHOULD walk out of a movie you don't like it to why it's so hard to predict the future to why shouldn't watch the news. The book is organized into 100 short chapters, each covering a single cognitive error, bias, or heuristic.

Examples of these concepts include: Reciprocity, Confirmation Bias, The It-Gets-Better-Before-It-

A Higher Bid May 29 2020 Transform fundraising events into long-term revenue with expert auction advice *A Higher Bid* is the nonprofit school and organization guide to planning and executing more exciting, more lucrative special event fundraisers. In this book, award-winning consultant, fundraiser, speaker, and professional auctioneer Kathy Kingston shares her proprietary and proven approaches to audience development, board empowerment, leadership succession, guest cultivation and engagement, and donor development. You'll learn how live auctions, special appeals, innovative icebreakers, silent auctions, and new technologies can help increase revenue, and how to execute these events in a way that translates to a stronger donor base for long-term giving. Kingston describes how to match the guest list and catalog for better results, and reveals the strategies professional auctioneers use to curate the right auction items and discover the right people to generate optimum revenue and engage donors. This book offers a fresh approach to fundraising, showing you how charity benefit auctions can be made a centerpiece of fundraising special events to drive both short- and long-term fundraising goals while providing a fun and inspiring opportunity to generate awareness and keep supporters excited about the mission. Using Kingston's proven framework, you'll learn effective ways to: Strategically increase high-profit revenue streams Increase your organization's donor base Empower the board toward efficiency and productivity

Engage supporters more deeply and keep them invested Donors are the lifeblood of any nonprofit organization, and sustainable revenue depends upon their high engagement and willingness to give. Well-executed benefit and charity auctions have proven to be effective fundraisers for nonprofits, associations, and schools of all types, and *A Higher Bid* is the expert guide to optimizing these special events for maximum impact.

A List of Things That Didn't Kill Me Aug 12 2021 Jason Schmidt wasn't surprised when he came home one day during his junior year of high school and found his father, Mark, crawling around in a giant pool of blood. Things like that had been happening a lot since Mark had been diagnosed with HIV, three years earlier. Jason's life with Mark was full of secrets—about drugs, crime, and sex. If the straights—people with normal lives—ever found out any of those secrets, the police would come. Jason's home would be torn apart. So the rule, since Jason had been in preschool, was never to tell the straights anything. *A List of Things That Didn't Kill Me* is a funny, disturbing memoir full of brutal insights and unexpected wit that explores the question: How do you find your moral center in a world that doesn't seem to have one?

When March Went Mad Sep 01 2020 "A must-read for anybody who considers themselves a basketball fan."-Michael Wilbon, *The Washington Post* On March 26, 1979, basketball as we know it was born. The NCAA championship game played that day launched an epic rivalry between two exceptional players: Earvin "Magic" Johnson and Larry Bird. Though they played each other only once as college athletes, that game transformed the NCAA tournament into a multibillion-dollar enterprise and laid the foundation for the resurgence of the NBA. To this day it remains the highest-rated basketball game, college or pro, in the history of television. In the national bestseller *When March Went Mad*, Seth Davis recounts the dramatic story of the season leading up to that game, as

Johnson's Michigan State Spartans and Bird's Indiana State Sycamores overcame long odds and great doubts to reach the game's grandest stage. Davis also tells the stories of their remarkable coaches, Jud Heathcote and Bill Hodges, and he shows how tensions over race and class heightened the drama of the competition. Davis combed through several years' worth of newspaper and magazine coverage, interviewed nearly one hundred people, and watched dozens of games to reconstruct the colorful, historic, and improbable narrative of how Larry Bird and Magic Johnson burst on the scene—a coming-of-age story that continues to resonate. The Final Four, the NBA, and the game of basketball have never been the same.

