No other company is as committed to creating environmentally friendly and affordable technology that's ideal for today's home, no matter the size or shape. Get the M&P Pocket Guide to learn more about our applied Variable Refrigerant Flow products and solutions.

The Provenance of the Pseudepigrapha Mar 10 2021 This book analyzes a substantial corpus of Old Testament pseudepigrapha, proposing a methodology for understanding them first in the social context of their earliest (Christian) manuscripts and inferring still earlier Jewish or other origins only as required by positive evidence.

The Scientific Letters and Papers of James Clerk Maxwell: Volume 3, 1874-1879 Jan 28 2020 This is a comprehensive edition of Maxwell's manuscript papers published virtually complete and largely for the first time.

Transactions Jun 20 2019 Some vols., 1920-1949, contain collections of papers according to subject.

A Nice Derangement of Epistemes Jul 14 2021 Since the 1950s, many philosophers of science have attacked positivism—the theory that scientific knowledge is grounded in objective reality. Reconstructing the history of these critiques, John H. Zammito argues that while so-called postpositivist theories of science are very often invoked, they actually provide little support for fashionable postmodern approaches to science studies. Zammito shows how problems that Quine and Kuhn saw in the philosophy of the natural sciences inspired a turn to the philosophy of language for resolution. This linguistic turn led to claims that science needs to be situated in both historical and social contexts, but the claims of recent "science studies" only deepened the philosophical quandary. In essence, Zammito argues that none of the problems with positivism provides the slightest justification for denigrating empirical inquiry and scientific practice, delivering quite a blow to the "discipline" postmodern science studies. Filling a gap in scholarship to date, *A Nice Derangement of Epistemes* will appeal to historians, philosophers, philosophers of science, and the broader scientific community. **The Gospel of Tatian** May 12 2021 This volume combines some of the leading voices on the composition and collection of early Christian

gospels in order to analyze Tatian's Diatessaron. The rapid rise and sudden suppression of the Diatessaron has raised numerous questions about the nature and intent of this second-century composition. It has been claimed as both a vindication of the fourfold gospel's early canonical status and as an argument for the canon's on-going fluidity; it has been touted as both a premiere witness to the earliest recoverable gospel text and as an early corrupting influence on that text. Collectively, these essays provide the greatest advance in Diatessaronic scholarship in a quarter of a century. The contributors explore numerous questions: did Tatian intend to supplement or supplant the fourfold gospel? How many were his sources and how free was he with their text? How do we identify a Diatessaronic witness? Is it legitimate to use Tatian's Diatessaron as a source in New Testament textual criticism? Is a reconstruction of the Diatessaron still possible? These queries in turn contribute to the question of what the Diatessaron signifies with respect to the broader context of gospel writing, and what this can tell us about how the writing, rewriting and reception of gospel material functioned in the first and second centuries and beyond.

Handbook for the Study of the Historical Jesus (4 vols) Jun 01 2020 With ca. 120 articles from ca. 100 writers from ca. 20 countries, this publication forms a repository where students and scholars can readily get to know their way around the breadth of recent research on the historical Jesus.

Feb 21 2022 This collection of essays is a tribute to Rachel Elijor's decades of

teaching, scholarship and mentoring. If a Festschrift reflects the individuality of the honoree, then this volume offers insights into the scope of Rachel Elijor's interests and scholarly achievements in the study of the Dead Sea Scrolls, Jewish apocalypticism, magic, and mysticism from the Second Temple period to the later rabbinic and Hekhalot developments. The majority of articles included in the volume deal with Jewish and Christian apocalyptic and mystical texts constituting the core of experiential dimension of these religious traditions.

Democracy Beyond Borders Nov 25 2019 Global institutions exercise unprecedented power, yet they are often unaccountable to the people they claim to serve. From the hallowed halls of the United Nations to the closed boardrooms of multinational corporations, decisions are made that impact on all our lives, but are not necessarily governed by democratic principles. How can we ensure that global leaders act responsively and effectively in the interests of global citizens? How can global institutions be transformed to create security and development for all? In this lucid and provocative book, Andrew Kuper provides compelling and practical answers. *Democracy Beyond Borders* begins with a reassessment of the basic philosophical foundations of global order. In a critical dialogue with John Rawls and Jurgen Habermas, the world's most influential political philosophers, Kuper exposes the flawed assumption that nation-states should be the only fundamental political units. He develops instead a theory of global justice that also harnesses the capabilities of non-state actors - such as corporations, non-governmental organizations, and civil society networks. The book shows how these powerful actors can be brought into "multi-level governance" with states as key partners for change. Yet in the absence of global elections, how can these actors be made accountable for their policies and actions? Kuper presents a startling and original theory of representation to answer this challenge. He articulates a new separation of powers, where different global actors check and balance one another in a complex harmony. This radical yet feasible vision makes it possible to recommend far-reaching reforms to the International Court of Justice, the International Criminal Court, the United Nations, and advocacy agencies such as Transparency International, among others. Impressive in its scope and inventiveness, *Democracy Beyond Borders* stands at the

forefront of a new generation of political thought, for which globalization is the challenge and deepening democracy the solution.

