Letter Writing as a Social Practice Oct 30 2019 This book explores the social significance of letter writing. Letter writing is one of the most pervasive literate activities in human societies, crossing formal and informal contexts. Letters are a common text type, appearing in a wide variety of forms in most domains of life. More broadly, the importance of letter writing can be seen in that the phenomenon has been widespread historically, being one of earliest forms of writing, and a wide range of contemporary genres have their roots in letters. The writing of a letter is embedded in a particular social situation, and like all other types of literary objects and events, the activity gains its meaning and significance from being situated in cultural beliefs, values, and practices. This book brings together anthropologists, historians, educators and other social scientists, providing a range of case studies that explore aspects of the socially situated nature of letter writing.

The Making of a Mystic Mar 16 2021 Evelyn Underhill (1875-1941) achieved international fame in 1911 with the publication of her book, *Mysticism*, now in its eighteenth edition. In the course of her long career she published nearly forty books, including three novels and two volumes of poetry, as well as numerous poems in periodicals. She was the religion editor for *Spectator*, a friend of T. S. Eliot (her influence is visible in his last masterpiece, *Four Quartets*), and the first woman invited to lecture on theology at Oxford University. In time for the centennial celebration of her classic *Mysticism*, this volume of Underhill's letters will enable readers and researchers to follow her as she reconciled her beliefs with her daily life. The letters reveal her personal and theological development and clarify the relationships that influenced her life and work. Drawing from collections previously unknown to scholars, this volume demonstrates an exceptional range and scope, including Underhill's earliest letters from boarding school to her mother, correspondence with Nobel prize laureate Rabindranath Tagore and Sir James Frazer, and a letter written to T. S. Eliot from what was to be her deathbed in London in 1941 as the London Blitz blazed around her.

A Letter in the Wall Jul 20 2021 It ' s 1971, and Joan Dumann fears her former business partner wants her dead—but her anxiety is less about dying than it is about feeling disrespected and invalidated. As she constructs a letter about her predicament, she revisits her past. Born into a prominent Philadelphia Quaker family in 1915 and raised with privilege and opportunity, Joan wrestles with her turbulent thoughts and unfulfilled desires—an internal battle that often results in self-destructive tendencies. When she attempts to push against the norms for women of her time in order to forge her own identity, she is met with resistance. Yet she might also be her own worst enemy, often alienating those who care deeply for her. Both manipulative and vulnerable, naïve and conniving, Joan is, like many people, complex and misunderstood. Inspired by a letter written by the real Joan, found hidden in the wall of a Pennsylvania home more than half a century later, this story is a fictionalized imagining of who she was and what motivated her. Moving through several decades and events—from the 1918 influenza pandemic to Prohibition to the Great Depression to Vietnam—A Letter in the Wall examines the internal and external factors that influence one woman ' s journey toward independence and empowerment.

Letter Writing Jan 02 2020 The contributions in this book discuss letter-writing from 1400 to 1800, and the material studied ranges from the late medieval Paston Letters and the correspondence between Sweden and the German Hanse to Early Modern English family letters and correspondence in natural history between England and North America in the eighteenth century. By bringing a set of corpus linguistic, discourse analytic, pragmatic and sociolinguistic approaches to bear on historical letter-writing activity, the articles both extend and complement the traditional letter-writing research in the history of European languages, which approaches the topic from a largely rhetorical perspective. The articles in this book were first published as a Special Issue of the *Journal of Historical Pragmatics* 5:2 (2004), share a contextualised view of letters: whether approached from the perspective of language contact, social and discursive practices, intertextuality, audience design or linguistic politeness, letters are analysed as part of their specific familial, business or scientific network. Writing letters thus emerges as highly context-sensitive social interaction.

