me, you hit the snooze on your alarm at least once every morning. You may even set your alarm so you can hit snooze a few times before you really need to get up. I know I do. Why do we do this? Why do we consistently hit snooze and stay in bed? The reason is that the bed is comfortable. Granted, there are times when we really don't need to get up and forgot to turn off the alarm, but this is not often. We like to stay in our beds because it's warm and safe. We eventually do have to get out of bed. Whether it's work, school, or maybe just to play some video games, we always get out of bed. I want you to ponder this

question as you read: What if you never got out of bed? This is what happens far too often with our faith. We wake up long enough to receive salvation, and then hit the button again, now feeling safe knowing where we're going when we die. It is finally time for you to get up, get out of bed, and see the world.