Stephen A. Douglas and Antebellum

Democracy Aug 23 2019 This thematic biography demonstrates how Stephen Douglas's path from a conflicted youth in Vermont to dim prospects in New York to overnight stardom in Illinois led to his identification with the Democratic Party and his belief that the federal government should respect the diversity of states and territories. His relationships with his mother, sister, teachers, brothers-in-law, other men and two wives are explored in depth. When he conducted the first cross-country campaign by a presidential candidate in American history, few among the hundreds of thousands that saw him in 1860 knew that his wife and he had just lost their infant daughter or that Douglas controlled a large Mississippi slave plantation. His story illuminates the gap between democracy then and today. The book draws on a variety of previously unexamined sources.

Thinking Through Style Jul 02 2020 What is 'style', and how does it relate to thought in language? It has often been treated as something merely linguistic, independent of thought, ornamental; stylishness for its own sake. Or else it has been said to subserve thought, by mimicking, delineating, or heightening ideas that are already expressed in the words. This ambitious and timely book explores a third, more radical possibility in which style operates as a verbal mode of thinking through. Rather than figure thought as primary and pre-verbal, and language as a secondary delivery system, style is conceived here as having the capacity to clarify or generate thinking. The book's generic focus is on non-fiction prose, and it looks across the long nineteenth century. Leading scholars survey twenty authors to show where writers who have gained reputations as either 'stylists' or as 'thinkers' exploit the interplay between 'the what' and 'the how' of their prose. The

study demonstrates how celebrated stylists might, after all, have thoughts worth attending to, and that distinguished thinkers might be enriched for us if we paid more due to their style. More than reversing the conventional categories, this innovative volume shows how 'style' and 'thinking' can be approached as a shared concern. At a moment when, especially in nineteenth-century studies, interest in style is re-emerging, this book reevaluates some of the most influential figures of that age, re-imagining the possible alliances, interplays, and generative tensions between thinking, thinkers, style, and stylists.

The Elusive West and the Contest for Empire, 1713-1763 Jun 13 2021 A truly continental history in both its geographic and political scope, *The Elusive West and the Contest for Empire, 1713-1763* investigates eighteenth-century diplomacy involving North America and links geographic ignorance about the American West to Europeans' grand geopolitical designs. Breaking from scholars' traditional focus on the Atlantic world, Paul W. Mapp demonstrates the centrality of hitherto understudied western regions to early American history and shows that a Pacific focus is crucial to understanding the causes, course, and consequences of the Seven Years' War.

Lucan's Bellum Civile Nov 06 2020 Die Beiträge zur Altertumskunde enthalten Monographien, Sammelbände, Editionen, Übersetzungen und Kommentare zu Themen aus den Bereichen Klassische, Mittel- und Neulateinische Philologie, Alte Geschichte, Archäologie, Antike Philosophie sowie Nachwirken der Antike bis in die Neuzeit. Dadurch leistet die Reihe einen umfassenden Beitrag zur Erschließung klassischer Literatur und zur Forschung im gesamten Gebiet der Altertumswissenschaften.

Plants and Empire Oct 05 2020 Plants seldom figure in the grand narratives of war, peace, or even everyday life yet they are often at the

center of high intrigue. In the eighteenth century, epic scientific voyages were sponsored by European imperial powers to explore the natural riches of the New World, and uncover the botanical secrets of its people.

Bioprospectors brought back medicines, luxuries, and staples for their king and country. Risking their lives to discover exotic plants, these daredevil explorers joined with their sponsors to create a global culture of botany. But some secrets were unearthed only to be lost again. In this moving account of the abuses of indigenous Caribbean people and African slaves, Schiebinger describes how slave women brewed the "peacock flower" into an abortifacient, to ensure that they would bear no children into oppression. Yet, impeded by trade winds of prevailing opinion, knowledge of West Indian abortifacients never flowed into Europe. A rich history of discovery and loss, *Plants and Empire* explores the movement, triumph, and extinction of knowledge in the course of encounters between Europeans and the Caribbean populations.

The Origin and Persistence of Evil in Galatians

Sep 04 2020 "Was Paul's view of evil based on Adam's fall or a mere reflex of Christology? Tyler A. Stewart argues that, in Galatians, Paul's thoughts about where evil comes from and why it continues are not based on Adam's fall as the background story, but rather the rebellion of angels."--Page 4 of printed paper wrapper.

Interpretacija Svetega Pisma Feb 27 2020 "This unique volume is perhaps the most comprehensive scholarly work of our time on the translation and interpretation of the Bible." "At its core are papers presented to an international symposium in Ljubljana in September 1996 to mark the publication of the new Slovenian version of the Bible, a landmark in Slovene identity and cultural life. In addition, its distinguished editor, Joze Krasovec, has commissioned a wide range of contributions devoted to translations of the Bible in many languages, including Croatian, Czech, Hungarian, Polish and the Scandinavian languages."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc.