Stravinsky Apr 04 2020 Widely regarded the greatest composer of the twentieth century, Igor Stravinsky was central to the development of modernism in art. Deeply influential and wonderfully productive, he is remembered for dozens of masterworks, from *The Firebird* and *The Rite of Spring* to *The Rake's Progress*, but no dependable biography of him exists. Previous studies have relied too heavily on his own unreliable memoirs and conversations, and until now no biographer has possessed both the musical knowledge to evaluate his art and the linguistic proficiency needed to explore the documentary background of his life—a life whose span extended from tsarist Russia to Switzerland, France, and ultimately the United States. In this revealing volume, the first of two, Stephen Walsh follows Stravinsky from his birth in 1882 to 1934. He traces the composer's early Russian years in new and fascinating detail, laying bare the complicated relationships within his family and showing how he first displayed his extraordinary talents within the provincial musical circle around his teacher, Nikolay Rimsky-Korsakov. Stravinsky's brilliantly creative involvement with the Ballets Russes is illuminated by a sharp sense of the internal artistic politics that animated the group. Portraying Stravinsky's circumstances as an émigré in France trying to make his living as a conductor and pianist as well as a composer while beset by emotional and financial demands, Walsh reveals the true roots of his notorious obsession with money during the 1920s and describes with sympathy the nature of his long affair with Vera Sudeykina. While always respecting Stravinsky's own insistence that life and art be kept distinct, Stravinsky makes clear precisely how the development of his music was connected to his life and to the intellectual environment in which he found himself. But at the same time it demonstrates the composer's remarkably pragmatic psychology, which led him to consider the welfare of his art to be of paramount importance, before which everything else had to give way. Hence, for example, his questionable attitude toward Hitler and Mussolini, and his reputation as a touchy, unpredictable man as famous for his enmities as for his friendships. Stephen Walsh, long established as an expert on Stravinsky's music, has drawn upon a vast array of material, much of it unpublished or unavailable in English, to bring the man himself, in all his color and genius, to glowing life. Written with elegance and energy, comprehensive, balanced, and original, Stravinsky is essential reading for anyone interested in the adventure of art in our time. Praise from the British press for Stephen Walsh's *The Music of Stravinsky* "One of the finest general studies of the composer." —Wilfrid Mellers, composer, *Times Literary Supplement* "The beautiful prose of *The Music of Stravinsky* is itself a fund of arresting images. For those who already love Stravinsky's music, Walsh's essays on each work will bring a smile of recognition and joy at new kernels of insight. For those unfamiliar with many of the works he discusses, Walsh's commentaries are likely to whet appetites for performances of the works." —John Shepherd, *Notes* "This book sent me scurrying back to the scores and made me want to recommend it to other people. Above all, it is a good read." —Anthony Pople, *Music and Letters*

To the Letter Jan 26 2022 The New York Times bestselling author of Just My Type and On the Map offers an ode to letter writing and its possible salvation in the digital age. Few things are as exciting—and potentially life-changing—as discovering an old letter. And while etiquette books still extol the practice, letter writing seems to be disappearing amid a flurry of e-mails, texting, and tweeting. The recent decline in letter writing marks a cultural shift so vast that in the future historians may divide time not between BC and AD but between the eras when people wrote letters and when they did not. So New York Times bestselling author Simon Garfield asks: Can anything be done to revive a practice that has dictated and tracked the progress of civilization for more than five hundred years? In To the Letter, Garfield traces the fascinating history of letter writing from the love letter and the business letter to the chain letter and the letter of recommendation. He provides a tender critique of early letter-writing manuals and analyzes celebrated correspondence from Erasmus to Princess Diana. He also considers the role that letters have played as a literary device from Shakespeare to the epistolary novel, all the rage in the eighteenth century and alive and well today with bestsellers like The Guernsey Literary and Potato Peel Pie Society. At a time when the decline of letter writing appears to be irreversible, Garfield is the perfect candidate to inspire bibliophiles to put pen to paper and create "a form of expression, emotion, and tactile delight we may clasp to our heart."