copy New York Times bestseller by the winner of the Nobel Prize in Economics, Richard H. Thaler, and Cass R. Sunstein: a revelatory look at how we make decisions—for fans of Malcolm Gladwell’s *Blink*, Charles Duhigg’s *The Power of Habit*, James Clear’s *Atomic Habits*, and Daniel Kahneman’s *Thinking, Fast and Slow* Named a Best Book of the Year by *The Economist* and the *Financial Times* Every day we make choices—about what to buy or eat, about financial investments or our children’s health and education, even about the causes we champion or the planet itself. Unfortunately, we often choose poorly. *Nudge* is about how we make these choices and how we can make better ones. Using dozens of eye-opening examples and drawing on decades of behavioral science research, Nobel Prize winner Richard H. Thaler and Harvard Law School professor Cass R. Sunstein show that no choice is ever presented to us in a neutral way, and that we are all susceptible to biases that can lead us to make bad decisions. But by knowing how people think, we can use sensible “choice architecture” to nudge people toward the best decisions for ourselves, our families, and our society, without restricting our freedom of choice.

Orthogeriatrics Mar 19 2022 This new open access edition supported by the Fragility Fracture Network aims at giving the widest possible dissemination on fragility fracture (especially hip fracture) management and notably in countries where this expertise is sorely needed. It has been extensively revised and updated by the experts of this network to provide a unique and reliable content in one single volume. Throughout the book, attention is given to the difficult question of how to provide best practice in countries where the discipline of geriatric medicine is not well established and resources for secondary prevention are scarce. The revised and updated chapters on the epidemiology of hip fractures, osteoporosis, sarcopenia, surgery, anaesthesia, medical management of frailty, peri-operative complications, rehabilitation and nursing are supplemented by six new chapters. These include an overview of the multidisciplinary approach to fragility fractures and new contributions on pre-hospital care, treatment in the emergency room, falls prevention, nutrition and systems for audit. The reader will have an exhaustive overview and will gain essential, practical knowledge on how best to manage fractures in elderly patients and how to develop clinical systems that do so reliably.

Ten Girls to Watch Oct 26 2022 A radiant debut novel about stumbling through the early years of adulthood— and a love letter to the role models who light the way. Like so many other recent graduates, Dawn West is trying to make her way in New York City. She’s got an ex-boyfriend she can’t quite stop seeing, a roommate who views rent checks and basic hygiene as optional, and a writing career that’s gotten as far as penning an online lawn care advice column. So when Dawn lands a job tracking down the past winners of Charm magazine’s “Ten Girls to Watch” contest, she’s thrilled. After all, she’s being paid to interview hundreds of fascinating women: once outstanding college students, they have gone on to become mayors, opera singers, and air force pilots. As Dawn gets to know their life stories, she’ll discover that success, love, and friendship can be found in the most unexpected of places. Most importantly, she’ll learn that while those who came before us can be role models, ultimately, we each have to create our own happy ending.

one of the most affluent areas of Northern California, and three charming kids whose sunny futures are all but assured. And then comes their eldest daughter's senior year of high school . . . Firstborn Angela Hawthorne is a straight-A student and star athlete, with extracurricular activities coming out of her ears and a college application that's not going to write itself. She's set her sights on Harvard, her father's alma mater, and like a dog with a chew toy, Angela won't let up until she's basking in crimson-colored glory. Except her class rank as valedictorian is under attack, she's suddenly losing her edge at cross-country, and she can't help but daydream about a cute baseball player. Of course Angela knows the time put into her schoolgirl crush would be better spent coming up with a subject for her English term paper—which, along with her college essay, has a rapidly approaching deadline. Angela's mother, Nora, is similarly stretched to the limit, juggling parent-teacher meetings, carpool, and a real estate career where she caters to the mega-rich and super-picky buyers and sellers of the Bay Area. The youngest daughter, second-grader Maya, still can't read; the middle child, Cecily, is no longer the happy-go-lucky kid she once was; and their dad, Gabe, seems oblivious to the mounting pressures at home because a devastating secret of his own might be exposed. A few ill-advised moves put the Hawthorne family on a collision course that's equal parts aching real and delightfully screwball—and they learn that whatever it cost to get their lucky lives it may cost far more to keep them. Sharp, topical, and wildly entertaining, *The Admissions* shows that if you pull at a loose thread, even the sturdiest lives start to unravel at the seams of high achievement.

