My husband was diagnosed with early-onset Parkinson's disease when he was fifty years old. Two years later, his diagnosis was changed to Lewy body dementia with Parkinsonism. I decided to keep track of our journey and the twists and turns people deal with when diagnosed with a debilitating disease. I tried to cover all the basics on a timeline—from being diagnosed, different medications we tried, a constant decline in the activities of daily living, being hospitalized, entering a nursing home or coming home, and having in-home health care. When you have a loved one with a devastating

illness, whether it is a spouse or a parent, you want the very best care for them if you can't care for them yourself. This book covers our experiences with issues involving health insurance, nursing homes, trying to work full-time, and the reliability of several in-home health care agencies and the unfortunate nightmares you deal with on a regular basis. It also touches on how to deal with the stress you experience when your life doesn't turn out as you thought. I ended up losing my job because of all the times I missed trying to work trying to care for my aging parents (my mom Alzheimer's), my spouse, and family and all the duties that go along with owning a home. The brain is such a complex organ, and when it starts to die, it affects every person differently. I hope this book will help others dealing with loved ones suffering from dementia by giving them awareness, insight, and an idea of what to expect as the disease progresses.

No Buddy Left Behind Jan 27 2022 No Buddy Left Behind unveils the life-altering relationships American troops serving in the Middle East have shared with the stray dogs and cats they've rescued from the brutalities of war. Overcoming monumental obstacles, Operation Baghdad Pups' program manager Terri Crisp makes it her mission to save these wartime "buddies," get them out of danger, and bring them home to the soldiers who love them. How exactly does someone get animals out of a country at war when normal resources are lacking and every step of a plan to transport animals could get you arrested, kidnapped, or blown apart? As Crisp soon learns, each rescue mission from first to last is a fly-by-the-seat-of-your-pants experience, and no animal is truly safe until its paws touch U.S. soil. Terri and her team have saved the lives of 223 dogs and forty-two cats befriended by military personnel since February 2008—and No Buddy Left Behind finally tells this story.

Television Series of the 1960s Sep 30 2019 By 1960, watching television had become the pastime of millions of viewers around the world. Week after week, audiences tuned in to watch their favorite programs and catch up with their favorite characters. During the 1960s, some of the most beloved shows of all time originally aired, including The Andy

Griffith Show, The Fugitive, Get Smart, The Man from U.N.C.L.E., and The Wild, Wild West. Even after these shows departed the airwaves, they lived on in syndication, entertaining several generations of viewers. Devoted and casual fans alike can probably remember basic facts about these shows—like the name of Rob Petrie's boss on The Dick Van Dyke Show or the original captain of the USS Enterprise—but more obscure facts, like Barney Fife's middle name, might be harder to recall. In Television Series of the 1960s: Essential Facts and Quirky Details, Vincent Terrace presents readers with a cornucopia of information about more than seventy-five programs from the decade. For example, did you know that on The Addams Family, Lurch's mother wanted him to become a jockey? Or that on The Avengers, John Steed had a pet dog named Freckles? Or that Patty and Cathy Lane of The Patty Duke Show had a distant cousin named Betsy Lane? These are but a few of the hundreds of fun and intriguing specifics contained within this volume. Shows from all three major networks (ABC, CBS, and NBC)—as well as select syndicated programs—are represented here. This is not a book of opinions or essays about specific television programs but a treasure trove of the facts associated with each of these programs. From Mister Ed's social security number to the zip code for Hooterville on Green Acres, readers will discover a wealth of fascinating information that, for the most part, cannot be found anywhere else. In some cases, the factual

data detailed herein is the only such documentation that exists. Television Series of the 1960s is the ideal reference for fans of this decade and anyone looking to stump even the most knowledgeable trivia expert.