The IVP Bible Background Commentary: New Testament Nov 22 2019 Craig S. Keener presents fascinating, wonderfully useful information on the historical and cultural backgrounds of nearly every verse in the New Testament.

current political media strategist comes a suspenseful and smart commercial novel about the first female president and all dramas and deceptions she faces both in politics and in love. Eighteen Acres, a description used by political insiders when referring to the White House complex, follows the first female President of the United States, Charlotte Kramer, and her staff as they take on dangerous threats from abroad and within her very own cabinet. Charlotte Kramer, the 45th US President, Melanie Kingston, the White House chief of staff, and Dale Smith, a White House correspondent for one of the networks are all working tirelessly on Charlotte's campaign for re-election. At the very moment when they should have been securing success, though, Kramer's White House implodes under rumors of her husband's infidelity and grave errors of judgment on the part of her closest national security advisor. In an upheaval that threatens not only the presidency, but the safety of the American people, Charlotte must fight to regain her footing and protect the the country she has given her life to serving. Eighteen Acres combines political and family drama into one unput-downable novel. It is a smart, juicy and fast-paced read that we're sure fans of commercial women's fiction will fall in total love with.

Pain, Parties, Work Jun 17 2019 "I dreamed of New York, I am going there." On May 31, 1953, twenty-year-old Sylvia Plath arrived in New York City for a one-month stint at "the intellectual fashion magazine" Mademoiselle to be a guest editor for its prestigious annual college issue. Over the next twenty-six days, the bright, blond New England collegian lived at the Barbizon Hotel, attended Balanchine ballets, watched a game at Yankee Stadium, and danced at the West Side Tennis Club. She typed rejection letters to writers from The New Yorker and ate an entire bowl of caviar at an advertising luncheon. She stalked Dylan Thomas and fought off an aggressive diamond-wielding delegate from the United Nations. She took hot baths, had her hair done, and discovered her signature drink (vodka, no ice). Young, beautiful, and on the cusp of an advantageous career, she was supposed to be having the time of her life. Drawing on in-depth interviews with fellow guest editors whose memories infuse these pages, Elizabeth Winder reveals how these twenty-six days

indelibly altered how Plath saw herself, her mother, her friendships, and her romantic relationships, and how this period shaped her emerging identity as a woman and as a writer. Pain, Parties, Work—the three words Plath used to describe that time—shows how Manhattan's alien atmosphere unleashed an anxiety that would stay with her for the rest of her all-too-short life. Thoughtful and illuminating, this captivating portrait invites us to see Sylvia Plath before *The Bell Jar*, before she became an icon—a young woman with everything to live for.

texts to delve into how psychology affects investing rather than solely focusing on traditional financial theory. This text's material, however, does not replace traditional investment textbooks but complements them, helping students become better informed investors who understand what motivates the market. Keep learning consistent: Most of the chapters are organized in a similar succession. This approach adheres to following order: -A psychological bias is described and illustrated with everyday behavior -The effect of the bias on investment decisions is explained - Academic studies are used to show why investors need to remedy the problem Growing with the subject matter: Current and fresh information. Because data on investor psychology is rapidly increasing, the fifth edition contains many new additions to keep students up-to-date. The new Chapter 12: Psychology in the Mortgage Crisis describes the psychology involved in the mortgage industry and ensuing financial crisis. New sections and sub-sections include "Buying Back Stock Previously Sold", "Who Is Overconfident," "Nature or Nurture?", "Preferred Risk Habitat," "Market Impacts," "Language," and "Reference Point Adaptation."

Interdisciplinary Mathematics Education Jul 31 2020 This open access book is the first major publication on the topic of "Interdisciplinary Mathematics Education" and arose from the work of the first International Topic Study Group of the same name at the ICME-13 conference in Hamburg in 2016. It offers extensive theoretical insights, empirical research, and practitioner accounts of interdisciplinary mathematics work in STEM and beyond (e.g. in music and the arts). Scholars and practitioners from four continents contributed to this comprehensive book, and present studies on: the conceptualizations of interdisciplinarity; implementation cases at schools and tertiary institutions; teacher education; and implications for policy and practice. Each chapter, and the book itself, closes with an assessment of the most significant aspects that those involved in policy and