**Talk is Cheap** Feb 02 2020 Fed up with the high tolls charged by your ordinary telephone service? If you're itching to cut the copper cord with your costly, traditional phone service, you need *Talk is Cheap*, the new, easy-to-understand guide to understanding and using Voice over Internet Protocol (VoIP) and other Internet telephone options. Technologies such as VoIP are gaining a great deal of attention these days as more people switch from standard telephone service to phone service via the Internet. But while the cost savings are outstanding, there are some issues with Internet telephony that you should know about. Are the connections reliable? Is the quality comparable? Will it include 911 services? James Gaskin's *Talk is Cheap* addresses these issues and many more by explaining how to make the switch and what the tradeoffs will be if you opt

for Internet telephony over traditional phone services. *Talk is Cheap* focuses on the increasingly popular services from Vonage, which uses VoIP, and Skype--a free service that operates as a peer-to-peer (P2P) network with the ability to turn any PC, Mac, or Pocket PC into a telephone. The book explains your options; explores the background behind, the workings of, and differences between VoIP and P2P networks; and discusses the advantages and drawbacks of both technologies (including service offerings, quality, capabilities, completion rates, and more). *Talk is Cheap* then goes into detail on what you can expect in Internet service from traditional phone companies such as Verizon and AT&T. In addition, you will learn more advanced techniques, including how to turn your Palm or Pocket PC into an Internet phone and how to work with Wi-Fi phones and videophones. A straightforward, quick introduction to the ins and outs of using Internet telephone services, this book provides everything you need to make informed telephone decisions--whether you're thinking about the switch from traditional phone service or have already made it and want to get the most out of your new Internet telephone.

**Not Taco Bell Material** Jan 15 2021 In his second book, Adam Carolla—author of New York Times bestseller *In Fifty Years We'll All Be Chicks* and chart-topping podcaster—reveals all the stories behind how he came to be the angry middle-aged man he is today. Funnyman Adam Carolla is known for two things: hilarious rants about things that drive him crazy and personal stories about everything from his hardscrabble childhood to his slacker friends to the hypocrisy of Hollywood. He tackled rants in his first book, and now he tells his best stories and debuts some never-before-heard tales as well.

Organized by the myriad "dumps" Carolla called home—through the flophouse apartments he rented in his twenties, up to the homes he personally renovated after achieving success in Hollywood—the anecdotes here follow Adam's journey and the hilarious pitfalls along the way. Adam Carolla started broke and blue collar and has now been on the Hollywood scene for over fifteen years, yet he never lost his underdog demeanor. He's still connected to the working class guy he once was, and delivers a raw and

edgy, fish-out-of-water take on the world he lives in (but mostly disagrees with), telling all the stories, no matter who he offends—family, friends or the famous.

*Dead Eyes* Jul 09 2020 Dennis Glenn was a shy, socially awkward teenager when he met Elise Pinera, the daughter of a funeral home owner. His family struggled in life. Her family was well-healed. They came from different social classes. Still, they fell in love with each other. Her family tried to keep them apart, but their love was too strong. They married despite her family's wishes. With time, her family came to terms with their marriage. They even paid for Dennis to attend mortuary school. When he graduated, Anthony Pinera offered him a job in the family crematorium. The crematorium only operated between 11pm and 7am. The hours suited Dennis well. He didn't especially like being around people. He was a loner. The graveyard shift provided him solitude, quiet and the opportunity to work alone. He enjoyed his time in the crematorium. That was until bodies began piling up in the refrigeration room. There was something unusual about those bodies. Their eyes were open. They would not close. They looked up at him every night. He believed that they were trying to tell him something. Sometimes, he thought that he heard their screams as he dropped the corpses into the cremation furnace. A series of tragedies struck the Pinera family. First, Gloria Booker, the ex-stepmother of Elise, died in a car accident. Then, Elise's parents were killed

in a gas explosion at their house. All three of the bodies were cremated by Dennis. But, that was just the beginning of a series of events that made Dennis realize that something evil was happening in the Pinera Family Funeral Home. His questions resulted in threats. The threats materialized into action. Dennis had no way out. He couldn't go to the police. They owned the police. He was driving down a dead-end road that could only end in death. His family was in danger. In one final attempt to save himself and his family, Dennis searched for the evidence that would bring down the funeral home owners. His efforts that night resulted in a fire at the funeral home that killed five people. It also resulted in several murders at the crematorium. But did any of this really happen?
